Permit No. 96-7158

Lytle W. Kirley of Box 6911, Kennerick, Wa 99336
(name) (address)

State of _____, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to
Appropriate the Public Waters of the State of Idaho No. 96-7158.

That under the terms and conditions of said permit, work thereunder was required
to be completed on or before May 1, 1978.

That he has heretofore performed the following work described under said permit:
Constructed, in conjunction with other property owners in Govt. Lot 4, a
diversion point on the creek using materials at the site. Work performed by
property owners--no outside labor

Costing \$ ---

That he is unable to complete the remainder of the work within the required time for
the following reasons, to-wit: Four homes are presently under construction in Govt.
Lot 4. Owners are performing most of the work themselves and progress is therefore
slower than if they were contracted out. However, construction should be far enough
along in about another year to bring water up from the creek. In the meanwhile,
an installed pump and distribution lines would be subject to severe winter elements
and possibly vandalism. It is contemplated that the property owners jointly share
the cost of the pump and lines from a single diversion point, and will proceed with
this phase of the work hopefully this year.

Wherefore, he asks that the Department of Water Resources extend the time for the
completion of obligations under said permit to Sep. 30, 1981.

Dear Mr. Uhl:

In an effort to license two of the above referenced water rights (96-7158 and 96-7827), I am writing this letter to you to clarify each of the water rights. A research of our records show the following:

Water Right 96-7158 (ready to be licensed) Recommending 0.04 cfs for one domestic unit identified as Lot 26.

Water Right 96-7162 (license issued December, 1981) 0.04 cfs for one domestic unit identified as Lot 30.

Water Right 96-7827 (ready to be licensed) Recommending 0.04 cfs for one domestic unit identified as Lot 28.

You will be receiving correspondence in regards to the water rights which are ready to be licensed. This letter serves only as a reference to show that with all four water rights combined they cover the four domestic units from one point of diversion.

Gentlemen:

One of the conditions of approval of your water permit No. 95-7158 was that evidence of the extent of development must be submitted to this office on or before May 1, 1982. (See last page of your approved permit). Enclosed is a postcard which may be used to submit the required proof of beneficial use.

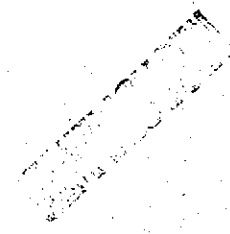

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted. A request for extension of time form is enclosed for your convenience. Please note that a fee of \$15.00 must be submitted with this form.

Either the beneficial use postcard or a request for an extension of time must be received by this department on or before the above-mentioned date, otherwise, the permit will lapse and be of no further force or effect within sixty days.

Sincerely,

RITA I. FLECK
Sr. Secretary
