Gentlemen:

One of the conditions of approval of your water Permit No. 96-7505 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1978. If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. Dear Mr. Knoblock:

Enclosed are the necessary forms to file a claim to a water right and to file for a permit to appropriate public waters. Enclosed with each of these forms is the necessary fee. Both of these forms are filed by the City of Sandpoint for water to be used for domestic purposes.

The claim to a water right is based on the existing pumping station that the City has been using since approximately 1908. The volume claimed is based on the maximum monthly usage from this pumping station.

The Application for Permit will allow the City to pump from the lake what the actual maximum capacity of their existing pumps is.

If you have any questions, please contact me at 667-1574.

Sincerely,
