Stockwatering pond was constructed by excavating an unnamed stream channel and using that material to construct a berm 10ft x 30' x 72' with an 18" culvert as an Outlet. The outlet is "L" shaped. The spillway is about 10' wide with a stream of water about 3 feet wide. The spillway has currently eroded to the extent that the water level is too low to flow out the outlet pipe. This was caused by recent winter flows & is soon to be repaired.

Dear Ms. Marine:

Dear Permitholder:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you prior to the time the examination is made so that you may demonstrate the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

RE: Permit No. 96-8349

Dear Permit Holder:

Enclosed is your of Beneficial Use form received in this office on September 28, 1988 requesting water use at a rate of 0.20 cfs and/or 4.0 acre-feet.

A license examination fee is not required to be submitted with the proof if the use is for single family domestic and/or stockwater use or the total maximum rate of diversion is 0.04 cfs, 4.0 acre-feet or less. Your permit includes stockwater use and irrigation use (50 acres) with a maximum rate of diversion of 0.20 cfs. Therefore, you are not exempt from the license examination filing fee unless the total rate of flow for both the uses developed is 0.04 cfs or less. The license examination fee based on a rate of flow of 0.20 cfs is \$50.

Upon receipt of your proof of beneficial use form and required fee, the department will continue processing the proof by notifying the regional office that a field inspection is needed.

If you have any questions concerning this matter, feel free to contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 96-08349

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager
