Dear Mr. Haynes,

I have asked Mr. or Mrs. Herrick Heitman of Glengary Bay, Idaho, to appear on my behalf at the hearing scheduled for Wednesday, February 11, 1976 at 9:30 a.m., in the Community Hall, Sandpoint, Idaho on my Application for Permit No. 96-7406 since I am currently out of the state for some months.

I believe that the small amount of water I propose to use for the needs of my two room house on Trestle Creek will not noticeably reduce the quantity of water under existing water rights. The water supply is more than sufficient for the purposes intended. I make my application solely for the purpose of supplying the house in which I intend to live and from the creek running through my property. I have no speculative purposes in mind. If my application is granted I have sufficient financial resources to complete the water project.

Mr. or Mrs. Heitman have my request to answer any questions or to act in any way with full authority from me.

Thank you for your consideration.

in the name of DIANE FACTOR)

NOTICE OF CONFERENCE

On August 25, 1975, Diane Factor filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On October 6, 1975, the Department received a protest against approval of said application from J. C. Best.

The Department has set the matter of protest for conference and/or hearing for Wednesday, February 11, 1976, at 9:30 a.m., in the Community Hall, Sandpoint, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or the protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Ms. Diane Factor

Dear Ms. Factor:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 96-7406. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would ential the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 42-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

Mr. J. C. Best

Dear Mr. Best:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and in no way grants a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

Gentlemen:

I protest the granting of a Permit in connection with Application No. 96-7406 filed by Diane Factor on the grounds that water taken from Trestle Creek for this purpose would adversely affect inflows to the underground water system which I use to supply water for Jeb & Margaret's Trailer Haven. Water has been used for this purpose for approximately 20 years.
