WATER RIGHT LICENSE

License of Water Right No. 96-7041 Priority July 24, 1969 Amount 1.32 cfs

THIS IS TO CERTIFY, that Fielden L. Poirier Jr.
of Blanchard, Idaho, has complied with the terms and conditions of Permit
No. 96-7041 issued pursuant to Application for Permit dated July 24, 1969,
and has submitted proof to the Department of Water Resources on November 13, 1975,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.32 cfs of water from Blanchard Lake,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>November 1</u>	at <u>1.32</u> cfs and	<u>413.0</u> acre feet
_____	from _____ to _____	at _____ cfs and	_____
_____	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 1.32 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
413.0 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 21,
Twp 54N, Rge 5W in the County of Bonner

CONDITIONS OF APPROVAL

- a. Modifications to or variance from this license must be made within the limits of Section 42-222, **Idaho Code**, or the applicable Idaho Law. This right may be forfeited by five years of non-use.
- b. The right to the use of the water hereby confirmed is restricted and appurtenant to lands or place of use herein described, and is subject to all prior water rights, as provided by the laws of Idaho.
- c. Any water right confirmed in this license for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this license and shall not give rise to any right or claim against any future rights to the use of water other than hydropower, within the State of Idaho initiated later in time than the priority of this license.

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to appropriate the Public Waters of the State of Idaho No. 96-7041.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before Dec. 1, 19 74.

That he has heretofore performed the following work described under said permit:

60 hp pump installed and aluminum main line used this year with

60 sprinklers

Costing \$ 5000.00

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: I have my permanent main line pipe but was unable to get it buried in time this past spring as the lake level stayed high longer than usual. Also a prtion of the land to be irrigated is not quite finished with the clearing operation.-- which has turned out to be a bigger job than I had thought.

Wherefore, he asks that the Department of Water Administration extend the time for the completion of obligations under said permit to Dec. 1, 19 75.

Dear Mr. Poirier:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Coeur d'Alene.

Sincerely,

D. Darlene Reich

Re: Permit No. 96-7041 & 96-7027

Mr. Fielden L. Poirier, Jr.
Blanchard,
Idaho 83804

Dear Mr. Poirier:

One of the conditions of approval of your water Permit No. 96-7041, 96-7027 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit Nos. 96-7027 and 96-7041

Mr. Fielden L. Poirier Jr.
Blanchard,
Idaho 83804

Dear Mr. Poirier:

We are enclosing copies of your approved applications for permit Nos. 96-7027 and 96-7041. We direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer. Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permits. We are enclosing an informational letter regarding different types of measuring devices.

We are also enclosing a Memorandum Decision issued by this office concerning Permit No. 96-7027.

Very truly yours,

C. Stephen Allred, Deputy
State Reclamation Engineer

Re: Permit No. 96-2289
Permit Application Nos. 96-7027 and 96-7041

Mr. Fielden L. Poirier Jr.
Blanchard,
Idaho 83804

Dear Mr. Poirier:

This letter is to inform you that we would be unable to approve an application to amend the acreage irrigated under Permit No. 96-2289, since more land would be brought under the permit than the original permit listed. We cannot approve an amendment for more land than the permit was originally issued for.

Permit application No. 96-7027, which has a tentative priority date of April 10, 1969, will be approved in the near future. A copy of the approved permit will be forwarded to you at that time.

Permit application No. 96-7041, as of yet, has not been approved. The approval of this permit is being held up pending the outcome of the protest on permit application No. 96-7027. As soon as permit application No. 96-7027 is approved, your permit application No. 96-7041 will be approved. We note that on a letter in file 96-7041 you ask about the measuring device requirement. This requirement is being placed on all new appropriations of water for irrigation purposes. We are enclosing a letter listing different measuring devices which this office accepts. You will note that a pump curve is not considered an adequate measuring device. A pump curve does not accurately measure the amount of water being diverted.

I hope I have answered your questions satisfactorily. I am enclosing your pump curves. A copy of these curves has been placed in your Permit file 96-2289.

If you desire a copy of your permit applications at this time, please notify us and we will promptly send them to you; otherwise, you will receive a copy at the time of approval.

Very truly yours,

C. Stephen Allred, Deputy
State Reclamation Engineer

Dear Mr. Poirier:

We are ready to take final action on your application for permit, however, we must return the original application.

Information from the Idaho Attorney General's office indicates that in order for your application to be valid, your signature (following the map) must be exactly as you have listed your name under item 1 of the application - Fielden L. Poirier Jr.

Please resign the application and return it for final action. Your assistance in this matter is appreciated.

Very truly yours,

NOTE

I notice that a measuring device is to be required. As I will be pumping directly out of the lake will the factory performance curve on the pump serve this purpose? If not what will be required?
