Dear Mr. and Mrs. Williams:

One of the conditions of approval of your water Permit No. 96-7609 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Re: # 967609

Since the irrigation requirement is 35 AFA and the "storage" listed is only 0.1 AF, this does not look like a storage right to me. Rather the reservoir is a part of the diversion works in the same sense that a diversion dam is.

WKM for Jan Groves

I would agree if the size of reservoir is in fact only .1 AF. However it is likely that reservoir will be more like 1 AF. In that case the storage is necessary.
