RE: 96-8158

Dear Sir,

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Sincerely,

Dear Mr. Hoagland:

Re: Permit No. 96-8158

Returned is the Proof of Beneficial Use form along with your check No. 3593 in the amount of \$15. Also enclosed is an instruction sheet for submitting proof and a copy of the permit.

Note that the permit proposes the diversion of 0.08 cfs (approx. 36 gpm) to be used for two domestic uses along with some lawn and garden use. I understand that there are two domestic uses. The questions is: What is the rate of diversion for these two uses? If the rate of diversion is greater than 0.04 cfs (approx. 18 gpm), then a fee is required for the department to conduct the field inspection. The fee would be \$50. If 0.04 cfs or less, no fee is required with the proof submittal for the department to conduct the field inspection.

Please indicate the rate of diversion by the red "x" on the proof form, determine, if you can, the rate of diversion and return the proof and fee, if necessary, to the department by May 1, 1988.

In answer to your written note at the bottom of my notice letter, the process for acquiring a water right is outlined in the Idaho Code. The department is required by the Idaho Code to notify you of certain information requirements during specific phases of the application/permit/licensing process. That is why you received this notice and also why you will receive other correspondence from the department.

There probably will not be any additional fees required to issue a water right license. However, it is difficult for me to predict if any additional fees will be required in the future to maintain this water right or other water rights you may have. There is always the chance the future legislation would affect your water use.

PROOF DUE NOTICE

RE: Permit No. 96-8158

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

Dear Mrs. Hoagland:

Thank you for your letter concerning your existing water system. Please complete the applications sent to you by Mr. Scribner along with a drawing showing location of the waterline. Since the waterline was in place prior to 1974, a temporary permit will be issued upon receipt of these items and the \$10.00 permit fee. Should you have further questions, please contact me.
