Dear Mr. & Mrs. Hollingshead:

I recently received a 'New Property Owner Notice of Change of Water Right Ownership' form on the above referenced licensed water rights.

In Idaho, decreed, licensed, and claimed water rights are considered real property; therefore, proof of owning the land is proof of owning the water rights unless extenuating circumstances exist. Water right statute does not provide a means for changing owner of record for licensed water rights; although, I have placed your correspondence in each of the water right files.

If you have any questions, please feel free to contact me directly at (208) 327-7944.

Dear Mr. Baylor:

One of the conditions of approval of your water Permit No. **96-7067 & 7068** (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before **October 1, 1973**. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Mr. J. Wright Baylor
Route #1
Priest River, Idaho 83856

Dear Mr. Baylor:

We are returning your two applications for permit and personal check #92-311 in the amount of \$35.00. We find in reviewing these two applications that there are several questions that need clarification before we could continue with their processing.

Under item #3 of the first application for irrigation, you have indicated that the point of diversion is in Lot #4, Sec. 2, T. 55N, R. 4W, B.M. In checking our plats, Lot #4 appears to be in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of the same Section, Township and Range. However, this does not agree with your map on page three of the application. We also wish to advise you that item #4 of the application must list a specific quantity of water for your irrigation needs. Under normal conditions, the maximum quantity of water that the Department of Water Administration could approve for appropriation for irrigation, would be one miners inch, or 0.02 cubic feet per second, per irrigated acre. As you have further indicated in the application that you will irrigate only 13 acres, we would probably approve only 0.26 cubic feet per second, instead of the 0.8 or 0.9 cubic feet per second that you have requested. Item #7a should also be completed. We can allow up to five years for you to once again apply the water to a beneficial use.

Application #2 also lists the point of diversion as being in Lot #4. However, you have neglected to list the Section. We would assume this to be Section 22, from further reviewing the application. Under item #4, you have listed a quantity of 0.2 cubic feet per second for irrigational purposes. This would also appear to be somewhat excessive, as you are intending to irrigate only 1 $\frac{1}{2}$ acres.

Please clarify these issues and re-submit the application so that we may begin the processing of these applications. The filing fee for these applications could be determined from page three of the enclosed instructions for filing a permit.

If you should have any further questions in reference to this matter, please do not hesitate to contact this Department.

Very truly yours,

Dear Mr. Baylor:

We are enclosing an application form and set of instructions for your use in appropriating Idaho's public waters. We find that Permit No. 24447 has been cancelled for your failure to comply with the terms and conditions of the permit. Therefore, before you can start re-using water under Idaho's new appropriation system, you must file and secure approval of the Department.

If you have any questions on the matter, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
