Enclosed herewith is a copy of the Water Right License issued on the above referenced permit.

Thank you for your letter of March 28 in which you confirmed your use of water for irrigation of two (2) acres. As indicated in correspondence to you dated March 25, 1991, your original filing identified only one (1) acre of irrigation. The license issued on this permit cannot be expanded to include the other acre. In order to secure a water right for the additional acre, a second filing needs to be made. Enclosed for your use in this matter is an Application for Permit form.

If you have any questions, feel free to contact us.

RE: Permit No. 96-8496

Dear Sir:

In reviewing the copy of our proposed license for water rights we feel there has been some mistake made in the number of acres to be irrigated. On the Proof of Beneficial Use form we indicated that we wanted to be able to irrigate two acres, however on the application for permit it is listed as one acre domestic. Currently we are only irrigating one acre even though we have the system to irrigate both acres. We are planning to do some landscaping and to add several fruit trees which will make it necessary to be able to irrigate both acres. When we filed the application for permit we did not have the system complete nor did we have our garden and yard plans finished, but I think we tried to make it clear to the director of the local office that we wanted to be able to irrigate two acres at some time in the future. We are not engaged in farming for profit and we use our produce for our own domestic use which may have led to the confusion between the number of acres listed on the permit and the number of acres filed for on the Proof of Beneficial Use. We simply wanted to be able to water two acres of lawn, flower gardens, vegetables and fruit trees, as well as be able to water any stock we might decide to raise solely for our own use.

When your office reviews our application for license please notice that we did ask for two acres on our Proof of Beneficial Use and we would like to be allowed to irrigate both acres.

Sincerely,

Dennis L. Lenning

Athol, ID 83801

Dear Mr. and Mrs. Lenning:

Enclosed is a draft copy of the license proposed to be issued on the above referenced water right.

This right is currently being reviewed by this office for licensing. The enclosed preliminary copy is subject to change upon further administrative review. We ask that you review the proposed license and if you do not concur with the information, please let us know within 10 days.

Please note that the acreage listed for the irrigation use is limited to one (1) acre. This is because the original filing only listed one acre. However, our examiner actually found two (2) acres being irrigated. You should be aware that it is illegal to irrigate land without a valid water right. You will be in violation of Section 42-210, Idaho Code, if you continue to irrigate the acre not covered by this water right. The department can issue a cease and desist order preventing the irrigation of that land.

Sincerely,

SHARLA CURTIS

Dear Mr. Lenning:

Dear Permitholder:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you prior to the time the examination is made so that you may demonstrate the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

PROOF DUE NOTICE

RE: PERMIT NO. 96-08496

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
