Gentlemen:

I'm afraid there are still a couple of problems with your application, so I am returning your application and Check No. 92-1 in the amount of \$30.00. It mainly concerns the amount of water for irrigation.

In Item No. 4, you entered 0.04 cfs for irrigation. This would be about enough water for 2 acres (0.02 cfs per acre). On Item No. 8(b), you entered 20 acres in one place and then 10 acres for the total. All this information must be consistent in order to process the application.

If you are going to be in the area, the easiest thing to do would be to stop by our office. If this isn't convenient, please try to correct the areas indicated and return to this office.

If you have any questions, please contact me at this office.

Gentlemen:

I am returning your Application for Permit along with your Check
No. 92-1 for some corrections.

First, in Item No. 4, the maximum amount allowable for stock would
be 0.02 cfs instead of 0.04 cfs. Also, in Item 8.b., it is necessary
to indicate the number and location of the acres to be irrigated.
According to your map, the acres would be in the NW of the NE, but
it is still necessary to indicate the number of acres. You may
appropriate up to 0.02 cfs per acre of irrigation.

If you have any questions, please contact me at this office.
