REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of a water right under the provisions of Section 42-204, Idaho Code.

Permit No. 96-07954Name(s) of Permit Holder: James A. and Ramona H. TaylorPost Office Address: 2601 South Cascade Place Kennewick, Washington 99337Telephone No. (509) 586-4500Date Proof Is Due: June 1, 1991

Describe what work has been completed toward the development of this water right: 1. Cleared land for
(This must be filled out! If no work has been completed, show "none".)

dwellings and permanent road construction (stump removal, burning slash, berming and leveling) 2. Excavated an underground reservoir from which water flows into the cistern. 3. Installed Berkley pump into the cistern. 4. Installed underground concrete pumphouse with electrical panel, holding tanks and an excellent high technology water purification treatment system. 5. Septic tanks and drainfields were installed for two district approved sewer systems. 6. Trenched 5 foot deep waterlines to pumphouse, dwellings, yards and pasture. 7. Contracted trenching of electrical and telephone lines. 8. Contracted permanent road construction. 9. Put up fences.

Costing \$ \$26,000.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

This entire farm project is complex and expensive. 2. Before this project the farm was a vision in the sense that it had no physical structures, only old fences now fallen down. 3. The distances are far because of the ribbon shape of the farm. 4. Road building and trenching of waterlines are expensive with logistic problems, (refer to appendix B, numbers 3. and 4.) The construction costs, materials and labor are extensive. We need more time to continue road construction, trenching of waterlines and building fences. We must contend further with referbishing pastures.

Permit holder(s) request an extension to June 1, 1993.

Dear Mr. Johnson,

Upon returning from a short vacation we received your welcome letter. Having reviewed the amendment, we feel that the information is correct.

We are appreciative of the vitality of this water use brings to the farm. There existed only a little logging road meandering mostly thru lodgepole pine. Now the farm is alive with interesting people who need somewhere to locate themselves and their animals. There is a need for pasture for horses and cattle. Although we cannot yet live on the farm, the residents and their individual creativity with their animals are a satisfying experience. I grew up spending summers in north Idaho. Athol still has that fresh hardy north Idaho character.

Sincere Appreciation,

RE: WATER RIGHT NO. 96-07954

Dear Mr. & Mrs. Taylor:

Thank you for your correspondence of August 10, 1994 with photographs clarifying the domestic use on this permit as serving 2 homes. We have modified our database to reflect this clarification.

I have enclosed an Application for Amendment of Permit which reflects the original change in location of point of diversion and the new changes for domestic use for 2 homes. Please review the amendment carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

If you do not concur or have any questions with this information, please contact me as soon as possible. My telephone number is (208) 327-7947.

Sincerely,

Dear Mr. Johnson,

We appreciate your letter and the enclosed Application for Amendment. We are happy that our water right is in the process of being licensed.

There exists a simple mistake as to the number of homes served by the water. The domestic use is for two homes. A misperception has occurred previously because of the similar appearance of the two residences. Both are brown and white and the same size. They are nested in the woods with large grassy front yards, a considerable distance from Bunco road. With their similar appearance in a unique country setting apparently only one home was perceived. However, there are in fact two residences and two individual families.

In reviewing the amendment form the allocation for domestic use is consistent with number 5. of conditions/remarks. Otherwise, we believe the information to be exact and correct. Thank you for your attention.

Sincerely Yours,

Ramona H. Taylor

RE: WATER RIGHT NO. 96-07954

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur or have any questions with this information, please contact me as soon as possible. My telephone number is (208) 327-7947.

TO: File No. 96-07954
FROM: Cindy Zimmerman
SUBJECT: Adjustments to Beneficial Use Exam

=====

Adjustments to the rate of diversion and annual volume were made on the field exam to reflect IDWR standards.

1. Rate of diversion
 - a. Domestic use, 2 home = 0.08 cfs.
 - b. Stockwater use, 200 hd = 0.05 cfs
 - c. Total rate of diversion = $0.08 + 0.05 = 0.13$ cfs.
2. Annual Volumes
 - a. Stockwater: $(200 \text{ hd} @ 12 \text{ gpd} \times 365 \text{ d}) \div 325,850 \text{ g} = \text{AF}$
 $= 2.69 = 2.7 \text{ AF}$
 - b. Domestic, 2 home = 2.4 AF
 - c. Total volume = $a + b = 2.7 + 2.4 = 5.1 \text{ AF}$

RE: PERMIT NO. 96-07954

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

Nina Shields

Dear Mr. and Mrs. Taylor:

Re: Permit No. 96-7954

LAPSE NOTICE

Enclosed is a copy of the denied request for extension of time form.

Under the provisions of Sec. 42-218a of the Idaho Code, Permit No. 96-7954 lapsed since the Department could not approve the request for extension of time.

I suggest that you file the enclosed proof of beneficial use form for that portion of the project completed. Within one year of the time you actually intend to develop a water right, you should file a new application for permit. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Please feel free to contact our regional offices if you wish to have assistance in completion of the new application.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocations Bureau

Appendix A

What work has been done in Idaho:

1. Our project began with the clearing of land for dwellings and permanent road construction. This has been a concerted effort involving stump removal, the burning of slash, leveling and berming.

2. An underground reservoir was excavated and lined with sand, rock and bentonite to filter the creek water before it flows into the cistern. A pump was intalled in the cistern.

3. A concrete underground pumphouse has been installed about 250' from the creek with an electrical panel, holding tanks, and an excellent high technology water purification treatment system.

4. Septic tanks and drainfields were installed for two dwellings which Panhandle Health District approved.

5. Water lines have been trenched from the cistern to the pumphouse, to the sewer systems, yards and pasture.

6. We contracted the trenching of electrical line and telephone line.

7. We contracted the construction of permanent road.

8. We have been putting up fences.

Appendix B

Why a time extension is requested:

1. This farm was visionary in the sense that it had never had any physical structures characteristic of farms except for old fences which have fallen down.

2. Most of the farm is without access by road. Because of the odd ribbon shape of the farm, the distances are far. Sage Creek itself is about 2,000 feet from a main road where our location is.

3. The process of road building is difficult and expensive in north Idaho because of the characteristics of the weather and geology of north Idaho.

Logistics: Roads must be wide in order that in the winter the snow can be pushed by the sides of the road by the snowplow. During the rainy season and when the snow is melting the two or two and a half feet of topsoil becomes mud in which automobiles will sink to their axels. We were advised by a person in the Highway District that in order to have year round manageable roads, the topsoil had to be removed and that the road should be built up with "ballast" or "pit run" gravel to ground level. If the road is not built up to ground level with a trench to each side the road would flood or with a cold change of weather freeze into a river of ice.

4. The distances are far to the pastures where the waterlines continue to be trenched.

Logistics: The logistics of trenching water in north Idaho are difficult and expensive because of the climate and geology. Trenching of waterlines must be somewhat over 5' deep to avoid waterlines freezing during the cold winters. Trenches must be wide as well as deep because below the two or more feet of topsoil is rocky, gravelly soil which causes the trenches to cave in. The topsoil must be put in the bottom of the trenches to cushion the PVC pipe. If the pipe is not sufficiently cushioned the mass pressure of the rocks at that depth and their grating with the contraction and expansion of temperature changes will bore holes in the PVC pipe. The PVC pipe must be of durable schedule to endure such pressures as well as adequate diameter for the use and distance.

5. We must contend further with the referbishing of pasture. Dispersed nap weed, mustard weed and ~~other~~ real problems. Nap weed is an "invader" weed.

6. We are continuing to build fences.

DEC 31 1991

7. The farm has not produced income to offset expenditures. However, we are thinking long term. We had

planned to live up there and build a house. With the collapse of government funding to Hanford and the Tri-City economy, we found that we were not in a position to sell our yet unfinished home. We survived those hard years. We have had work done in Idaho as we could afford it. Now, my husband's business is established here. We drive to north Idaho on the weekends and I go up during the week.

PROOF DUE NOTICE

RE: PERMIT NO. 96-07954

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 96-7954

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF THE ABOVE REFERENCED WATER PERMIT WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE JUNE 1, 1986. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST.) ENCLOSED IS A FORM WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION WHICH MIGHT BRING TITLE TO THE WATER IN QUESTION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER A COMPLETED PROOF OF BENEFICIAL USE FORM OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

Re: 96-7954

Dear Mr. and Mrs. Taylor:

Please be advised that we are holding up the processing of the above-referenced application for permit until such time as a protest is resolved regarding another application for permit (#96-7930 in the name of Merger Mines) which is filed on an unnamed stream tributary to Sage Creek.

There is no protest against your particular application, however, since both applications have the same source of water, we must wait until the above-mentioned protest is resolved.

If you have any questions, please contact us.

Sincerely,

ROBERT G. HAYNES, P.E.
