PROOF DUE NOTICE

RE: PERMIT NO. 96-08149

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Dear Mr. Bauder:

Re: Permit No. 96-8149

This office received the request for extension of time form and fee on February 10, 1988.

Before taking final action on this request, additional information is needed for clarification. The water use proposed here is for the diversion of water from an unnamed stream for irrigation of two acres and some stock watering.

You state that there is a question of ownership and that litigation is pending to determine that ownership. One of the provisions, as provided in the Idaho Code, for acquiring a request for extension of time is litigation. If you wish the department to consider this request based on litigation, please send in documentation showing when the litigation began, if it is pending or resolved, and how the litigation brings the title of the water into question.

Please provide this information by April 1, 1988, otherwise, the department will consider the request based on the information indicated on the extension request as is.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

WHEREFORE, Plaintiffs pray judgment quieting their title to the described premises as against all defendants, for \$20,000.00 attorney fees and costs against Defendant TIMBERLAND RESOURCES, INC., and any direct successors of said defendant if the matter go by default, and to be otherwise fixed by the Court.

FURTHER, that the contract of sale from Plaintiffs to Defendant, TIMBERLAND RESOURCES, INC., and all amendments thereto be declared terminated and of no further force or effect.

Gentlemen:

This letter is in response to your letter of July 1, 1986 in which you state the contract assignment was \$15,000.00; however, your letter to First National Bank of May 19, 1986 showed the amount to be \$15,600.00.

You also state that you were advised that \$1,280.00 in payments were sent to me on March 19, 1986. I received no payments until May 10, 1986 and, at \$165.50 per month, you can see this amount adds up to \$662.00, not \$1,280.00.

In your second paragraph you state that First National Bank refused to release a deed to you. The bank's interpretation of the contract was that the \$15,600.00 which was in your letter did not cover the interest, therefore, they refused to release a deed. They therefore called me in May, 1986 and informed me that your letter stated \$15,600.00, which was incorrect. I advised them, at that time, not to release any deeds until they heard from me.

During the interim, I called your office and advised you of this difference in dollars. Also at this time, the letter agreement between Timberland and ourselves was in default. Therefore, your paragraph number 3 is erroneous since the agreement has not been lived up to by Timberland and Mr. McMullin, as evidenced by default of the following:

1. Default on original contract dated June 15, 1981 and revised by amendment of October 15, 1982.
2. Default of amendment to contract revised by letter of November 26, 1985.
3. Default of letter of May 1, 1986.

This becomes the third time the agreements with Timberland have defaulted..

I have called Timberland's Mr. McMullin on two occasions and asked him to supply a statement as stated in item number 7 of the letter of November 26, 1985. To date, I have received no reply.

Exhibit 1

MAILED
JUL 27 1988

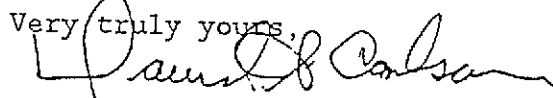

July 14, 1986

In view of the foregoing, we are hereby notifying Mr. McMullin and yourselves that we declare null and void the original contract dated June 15, 1981 between Timberland Resources and ourselves, in accordance with Article #14 of said contract.

We declare null and void the amendment to the contract dated October 15, 1982, in accordance with Article #14 of the original contract.

We also declare null and void the letter agreement dated November 26, 1985, as this defaulted on May 1, 1986 in the amount of \$2,789.28 and as of July 1, 1986 for a total of \$8,619.00 plus interest, in accordance with Article #14 of the original contract.

Very truly yours,

Dear Mr. Bauder:

Re: Permit No. 96-8149

This office received the request for extension of time form and fee on February 10, 1988.

Before taking final action on this request, additional information is needed for clarification. The water use proposed here is for the diversion of water from an unnamed stream for irrigation of two acres and some stock watering.

You state that there is a question of ownership and that litigation is pending to determine that ownership. One of the provisions, as provided in the Idaho Code, for acquiring a request for extension of time is litigation. If you wish the department to consider this request based on litigation, please send in documentation showing when the litigation began, if it is pending or resolved, and how the litigation brings the title of the water into question.

Please provide this information by April 1, 1988, otherwise, the department will consider the request based on the information indicated on the extension request as is.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK

PROOF DUE NOTICE

RE: Permit No. 96-8149

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
