Dear Mr. Jones:

One of the conditions of approval of your water Permit No. 96-7092 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Jones :

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, Permit 96-7092 has lapsed.

You are further advised that the Department cannot reinstate the permit except upon a showing of reasonable cause within sixty days from the date of this notice of lapsing.

Dear Mr. Jones:

We applogize for the inconvenience caused in neglecting to enclose an extension of time form in our letter of August 24,

Please be advised that the Department can grant an extension of time for up to five (5) years. We would suggest ~~that~~ you request the maximum allotted time on the enclosed application.

Making proof of beneficial use is not a new law and it is not required in order to "obtain" a permit. When a permit is issued, it authorizes the applicant to appropriate public water and put said water to a beneficial use within up to five years. (Please note on Permit No. 96-7092 that only one year was noted under Item 7a.) At the end of the permit period, a permit holder is asked to submit proof which consists of a notorized affidavit indicating the amount of water appropriated and to what beneficial purpose the water has been applied. When the Department received said proof, a field examination is conducted by a representative of the Department and a water license issued.

Please return your application for extension as soon as possible. If you should have further questions, please do not hesitate to contact us.

Sincerely,

BOBBY D. FLEENOR

RE: Permit No. 96-7092

D. Darlene Reich:

I am in receipt of your letter of August 24 in which you stated you were enclosing the Dept. application for extension of time form. However, there was nothing in the envelope excepting the letter.

You did state you would accept my letter as the initial request for an extension.

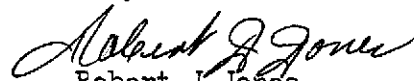

Could you please inform me as to the amount of time this extension is granted me since I am in a quandry as to how long this development of ours might take? The scarcity of money and the increased cost of constructing has necessitated a slowdown on our work program.

Since this is a land subdivision and a proposed 100 unit trailer park, there is no way I can determine whether the lots will sell, and if they do sell whether or not they will build and use water. So the proof of beneficial use will be difficult to determine for all lots.

Also, if this proof of beneficial use a new law? I have checked with other established developments and trailer parks that draw water from the lake and other sources and they know nothing about such proof of beneficial use in order to obtain a permit. Are they established under a grandfather clause.

In any event if you would send the application for extension of time form I will more than happy to send it back.

Sincerely

Robert J. Jones

Dear Mr. Jones:

Pursuant to your letter of August 21, 1973, we are enclosing the Department's application for extension of time form for your use in connection with the above referenced permit.

As proof is due under this permit on or before September 1, 1973, we will accept your letter as the initial request for an extension. Please complete the form, however, and return it to this office at your earliest convenience.

Sincerely,

D. Darlene Reich

Gentlemen:

RE: Permit No. 96-7092

Due to the tremendous cost of development of trailer park and land subdivision we are at this time unable to make proof of beneficial use on time.

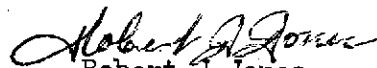

Request is made to reinstate my permit and grant an extension of time for as long as possible.

I have mislaid my previous application for permit and would appreciate your sending me a copy from your file.

There is a good possibility that we may not get underway for another 8 months or so. Is there any way we can estimate, even though we will not be able to complete within this given extension of time? This to be for the obtaining of the water license.

Would appreciate any and all information that you could give me.

Sincerely

Re: Permit No. 96-7092

Robert J. Jones

Spokane, Washington 99204

Dear Mr. Jones:

One of the conditions of approval of your water Permit No. 96-7092 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Jones:

We are returning your application for permit form, in order for you to supply some additional information.

Items #4 and #5 of your application were left blank. We propose that you determine a quantity based on the quantity of water that your pump will discharge. We normally base our diversion rate figure on 9 gal/min, per family. However, with your storage capacity, you would not have to pump this amount. We would suggest that you fill in the space for about 0.2 cubic feet per second, which would be 90 gal/min. If you feel that your system pumps more water than this amount, enter the amount you feel would be sufficient.

The proper fee must be received before we can process your application. Your fee depends on the total amount of water you wish to appropriate and can be determined from page three (3) of the enclosed instructions.

If we can be of any further assistance in this matter, please contact this Department.

James Booker
