RE: Water Permit # 96-7162

Gentlemen:

As of this time, I have not been able to put the water to beneficial use. I have been the registered owner of this property for three of five years since the permit was issued. Because the property was purchased as recreation property and because the property was completely undeveloped, I have not yet reached the stage of development where I could bring water up to the property. The neighboring lots, #26, 28 and 32 were in similarly undeveloped three years ago. However, since purchase, development of the properties has progressed including bringing in electrical power. Mr. Lewis (lot #32) has unsuccessfully drilled for water. Because of his failure, we will be forced to utilize the creek as our source of supply of water for domestic purposes.

I am therefore requesting a continuance of this permit for an additional five years in order to continue development of my property where it would be ready to use water as described in the permit. I am requesting up to five years to enable me to examine the possibility of combining with the other property owners to install a community owned pump, motor and pipeline. Should this effort at "community owned" fail, it would become my responsibility to install a privately owned pump, motor and line to service my own property. In either situation, five years appears to be and adequate time to see the task through to completion.

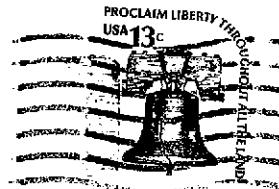

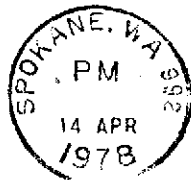

Sincerely,

Richard T. Pelkie

Dear Mr. Pelkie:

One of the conditions of approval of your water Permit No. 96-7162 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
