This image shows a full page of handwriting practice paper. It features a grid of squares designed to help children learn letter formation. Each square is defined by four lines: two solid horizontal lines, two solid vertical lines, one dashed horizontal line in the middle, and one dashed vertical line in the middle. This creates a central area for writing letters, with dashed lines indicating the correct height and width. The grid covers the entire page, providing ample space for practicing various letters and words.

Enclosed please find papers
for someone else, I know not who.

Also have wanted to get in touch
with you to discuss the no
inspection inspection you did
at my property the other day.

In my absence you didn't
get the picture at all and I'd
like to have an appointed time
to go over the ground with you
and show you what is really
being done here.

On a thing as important
as this an unannounced visit

as you did is not only unbusiness
like, its also very unfair to me
here.

If you award us only rights
for one acre when ~~if~~ in fact we're
using, at our option, water on the
entire 10 acres; we'll have to
protest the decision and ask for
it to be corrected.

This decision cannot be
competent when based on incom-

Please give us a fair shake
on this thing so we can conclude
this business promptly and fairly.

Sincerely,

Dear Sir:

Re: Water Right Application
Id # 96-7190 As started by
George D Koenig, later property
sold to Mr. & Mrs. Chas. H. Lind.

This has been hanging
fire for two years now and still
no license has been issued.

A year ago we were informed
that all that was needed was an
inspection for proof of use, but
none has been made and we
are unaware of any attempt
to do so.

We have made several trips
to your office and also several
long distance phone calls con-

erring this matter with no results.

We need the License and we also feel that every day of delay further jeopardises the issuance of that License.

This is our final appeal to you and our next resort will necessarily have to be to some higher authority in Borse.

Please, give this your earliest attention.

Also please note that the Post Office has changed our box numbers in this area as shown by the return address on the envelope

Dear Mr. Koenig:

One of the conditions of approval of the above referenced water right permit was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1978. The enclosed affidavit form is the document you must complete and submit as the proof of application of water to beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
