ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 96-7906, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before April 1, 19 88.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Witness my hand this 21st day of April, 1983.

Chief, Operations Bureau

MICROFILMED

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PROTESTS AGAINST APPROVAL)
OF APPLICATION FOR PERMIT NO. 96-7906 IN)
THE NAME OF GLADYS WIDEL.)

O R D E R

WHEREAS, on October 3, 1980, Gladys Widel filed with the Department of Water Resources Application for Permit No. 96-7906 to appropriate 0.48 cfs of water, which was subsequently reduced to 0.16 cfs of water, from Riser Creek which is a tributary of Lake Pend Oreille to be diverted within Government Lot 5, Section 6, T56N, R2E, Boise Meridian, Bonner County, to be used for Irrigation and Domestic purposes; and,

WHEREAS, on October 15 and 22, 1980, notice of this proposed appropriation was published in the Sandpoint Daily Bee, Sandpoint, Idaho; and,

WHEREAS, the Department received protests against the approval of said application from Shirley E. White on October 20, 1980, and from Ella Kienholz on October 24, 1980; and,

WHEREAS, on March 23, 1981, a hearing concerning this matter was held in Sandpoint, Idaho, at which the protestant, Ella Kienholz, failed to appear; and,

WHEREAS, on January 27, 1983, the Department sent an Order to Show Cause on or before February 17, 1983, why her protest should not be dismissed for failure on her part to appear at the hearing; and,

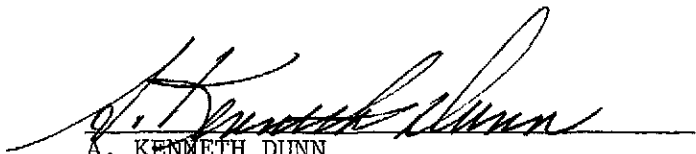

WHEREAS, on February 9, 1983, the Department received a note from Ella Kienholz indicating that the protestant was out of state at the time of the hearing and could not be present; and,

WHEREAS, the protestant, Ella Kienholz, failed to show adequate cause why her protest should not be dismissed;

IT IS, THEREFORE, HEREBY ORDERED that the protest of Ella Kienholz against the approval of Application for Permit No. 96-7906 is DISMISSED for failure of the protestant to appear at said hearing.

DATED: This 12th day of April, 1983.

RE: WATER RIGHT NO. 96-07906

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 14 days.

If you do not concur with this information, please contact me as soon as possible.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Johnson', written over the typed name and title.

TO: Sharla Curtis, Clerical Specialist - Water Rights Section

FM: Tom King, Sr. Water Resource Agent - Northern Region TDK

SUBJECT: 96-07906

DATE: January 29, 1991

Hi Sharla,

If you only knew the trouble this exam has been ...

Anyway, I'll try to clarify in the order you requested the clarifications.

First: Mannings formula; henceforth, or until someone stops me I shall endeavor to use the Flow Calculations sheet I have attached to the exam. If you still have trouble with the formula Gary Spackman or Jim Johnson can probably help.

Second: I wasn't too happy with the map when the owner helped me to draw it, (he professed to be a surveyor). I made another trip to the Assessors office and as a result made some changes.

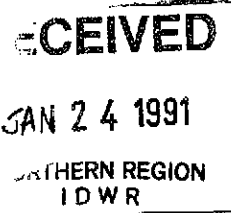

Third: I'm not sure what the question is, but I footnoted the map in an effort to help. The Memorandum concerns the confusing mix up of the rights in Section Six that are in the name of Widel. The only remaining overlap is the in-house use in the home of Gladys Widel which is the westernmost home of the three homes noted within the NW SW.

FEB 25 1994

MEMORANDUM

TO: Tom King
FROM: Sharla
DATE: January 18, 1991
RE: Exam (96-7906)

Tom, I'm returning this exam for a couple of corrections.

First, can you explain to me the calculations you made for determining the system capacity - it's foreign to me.

Second, your map identified 1 acre of irrigation within the SENW, 1 acre and domestic use within the SWSW, and 1 acre irrigation and 2 domestics within the SESW. However, the place of use described in your field report lists 1.6 acres within SWNW and 2 acres plus 2 homes in the SWSW. Your memo dated 4/5/90 speaks of overlaps and states that 2 homes are served by a spring, however, your drawing of the pipeline on the map appears to indicate that all three homes and irrigation of a total of 4+ acres occurs from Riser Creek. The other rights you mention in your memo are from other sources. Can you reconcile?

12-30-93

The map does not
identify ① 1 acre in SENW
or

② 2 domestics in SESW.

The map coincides with
the exam Place of Use
Grids — It is correct
as originally listed.
Brenda

MEMORANDUM

TO: FILE

VIA: Robert Haynes - Manager, Northern Regional office.

FM: Tom King - Sr. Water Resource Agent, Northern Region ^{TD} K

Date: April 5, 1990

SUBJECT: #96-07110, #96-07545, #96-07800, #96-07906

=====

On April 4, 1990, I met with Mr. Widel in East Hope, Idaho. We walked his water systems and found that there are overlaps in his water rights. There are currently three homes using water from Riser Creek (96-07906). A temporary use is being made of water from this system for construction of a fourth home which is not covered by permit. One of the homes on this system, has a backup water supply which uses water from a spring which is licensed as being tributary to Carter Creek, but which in fact is tributary to sinks (96-07545). This spring was the original water right for this house. When the spring ceased to provide sufficient water Riser Creek was tapped to augment this use.

In addition to these uses there are two homes which use water from a spring (unnamed Stream) which is tributary to Carter Creek (96-07110 and 96-07800). Mr. Widel has Relinquished Permit #96-07800, since it is a mistaken refiling of #96-07110.

RECEIVED

FEB 25 1994

C.3. NARRATIVE

A 30 inch diameter corrugated metal pipe installed vertically in stream with perforations on upstream side, to collect water for a two inch gravity flow mainline. An additional 40 linear feet of four inch PVC is placed in the stream to divert more water to CMP. Three risers are placed on main line with 200 feet of "soaker hoses" on each riser to irrigate orchard. The two inch pipe is reduced to a one inch pipe for delivery to homes and lawn and garden sprinklers.

E. FLOW CALCULATIONS

MANNINGS $Q = (0.463/n)(d/12)^{2.667} (h/L)^{.5}$
 d = dia. in inches, h = head, L = length,
 n = per USDASCS Eng. Memo ID-15
 Plastic Under 6" dia. = 0.010 (0.463/n = 46.3)

pd elevation	1. 2580	2. 2580	3. 2580	4. 2580
pu elevation	1. 2520	2. 2340	3. 2340	4. 2280
h	1. 60'	2. 240	3. 240	4. 300
L	1. 700	2. 2200	3. 2200	4. 2800
d (in inches)	1. 2	2. 1	3. 1	4. 1

$$1. \left(\frac{0.463}{.01} \right) \left(\frac{2}{12} \right)^{2.667} \left(\frac{60}{700} \right)^{.5} = 0.11 \text{ cfs} / 600 \text{ ft soaker hoses AVAILABLE @ } 5 \text{ gpm/HOSE} \therefore \frac{(5 \text{ gpm})(6)}{448.8 \text{ gpm/cfs}} = .07 \text{ cfs}$$

$$2. \left(\frac{0.463}{.01} \right) \left(\frac{1}{12} \right)^{2.667} \left(\frac{240}{2400} \right)^{.5} = .02 \text{ cfs}$$

$$4. \left(\frac{0.463}{.01} \right) \left(\frac{1}{12} \right)^{2.667} \left(\frac{300}{2800} \right)^{.5} = .02 \text{ cfs}$$

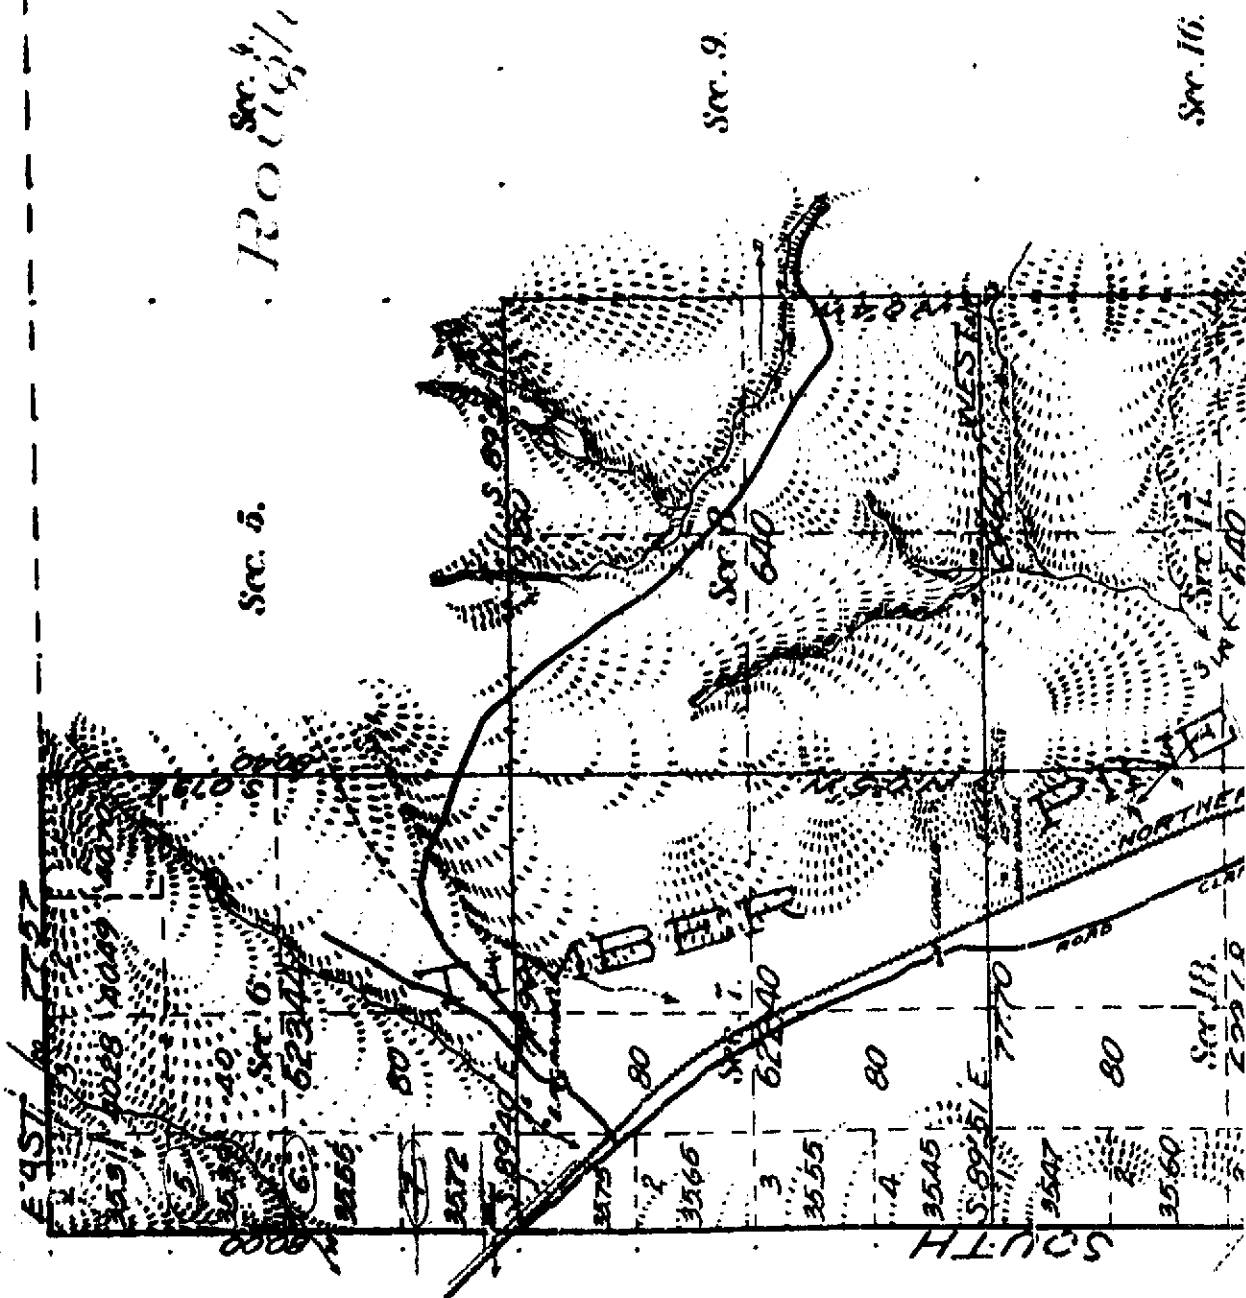

$$1.2 \text{ LACRES @ } .03 \text{ cfs/ACRE} = .063$$

FROM:ROXANNE MCCARTHY

RE: RE-EXAM FOR 96-07800

DATE: 3-JAN-1990

=====

It seems apparent that there was some confusion during this field exam. The sources and tributaries have become confused between this right and Right No. 96-07906. T. King was unaccompanied during the exam and mapping data in that area is scant; one of the streams mentioned may be as yet unnamed.

I believe we should ask Northern to re-examine 96-07800 at the same time they examine 96-07906 and make every effort to have Mr. Widel there at the time of exam.

RE: Permit No 96-07800

Dear Mr. Johnson:

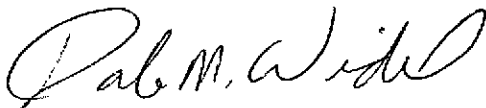

After talking to Kay in your office on December 5, 1989, it appears that permit 96-7906 for Gladys Widel and permit 96-07800 for Dale Widel have been confused with each other.

Permit No. 96-07800 is for Dale Widel and the water comes from a spring that is a tributary of Carter Creek. There are two houses on this spring box. The upper house is a one-bedroom cabin that I sold this past summer. The bottom house is now a three bedroom home that I acquired about 1985 and that I now own and use as a rental unit.

Permit No. 96-7906 is for my mother, Gladys Widel, for whom I am now conservator and guardian. This permit takes water from Riser Creek, and this is what I believed was looked at when the inspector checked permit 96-07800.

I work in Auburn, Washington, but I am willing to take time off from work to meet with the inspector to inspect both systems. However, I will need at least a week's notice to arrange for time off from work and for someone to take care of my mother. You can write to me at the above address or call me at 206-939-4008.

Sincerely,

Dale M. Widel

RE: 96-7906

Dear Ms.:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Sincerely,

/s/

PROOF DUE NOTICE

RE: Permit No. 96-7906

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

RE: PERMIT NO. 96-7906

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

THE 1982 IDAHO LEGISLATURE ADDED A REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED INSTRUCTIONS ENTITLED "MAKING PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

SINCERELY,

DAVID R. TUTHILL, JR., P.E.

Re: 96-7905 and 96-7906

Dear Mrs. White:

I recently received a letter from Mrs. Gladys Widel indicating a willingness on her part to reduce the quantity of water which she proposed to divert under Application No. 96-7906. Mrs. Widel has reduced the quantity of water on her application for irrigation purposes from 0.40 CFS to 0.16 CFS. This reduces the total amount of water on her application from 0.48 CFS to 0.24 CFS. This makes the diversion rate per acre on Mrs. Widel's application the same as the Bethels' Application.

Both the Bethels and Mrs. Widel have indicated a desire to do some irrigation. It is my belief that if they are to irrigate, the quantities which they have now filed on represent as low a figure as is possible with still accomplishing the desired results.

If the proposals as now constituted are acceptable to you, please send us a letter withdrawing your protest to those applications.

If we have not heard from you relating to this matter within twenty days, we will re-schedule the matter for conference and/or hearing.

Sincerely,

ROBERT G. HAYNES, P.E.

Dear Mrs. Widel:

I have had some conversation with Mrs. Shirley White regarding your application and that of the Bethels for water from Riser Creek.

Mrs. White has indicated her willingness to withdraw her objection if the water sought to be appropriated is reduced. The diversion rate for the Bethels' irrigation proposal is roughly $\frac{1}{2}$ of your application and if sprinklers are used should provide adequate water to irrigate the acreage.

Please let me know of your desires regarding the application so that the protest may be resolved, one way or another.

Sincerely,

MEMORANDUM

RECEIVED

OCT 9 1981

Department of Water Resources
Northern District Office

TO: Bob Haynes

FROM: Jim Winner *cm*

SUBJECT: 96-7905 and 7906

DATE: October 7, 1981

Larry Beard and I visited Riser Creek, near East Hope, on September 29, 1981, to determine if the springs located near the Shirley White home were fed by Riser Creek which sinks rapidly into the stream bed about 0.25 miles above the springs.

A dye tracer was ruled out for three reasons.

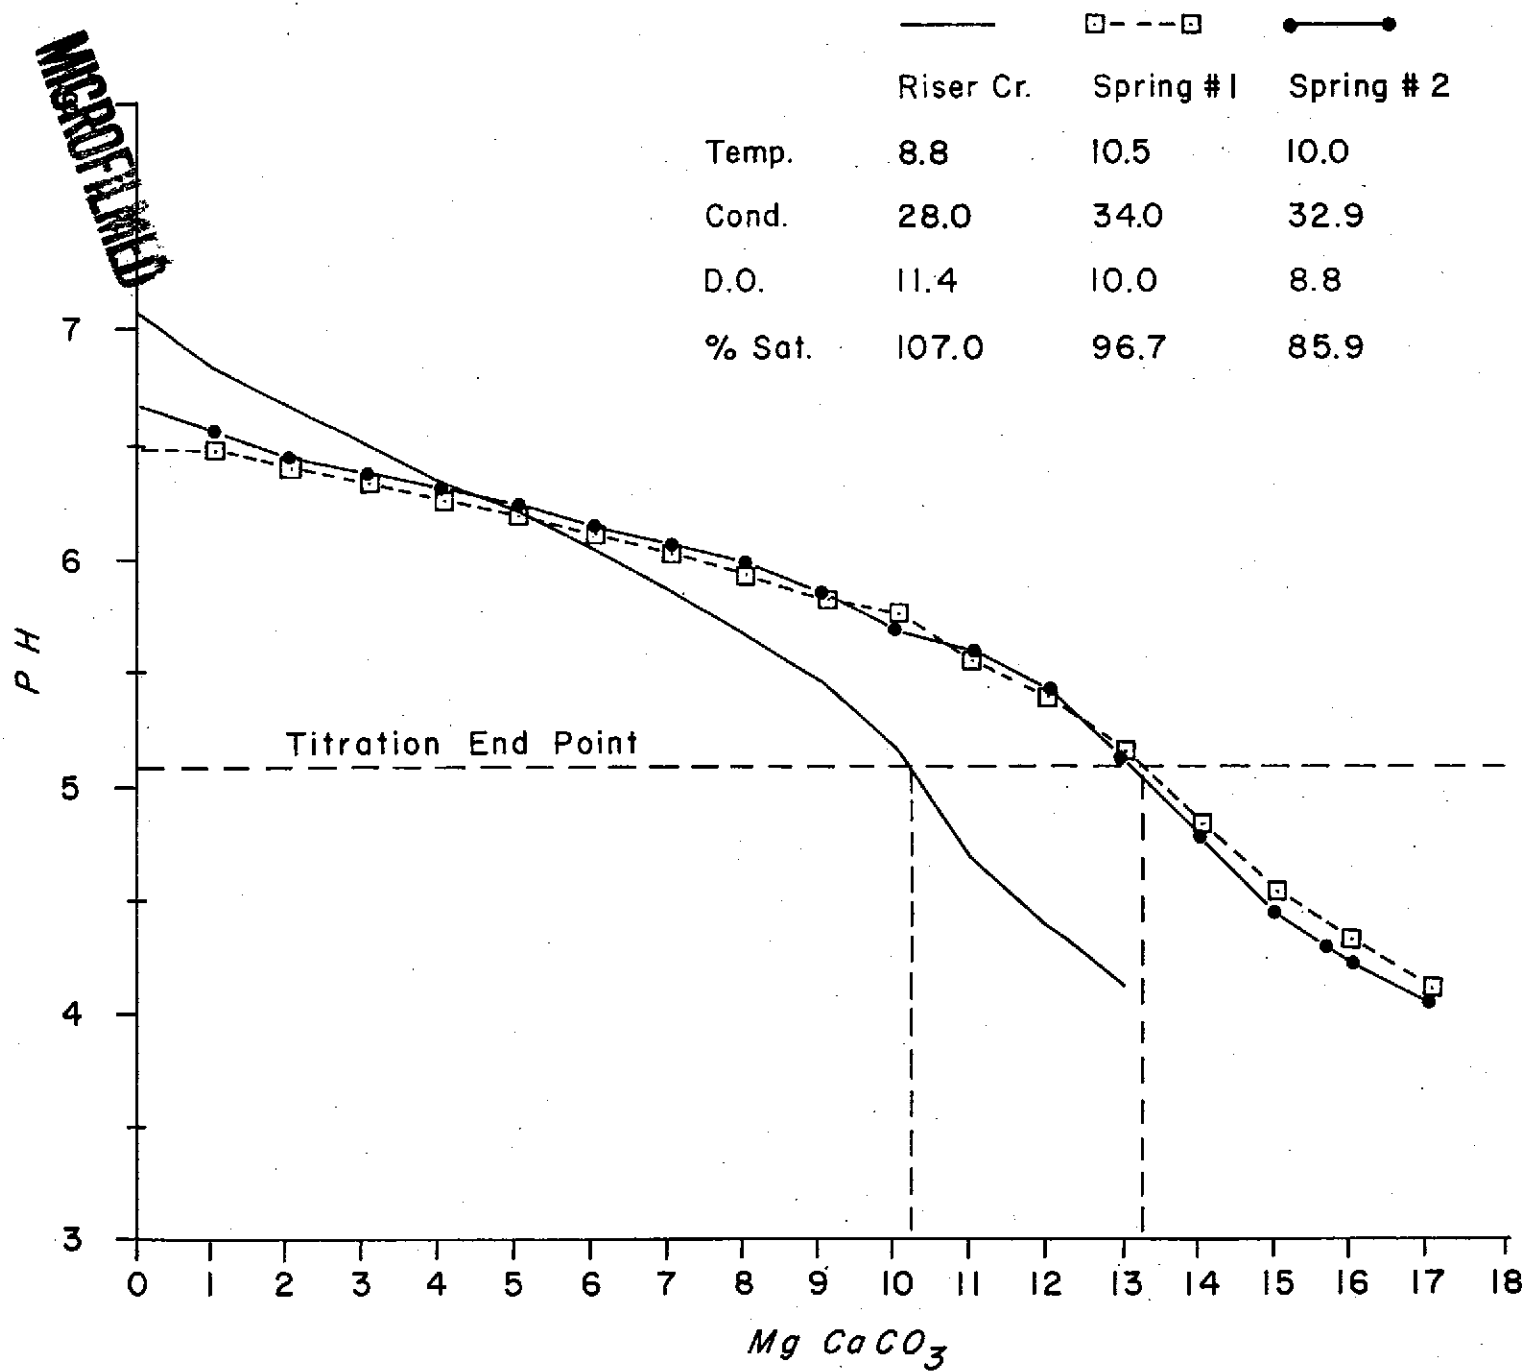

1. Time of travel was estimated to be at least a couple days through sand, gravel and rock. We did not know the extent of the aquifer but it may be of considerable size.

2. Several homes are located below the spring area which are probably on springs or wells. Depending on the nature of the aquifer, we could possibly turn their water supply red for an extended period of time.

3. The springs probably are not fed by Riser Creek where it sinks 0.25 miles above the springs.

We analyzed water from the springs and the creek for pH, temperature, specific conductance, dissolved oxygen and alkalinity (Fig. 1). There were differences in water chemistry, but not enough to exclude the creek as a possible source of the springs. Dissolved oxygen concentrations and temperature suggest that if the creek is the source of the springs, the time of travel is more than just a couple hours. Additional chemical analyses were not done because we concluded all difference in the samples would be minor.

MICROFILMED

Alkalinity Titration Curve For Riser Creek And Tributary Springs.

Fig. 1

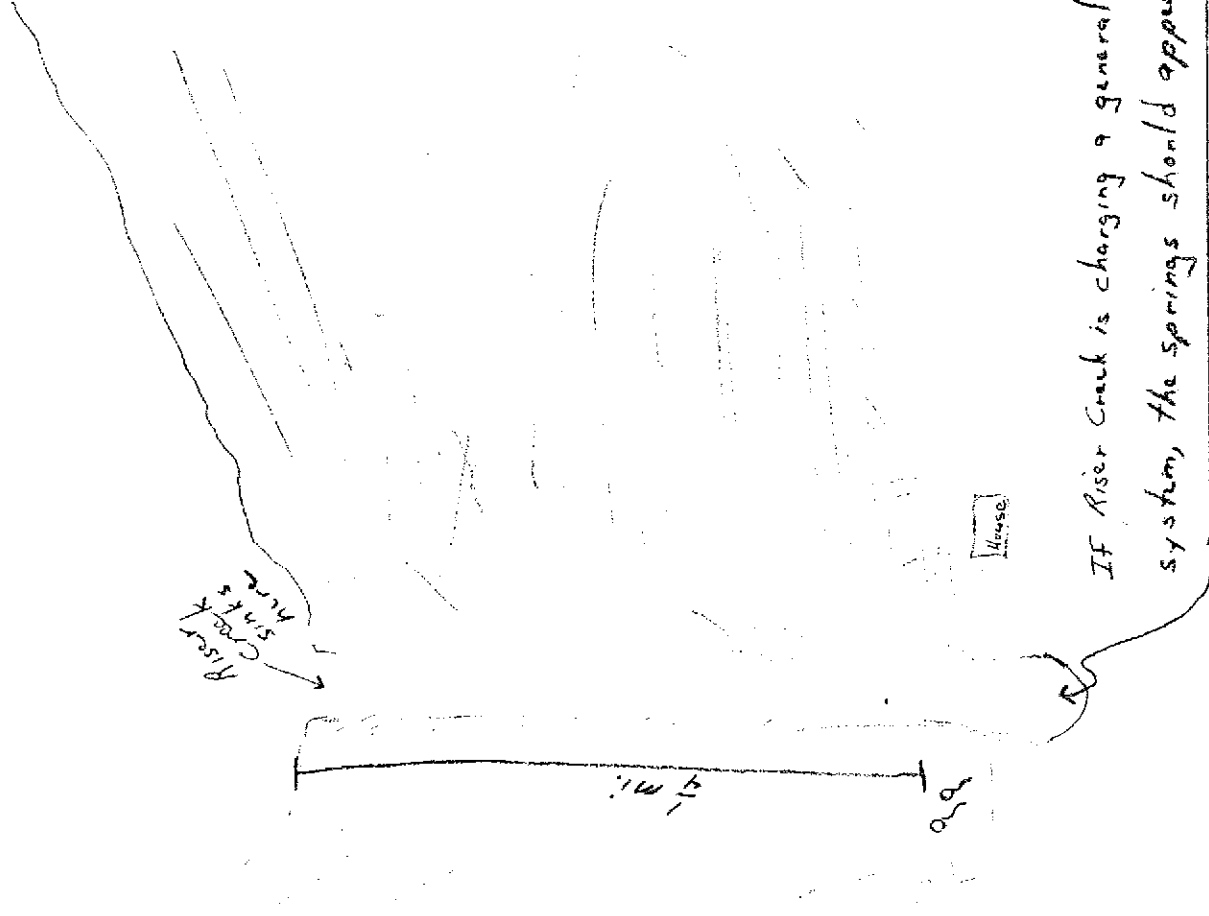

October 7, 1981

I concluded that the springs are not fed by the creek because the creek bed is dry adjacent to the springs even though the creek bed is much lower. It is logical that the springs would occur in the creek bed if fed by the creek above. Clay lenses or rock formations that would channel the water from the creek to the springs would be complex and improbable. The location of the springs at the bottom of the steep bank on the north side of the creek suggest that it is the more probable source.

I suggest that a geologist from this office examine the area if you think more information is needed. Water measuring devices on the springs and all diversions in question may detect any interferences.

Mr Robert G. Haynes -P E
Regional Supervisor
Department of Water Resources
Coeur d'Alene, Idaho.

Dear Sir :

In response to your letter of February 20, 1981, you will recall that I talked with you by phone, concerning the meeting scheduled for Monday, March 23rd, 1981.

I regret that I cannot be present, but I DO support my daughter, Mrs Shirley White, in her protest of more water rights requested on Riser Creek.

I am sure you are aware that Riser Creek barely flows during the summer months, as it is. To allow more users would no doubt dry it up completely, especially with the conditions we have this year.

Mrs White and several others have water rights below the applicants. To approve more water rights above them would deplete the flow entirely for the lower users.

As you told me on the phone, the present users cannot LEGALLY be denied the amount of their water rights from Riser Creek.

Will this not make it necessary to deny any further water rights on the creek ? It would seem mandatory, under the circumstances.

These folks have lived on their places for years, surely they must have some source of water supply.

Another point, Riser Creek is the only creek in that particular drainage, to feed the forest and supply drinking water for the wildlife.

To issue more water permits would be detrimental, not only, to the present users but also to the game and vegetation.

I urge you to preserve Riser Creek and deny these applications, it is an important water supply for that area.

Thank you kindly,

Sincerely,

Mrs Ella Eaton Kienholz

U. S. GOVERNMENT PRINTING OFFICE

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PROTESTS AGAINST APPROVAL)
OF APPLICATION FOR PERMIT NO. 96-7906 IN THE) NOTICE OF HEARING
NAME OF GLADYS WIDEL.)

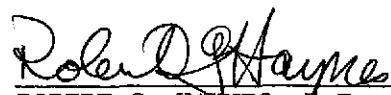

On October 3, 1980, Gladys Widel filed with the Department of Water Resources Application for Permit No. 96-7906. The Department received protests against approval of said permit from Shirley E. White on October 20, 1980 and from Ella Kienholz on October 24, 1980.

The Department has set the matter of protests for hearing for Monday, March 23, 1981, at 9:30 a.m., at the Sandpoint City Council Chambers, Sandpoint City Hall, Sandpoint, Idaho. An informal conference may be held prior to the hearing at the request of the parties involved. Any hearing will be held in accordance with the Rules and Regulations of the IDAHO CODE and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

DATED: This 20th day of February, 1981.

Re: 96-7905 and 96-7906

Dear Ms. Hoervers:

This is in response to your letter of February 9, 1981. We do anticipate scheduling the hearing on the above-referenced applications for the week of March 23, 1981. However, you will not be provided official notice of the meeting because you are not a protestant of record.

It is possible for you to file a Petition to Intervene in the matter pursuant to Rule 6.1 of the State of Idaho Practice and Procedure Rules and Regulations, a copy of which I have enclosed.

If you have any questions, please do not hesitate to contact us.

Sincerely,

ROBERT G. HAYNES, P.E.

Dear Mr. Haynes,

I am requesting an appt. date
in March 23-27 in regards to the
Widel and Bethel water permits.
I own a home in Hape therefore
this is of concern. Should this
time in March be inconvenient,
I could be available after school
is over, closer to July. Thank
you for your consideration

Coeur d'Alene, ID 83814

Reference: Rizer Creek

Dear Mr. Haynes:

On October 21 I inspected the lower mile or so of Rizer Creek for the purpose of evaluating the effect of additional water diversions on fishery values. Rizer Creek supports a population of resident cutthroat trout which are already limited by intermittent stream sections below existing water diversions. It would be helpful if unused water from present diversions were returned to the creek as directly as possible.

I presume additional water diversion will increase the time and length of dry stream sections and thus would not appear to be in the public interest.

Sincerely,

DEPARTMENT OF FISH AND GAME

Re: 96-7906

Dear Ms. Widel:

Enclosed is a copy of a protest filed against the approval of a permit pursuant to the above-referenced application. The Department suggests you contact the protestants directly in an effort to determine the nature of the protest and attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 420203, IDAHO CODE):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

You will be notified at a later date of the time and place of the conference and/or hearing. If we can be of any assistance, please contact us.

Sincerely,

ROBERT G. HAYNES, P.E.

Re: 96-7905 - B. R. U/or June R. Bethel
96-7906 - Gladys Widel

Dear Mrs. Kienholz:

We are in receipt of your letter protesting the applications on Riser Creek.

The last date for filing protests against Application No. 98-7905 was October 20, 1980. We did not receive your protest until the 24th of October, and, therefore, cannot accept your protest against this application.

You may file a Petition to Intervene pursuant to Rule 6 of the Practice and Procedure Rules and Regulations, a copy of which I have enclosed.

The protest was received in time to be considered for Application No. 98-7906. The Department suggests that you contact the applicant directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, IDAHO CODE).

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculation?

OCTOBER 20, 1980.

THE WATER RESOURCES BOARD

COEUR'D ALENE IDAHO

GENTLEMEN:

I AM PROTESTING MORE APPLICATIONS FOR WATER RIGHTS ON RIZER CREEK,
EAST OF HOPE IDAHO.
I UNDERSTAND TWO MORE APPLICATIONS HAVE BEEN MADE TO TAKE MORE WATER
FROM IT.

RIZER CREEK IS A BEAUTIFUL LITTLE STREAM FLOWING INTO LAKE PEND'ORIELLE.
IT IS LINED WITH MANY SPECIES OF TREES AND EDGED WITH LOVELY GREEN FERNS.
IT IS A SPAWNING AREA FOR CUT-THROAT TROUT.
IN HIGH WATER IT RUNS A FULL STREAM, BUT DURING THE REST OF THE YEAR IT
SLOWS WAY DOWN.
FISH ARE ABLE TO SURVIVE NOW, BUT IF YOU ALLOW MORE WATER RIGHTS WITH-
DRAWALS, THE FISH WILL JUST DIE UPSTREAM, AS THEY COULD NOT MIGRATE BACK
TO THE LAKE. THE TREES AND VEGATION NEED ALL THE WATER THEY CAN GET, TOO.
AS POOR AS FISHING HAS BEEN IN THE LAKE, SURELY WE SHOULD PERSERVE EVERY
NATURAL RESOURCE WE HAVE.

IT WILL EFFECT THE PRESENT LOWER USERS DRASTICALLY AND THESE PEOPLE HAVE
HAD WATER RIGHTS FOR YEARS FOR THEIR PRIVATE USE IN THEIR HOMES. SURLEY
THEY ARE ENTITLED TO SPECIAL CONSIDERATION, AFTER ALL THEY HAVE PAID
TAXES FOR MANY YEARS BEFORE THESE NEW APPLICANTS EVEN CAME HERE.

I ASK THAT THESE AND FURTHER APPLICATIONS BE DENIED FOR THE GOOD AND
PERSERVATION OF OUR LITTLE COMMUNITY.

PLEASE GIVE THIS YOUR SPECIAL CONSIDERATION AND SUPPORT.

THANK YOU KINDLY,

SINCERELY,

Mrs Ella Kienholz

MRS ELLA KIENHOLZ.

Coeur d'Alene, Idaho 83814
Dear Robert:

R.E. Gladys Widel
Water rights application
96-7906

I am sorry, but I feel I must protest any further applications for Water Rights on upper Riser Creek tributary to Pend Oreille Lake.

As it is now, lower Riser Creek is intermittently dry and extremely lowered during the summer and late spring months, also fall until there is substantial rain. This is due to the water being removed from current claims and Water Rights.

This causes concern for my Springs which at the present furnishes three (3) homes Domestic water and provides irrigation also for my property, orchards, animals, and other farming lands.

As Riser Creek lowers and/or dries up my springs drop significantly in water supply. I fear that any further withdrawal of water from Upper Riser Creek will indeed damage my claim # 96-4260 & #96-7833.

Riser does not, in my estimation, have sufficient water to maintain the added withdrawal of further upper level claims and maintain the demands placed from lower Riser Creek/and /or springs.

Upper Riser Creek also supports a substantial Cut Throat population.

I submit that before the Department of Water Resources grants or approves any further claims a personal survey of the amount of water in Riser Creek during the months of June through October be evaluated or measured by the Department.

Sincerely yours,

Shirley E. White
