EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results recently enacted HB 671 and is being developed at this time. A listing

MICROFILMED

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Mr. Schmidt:

SUBJECT: Bronze Bay Community Water System

On March 1, 1984, I made an inspection of the water system serving the community at Bronze Bay on Spirit Lake. Jack Minkler accompanied me on the inspection.

The report contains a description of the system, any deficiencies noted, and an approval status. Since no deficiencies were noted with the water system and Jack Minkler has been doing an excellent job with submitting the monthly water samples, we can therefore give full approval to the water system.

The improvements the association performed on the system will provide a much safer and more adequate supply than the old system.

Please let me know if you have any questions.

Sincerely,

PANHANDLE HEALTH DISTRICT

Dear Mr. Minkler:

This letter is a follow-up to the inspection I performed with you on the Bronze Bay Community Water System on February 22, 1982. Your water association has done an excellent job with up grading the system to include a chlorinator and contact tank. With proper maintenance the system should provide a safe source of water for the residents at all times.

I have enclosed a revised Sanitary Survey Report of the system. Please note that the system is considered provisionally approved at this time. When satisfactory monthly water samples have been submitted for one year and satisfactory chlorine records are kept, the system will be considered fully approved.

Your efforts in organizing the water association to make these improvements to the system is appreciated.

If I can be of any assistance, please feel free to contact me at 667-3481.

Sincerely,

PANHANDLE HEALTH DISTRICT I
