Gentlemen:

One of the conditions of approval of your water Permit No. **96-7343** (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before **January 1, 1976**. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

RE: Permit #96-7343

Dear Mr. Fleenor,

I am in receipt of the application for water and approval and wish to advise that the well was drilled by Carl Pitts, Well Driller, Oldtown, Idaho. It is 56.9 feet deep with a water table of 20 feet. It has a 6 inch casing and is capped at this time.

The well will be put into operation after January 1, 1975, upon our moving to Idaho permanently. At that time we will install a pump adequate for a dual family use.

Any additional information you require please advise, as this is the first time we have ever registered a well and as per your letter we will answer all further questions you have.

Under proof of construction do you need a photostatic copy of the receipt showing who drilled and how deep? Please advise us.

Sincerely yours,

Donald E. Holzhauser Sr.
