4. Development plans; layout plans; construction, reconstruction, or creation of improvements; or revision of layout or construction plans for this area must be approved in advance and in writing by the forest supervisor. Trees or shrubbery on the permitted area may be removed or destroyed only after the forest officer in charge has approved, and has marked or otherwise designated that which may be removed or destroyed. Timber cut or destroyed will be paid for by the permittee as follows: Merchantable timber at appraised value; young-growth timber below merchantable size at current damage appraisal value; *provided* that the Forest Service reserves the right to dispose of the merchantable timber to others than the permittee at no stumpage cost to the permittee. Trees, shrubs, and other plants may be planted in such manner and in such places about the premises as may be approved by the forest officer in charge.

5. The permittee shall maintain the improvements and premises to standards of repair, orderliness, neatness, sanitation, and safety acceptable to the forest officer in charge.

6. This permit is subject to all valid claims.

Dear Mr. Peterson:

Your recent letter requested that your water right license no. 96-7111 be amended to show Bridgeview Creek as an additional source of water.

It is not possible to add an additional source to an existing water right license as this would be a new and different water right. Therefore, we would suggest that you file an application for permit to appropriate the waters of Bridgeview Creek at the new point of diversion. We have enclosed an application for permit form for your use. Please let us know if you have any questions in this matter.

Sincerely,

Gentlemen:

NOV 29 1976

to the
Department of Water Resources

I would like to inquire as to the possibility of adding the words "and Bridgeview creek" to my water Right License # 96-7111. These words would be added directly after "of water from an unnamed spring tributary to Bridgeview creek."

The reason for this proposed change is that about every 3 or 4 years this normally dry creek (after spring run-off) produces some water that could be used in conjunction with my present system. It would be taken from creek at same location as spring.

Yours truly

Ralph A. Peterson

Dear Mr. Peterson:

One of the conditions of approval of your water Permit No. 96-7111 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Peterson:

We are returning your Application for Permit for clarification of the point of diversion and place of use. Under item #3a you have listed the point of diversion as being located in the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$, Sec. 10; Township 55N-Range 2W. Under item #8a(1) you state that the place of use is in the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$, Sec. 3; Township 55N-Range 2W. However the map you have drawn on page three you indicate that the place of use is located in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Sec. 3; Township 55N-Range 2E.

We have taken the liberty of typing your application and have left items #3a and #8a(1) open. Please complete these items and draw the map on page 3.

Due to the fact that the point of diversion is located on Forest Service property, we will need a copy of the Special Use Permit before we can approve your permit.

After completing the above items, sign on the bottom of page #3 and return the application to our office and we will start the processing.

If you should have any questions, please feel free to contact us.

Very truly yours,
