State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to
Appropriate the Public Waters of the State of Idaho No. 96-7075.

That under the terms and conditions of said permit, work thereunder was required
to be completed on or before January 1, 19 77.

That he has heretofore performed the following work described under said permit:
Collection boxes and pipelines for domestic and stockwatering purposes have been
installed and water is being used for these purposes. The reservoir to be used
for irrigation has been constructed; however, pipeline must still be installed.

Costing \$

That he is unable to complete the remainder of the work within the required time for
the following reasons, to-wit: The reservoir has washed out twice and had to be
rebuilt. The present reservoir is not completed; however, the overflow pipe is
installed. The reservoir should be in operating condition within the next five
years.

Wherefore, he asks that the Department of Water Resources extend the time for the
completion of obligations under said permit to January 1, 19 82.

Dear Mr. Pierce:

As you are aware an examination of your water system must be conducted before a license can be issued. During this examination, the irrigation portion of the system must be in operation.

It is, therefore, necessary that we set a definite date to complete the examination. I do not have a phone number at which you can be reached, so please contact this office to set the date.

If I am not in the office, please leave a number where you can be contacted.

RE: 96-7075

Dear Mr. and Mrs. Pierce:

We acknowledge receipt of your statement of completion of water development and use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Very truly yours,

Dear Ms. Darrington:

One of the conditions of approval of your water Permit No. 96-7075 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Ms. Darrington:

Enclosed is a copy of your approved Application for Permit No. 96-7075. We direct your attention to the conditions of approval as listed on the fourth page.

In your description of your proposed diverting works, you have indicated that you will construct a dam 20 feet in height. Any dam which is greater than 10 feet in height must be recorded with the Engineering Division of the Department of Water Administration. Enclosed is a form that should be completed with the required information and returned to this Department as soon as possible. If the height of your dam is greater than 20 feet from the water surface to the downstream tow, or if it stores more than 100 Acre Feet, plans and specifications must be prepared by a registered professional engineer.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

If you have any questions regarding the completion of the enclosed form, please contact us.

Mrs. Carol Darrington
Post Office Box # 324

Dear Mrs. Darrington:

While processing your application, we have come upon a question regarding the amount of water you have filed on.

You have requested 0.97 cubic feet per second for irrigation purposes. The maximum amount we can allow is 0.02 cubic feet per second per irrigated acre. You have listed 40 acres as being irrigated, so the total amount for irrigation cannot exceed 0.8 cubic feet per second.

If you require more water than the 0.8 cubic feet per second, you will have to submit evidence from a qualified official stating that your land requires a greater amount than we allow. The Soil Conservation Service can help you if this is the case.

The application will be advertised as 0.8 cubic feet per second for irrigation purposes, pending your acceptance of the reduced amount.

If you have any questions, you may contact this Department at your convenience.

Very truly yours,

James Booker

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

Dear Mrs. Darrington:

We are returning your application for permit with check #92-310, in the amount of \$10.00.

In your reply to our questions regarding item #4 of your application, you entered 0.2 cybic feet per second for domestic use. We normally issue permits for 0.02 cubic feet per second (9 gal/min) for domestic use, unless the applicant has a specific need for more than this amount. Would you please clarify this question for us.

You have applied for a total amount of 0.5 cubic feet per second under item #5. The proper fee for this amount will be \$25.00.

We are enclosing an instruction sheet that may help answer any questions you have. There is a fee schedule on the last page of the instruction sheet.

If you have any further questions in reference to this matter, please do not hesitate to contact us as soon as possible.

Dear Mrs. Darrington:

We are returning your application for permit with check #92-310, in the amount of \$10.00. During preliminary processing, we have found some questions regarding your application for permit.

Item #4 does not show an amount figure for each purpose. Also, you indicate elsewhere on your application that the water is for stock watering purposes. If one use of the water is for livestock, please include this use in item #4. Please indicate the amount you wish to use for each separate purpose in the indicated space. Since you indicate some use of the water is for other than irrigation, you must enter the place of use in item #8a,1. If you also use the water for domestic purposes, indicate the number of families under item #8a,4.

If you should require further assistance in this matter, please do not hesitate to contact us at your earliest convenience.
