CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

RE: Permit No. 96-08083

Dear Mr. Morris:

We are once again in the process of reviewing the above referenced permit for licensing. I am enclosing an updated amendment form reflecting a change in the nature of use on your permit. Domestic use more accurately describes the beneficial use of the water. The amendment also raises the rate of diversion to 0.04 cfs and the annual volume to 1.2 af to irrigate your lawn and garden.

You had visited with Sharla Curtis in 1991 and had expressed your concern over the examiner having overlooked the garden and fruit trees that were being watered from the well. These uses are now included under the domestic use component on the proposed license.

I apologize for the length of time it has taken to resolve this issue. There have been several different people responsible for license review since Miss Curtis and this one was inadvertently missed.

Please review the enclosed amendment and return it to us with the \$20.00 filing fee within 14 days. If you have any further questions, please give me a call.

RE: Permit No. 96-8083

Paul Morris
1423 Cocalalla Creek Rd.
Careywood, ID 83809

Dear Mr. Morris:

Enclosed is another amendment form for your use in amending the above referenced permit for license issuance. Please note that the rate of diversion has been raised to 0.04 cfs and the annual volume to 1.2 af to reflect the irrigation of your lawn and garden.

You told me in a recent phone conversation that the examiner never contacted you prior to the inspection and no one accompanied the examiner at the site. Because of this, the examiner overlooked the garden which includes fruit trees that you also water from the well. These uses are now included under the domestic component of the proposed license.

When we spoke on the phone, you also raised a concern over the seemingly low volume for domestic use. I explained to you that the figures used were standards that have been established based upon normal domestic water usage. Domestic use includes water used for a home, household stock and irrigation of up to $\frac{1}{2}$ acre of land. Analyses for water systems indicate that an average dwelling with these parameters will use approximately 1,000 gallons per day; this is of course figured on a year-round basis. Since irrigation of a lawn or garden does not take place on a year-round basis, the 1,000 gpd figure is liberal. This year round usage calculates out to a volume component of 1.2 af, which is shown on the amendment.

Please review and sign the amendment, then return it to us with the \$20.00 filing fee within 20 days. If you have any further questions, please give me a call.

MEMORANDUM

TO: File 96-8083

FROM: Sharla

DATE: February 14, 1991

RE: Domestic Use

On this date, Mr. Morris called me to complain about the low rate of diversion and volume for the domestic use on this proposed license. He stated that no one ever contacted him to set an appointment for the exam and therefore, no one accompanied the examiner at the time of the inspection. He stated that a small lawn and their garden which includes some fruit trees have been watered from the well since the house was built.

Because the field report indicates that no one accompanied the examiner, I am inclined to believe the garden was overlooked and should be added to the license without returning the exam to the region for follow-up.

RE: Permit No. 96-8083

Dear Permit Holder:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a Water Right License can be issued, a field examination must be made by a representative of this department.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office by phone or in person.

Sincerely,

/S/

PROOF DUE NOTICE

RE: Permit No. 96-8083

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1987. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

RE: PERMIT NO. 96-8083

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

THE 1982 IDAHO LEGISLATURE ADDED A REQUIREMENT THAT THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS MUST BE STARTED WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED. THE PROJECT MUST THEN BE DILIGENTLY CONSTRUCTED UNTIL COMPLETED. TO MAINTAIN THE PERMIT IN A VALID STATUS YOU MUST COMPLETE AND RETURN THE ENCLOSED POSTCARD WHEN CONSTRUCTION IS COMMENCED, NO LATER THAN ONE YEAR FROM THE DATE OF APPROVAL OF THE PERMIT.
