Dear Mr. Watson:

Re: Permit No. 96-7424 and No. 7305

This office acknowledges receipt of your letter in which you ask several questions concerning your water rights.

Permit No. 96-7424

The requirement of submittal of a statement of beneficial use is placed on each permit. The time is determined by the number of years requested by the permit holder on the permit at the time is filed. The time is the amount of time the permit holder estimates it will take to complete his proposed project.

From your letter, I assume that you have developed the proposed project to the extent that you wish (three dwellings instead of a possible four) and that you now wish to complete the requirement of the permit and submit the statement of beneficial use. Enclosed is the statement of beneficial use postcard used for this purpose. No fee is required. This is a one-time step in the processing of each water right permit.

After the department receives the statement, we will notify our regional office. A representative will contact you to schedule a field examination on your distribution system. Based upon his recommendation, the department will issue a water right license.

No. 7305

I have researched the possible water rights which might have the No. 7305 in them and came up with the enclosed licenses. Unfortunately, your letter doesn't give me too much information to go on and I cannot be sure these are the water right you describe.

John A. Watson, Sr.

Page 2

October 15, 1980

If you would like the department to research this matter further, some additional information will be needed such as the former owner's name, point of diversion, source of water, place of use, what the water is used for, etc.

If I can be of further assistance, please feel free to contact me.

Sincerely,

RITA FLECK
Sr. Secretary
