EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination; but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Mr. Carr,

RE: Permit No. 96-7928

In response to your letter concerning Permit 96-7928 I submit the following for your consideration.

The application for water right which you submitted and signed on January 20, 1981 has completed the mandatory processing which includes being advertized for two weeks in the Priest River Times. After the application has been approved there are some limitations which cannot be changed, one of which is an increase in the use of water. Unfortunately when you put one household being supplied with water that established the extent in which water was to be used under this permit and cannot be expanded. You can, however, make changes to your permit by filing amendments such as changing the place of use, or point of diversion, or even change the nature of use as long as the change does not result in an increase in use.

We can add your brothers name on the permit by having you sign an Assignment of Permit form which would have both you and your brothers name on it. However, I assume that since we cannot add the second domestic use you may not want to do this.

My recommendation would be to have your brother file for a separate water permit even though you both use a common domestic system.

You mentioned in your letter that you paid \$60.00 for this application, however, the fee for this application was only \$30.00. I wonder if perhaps you filed two applications?

You may have several questions remaining on this and I would be happy to discuss them with you. My phone number is (208) 334-4162. If I can be of further assistance please let me know.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor
