Dear Mr. Walker,

RE: Permit No.96-7431

Enclosed is a copy of the Water Right License issued on the above referenced Permit.

Please be advised that one of the conditions of your permit was that a measuring device be installed as part of your diversion works. That requirement has been waived with issuance of the enclosed license. However, in the event that water supply shortages become a problem installation of measuring devices may be required.

Sincerely,

Dear Wateruser:

The enclosed Order removes the measuring device requirement as a condition of approval from your permit.

If you have installed the measuring device, the field examination can be more expediently conducted by the Department's field examiner. In addition you will derive benefit from water management information which may be obtained from the installed meter.

If you have questions regarding this matter, please contact this office or one of our Regional Offices.

Sincerely,

L. GLEN SAXTON
