Dear Mr. Skaggs -

Attached is our check in the amount of \$75⁰⁰ per your letter dated 8-17-92 for licensing our water permit #96-08380.

I feel that penalizing us is out of order since I originally applied for .34 CFS and would have been happy to pay whatever fee was appropriate at the time. I do not know why our permit was issued for .20 CFS instead of .34 CFS but .34 CFS is a realistic amount and we wish to be licensed for that amount no matter what the fees may be. Our subdivision can ultimately contain 40 homes and that is the basis for our need to be licensed for

(2)

.34 CFS.

I note that your inspector has indicated that our works have a diversion capacity of .53 CFS. We have a primary pump that pumps all of our water. We also have a small emergency pump that is only used if we have to perform maintenance on the primary pump. I pointed this out to your inspector but it appears to me that she added the two pumps together to come up with .53 CFS.

I am aware that I signed the "Proof of Beneficial Use" but I did not fill out the form and signed not realizing that it reduced my diversion rights. **MURPHY**
PER 3/16/1992
it is my fault that I signed

③

without clearly understanding
what I was signing but
I do understand now and
am asking that the license
be issued for the requested
amount of .34 CSE.

RE: Permit No. 96-08380

Dear Permit Holder(s):

We are in the process of licensing the above referenced water right. Because of an insufficient examination fee, the Department has no alternative but to issue the license for less than the amount actually diverted unless an additional fee is received. The amount of water to be licensed will be limited to 0.20 cfs rather than 0.30 cfs.

You can submit the additional exam fee along with a late payment penalty. The priority of the right will be advanced according to the number of days from the date of this letter to the date we receive the extra fee.

The exam fee required to cover the 0.30 cfs is \$50.00 and the late payment penalty is \$25.00, for a total of \$75.00.

The Department will hold action on licensing this right for 30 days to allow you to submit the above fee. If we do not receive the additional fee, we will proceed with licensing the water right for the limited amount of water.

Sincerely,

PAMELA SKAGGS
Water Resource Agent

2 wells; P.d. #1 has 7 1/2 hp pump, pumping water into a large pressure tank (size unknown) and then to homes through a 2" mainline. P.d. #2 has a 3 hp pump pumping water into a pressure tank (about 100g) and then to 2" main line and then to homes. P.d. #1 & P.d. #2 go into same main line, & create back pressure for each pump. P.d. #1 is well 8" x 130 ft deep, drilled about 1963; P.d. #2 is well 6" x 120' deep & drilled earlier than 1963.

Re: 96-8380

Dear Permitholder:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Sincerely,

/s/

RE: Permit # 96-8380

Dear Ms. Fleck:

Department of Water Resources

Outlined below is all of the data that we were able to obtain regarding our two wells per your request dated 8-29-88. This data was obtained by interviewing the "Old Timers" in our area and from some penciled notes left by a Mr. Scheaffer, the developer of this small rural subdivision. He has been deceased for many years.

We believe that our well #1 was drilled in June, 1968 by a Dan Burt of Opportunity, Washington, now deceased. It appears that our well #2 was dug by hand by Mr. Scheaffer in the late 1920's or early 1930's when he settled in Bayview. Beyond this we can find no additional sources of information.

This water system has been in service for many years and routinely passed inspection by the Panhandle Health Dist. In view of all this we are having difficulty accepting the sudden necessity of obtaining a permit to do that which we have been doing quite successfully for many years.

Our reservations notwithstanding, we have made a diligent effort to supply you with all obtainable information about our system. We hope this information will suffice, but if not, we will work with you in any way we can.

Yours Truly,

Kenneth C. Lee, Board Member

Dear Permit Holder:

The department received your Proof of Beneficial Use form, however, before completing processing, additional information is needed.

If you have a well driller's report, please send a copy to the department. If you do not have one, please let me know who drilled the well and when it was drilled. If more than one well has been drilled, the pertinent information for each well is required.

Please remit the requested information by September 29, 1988 to keep your permit from losing priority.

If you have any questions, feel free to call me.
