Dear Ms. Hildahl:

We received the proof of beneficial use of water affidavits you submitted to this office for the City's Permit No's. 96-7059, 96-7106, and 96-7331.

The proof submitted on Permit No. 96-7331 is returned since that permit has been completed and a water right license has been issued for the full permitted amount.

Before licenses can be issued on your other two permits, a field examination must be made by a representative of this Department. The resulting licenses should be for the remaining capacity of your system.

A possible solution to the problem of which well is covered by which permit would be to change each permit to include all three wells as points of diversion. This possibility will be considered when the field investigation is made. The examiner will attempt to contact you at the time he makes the examination.

If you have any questions, please let us know.

Gentlemen:

We feel that erroneous information was issued on our wells. We need this much diversion but we think that permits have been issued to the wrong wells. We feel that proper corrections should be made at this time.

On our 120 gpm well the water use is .26760 cfs. This is a 355' well with submersible pump with 15hp motor.

On our 240 gpm well the water use is .53520 cfs. This is a 340' well with submersible pump with 30 hp motor.

On our large 1000 gpm well the water use is 2.230 cfs. This well is 362' in depth with 200 hp motor and turbin pump.

Enclosed are three proofs of application of water for Permits 96-7059, 96-7106, and 96-7331. If any further proof is needed, please send necessary forms.

Gentlemen:

We are herewith returning the recently submitted 'proof of application of water to beneficial use' affidavit. Since the affidavit references three right numbers, we are at a loss to know on which right you wish to show proof.

The status of the rights are as follows:

- 96-7059 - permit approved July 13, 1971 for 0.7 cfs; proof due July 1, 1976.
- 96-7106 - permit approved November 7, 1972 for 2.0 cfs; proof due November 1, 1977.
- 96-7331 - permit approved October 21, 1974; proof made on November 3, 1975; and license issued on March 8, 1976 for 0.20 cfs.

If it is your desire to make proof on the two unperfected permits (96-7059 & 96-7106), we will require that two separate affidavits be submitted.

We have enclosed two blank affidavits for your use. Please advise us regarding this matter as soon as possible.

Sincerely,

Gentlemen:

One of the conditions of approval of your water Permit No. 96-7059 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before JULY 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

TO Bob Fleenor

SUBJECT 96-4022 & 96-7059 - City of Spirit Lake

The City Clerk from Spirit Lake was in our office today to submit an application for a new well. This will be their third well. They have filed a Claim No. 96-4022 for the existing two wells, both located in Gov't. Lot #9, Sec. 6, T. 53N, R. 4W, B.M. There is also a Permit No. 96-7059 which should include these two wells, but on her copy of the permit, only one point of diversion was stated.

Could you check to see if 96-7059 covers two points of diversion. If not, maybe an amendment should be filed.

Please let me know what you find out.

Dear Mr. McEldowney:

In reporting the quantity of water the City of Spirit Lake was using we had to make an estimate. Since our report we have had the water meters put on the pumps so now we are able to give the exact amount. On our pump #1 we are pumping 1.9-1/3 gallon per second and on pump #2 we are pumping 2.1 per second. Would you please change our application to read "municipal" instead of "Domestic".

The number of people that the City furnishes with water will probably increase to at least 1,250 within the next five years. At this time we have a population of 700, but the water system has plans of furnishing water for the lake people.

I hope that this information will help.

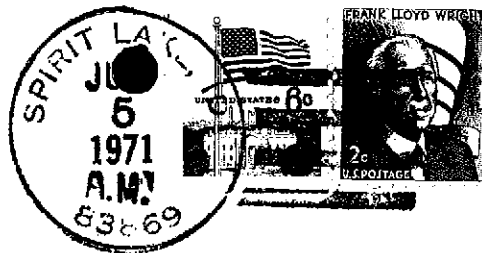

Sincerely,

Frances Turner

City Clerk

Gentlemen:

We will need your assistance in justifying the quantity of water you have requested in your application for permit above referenced.

You have requested .70 cubic feet per second for domestic use from January 1 to December 31. Probably the number of people that you are now serving and your future needs for a five-year period would assist us with this verification. We would also suggest that the term "municipal" be substituted for domestic.

Your assistance would be most appreciated.

Very truly yours,

Donald W. McEldowney
