Dear Mr. Johnson:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination, however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. Your permit will remain valid until the examination is made.

Dear Mr. and Mrs. Johnson:

Re: Permit No. 96-7751

On April 30, 1980 the Department received the statement of beneficial use. However, you completed the card to show the source as a spring for domestic and stockwater purposes when, in fact, the permit indicates a groundwater source (well) for irrigation purposes.

Is it possible that you have two permits, one with the source as springs and another with the source as groundwater?

If this is the case, I have enclosed another statement of beneficial use card to be completed for this permit. If you need an extension of time in which to complete the project, I have also enclosed a form for that.

I realize that this matter maybe a bit confusing, so if you need some assistance, please feel free to contact me at 334-4290.
