Dear Mr. Ackerman:

The final stage of obtaining water rights in the State of Idaho requires an examination of the system while it is in use.

Since your system is used in part for irrigation, the examination must be conducted while you are irrigating.

I have been attempting to conduct the examination since 1977 and would like to complete it during the 1981 irrigation season. Please contact this office to set a date when you will be irrigating and available to show the system to me.

Dear Mr. & Mrs. Mallory:

One of the conditions of approval of your water Permit No. 96-7242 (see last page of your approved permit) was that evidence of the extend of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
