10. Remarks: This form is foolish, in complete duplication of information previously filed in the application for the permit, and in the subsequent report by the well driller, after the well was drilled. The permit asks for a well to be drilled - it was. The driller filed a report stating that the well would support 4-5 homes, as was requested in the permit. The place, the well driller, and the purpose are exactly as stated in the request for the permit. Just issue the license. It is requested that you either make some sense, make your needs known, other than what has already been filed, or just issue the license, which is what the permit should have been. Some sense of what you mean is wanted.

Re: Permit No. 96-7029

Clarence E. Wilson
Route 1, Box 70 K
Priest River, Idaho 83856

Dear Mr. Wilson:

On April 29, 1969 you filed an application for a permit to divert and put to a beneficial use, the public waters of the State of Idaho. Permit No. 96-7029 was issued on June 6, 1969 authorizing the drilling of a well and the appropriation of 0.10 cubic feet per second of water for domestic purposes. The Department issued the permit with the condition that the project be completed and water beneficially used within 5 years and that proof of such use be submitted to the Department on or before June 1, 1974.

The application you filed was for a proposed development. We cannot tell from the information on the permit or the drillers report the extent of your use of the water. Therefore, you were sent by certified mail, on April 1, 1974, a proof of application of water to beneficial use affidavit form. This is a notarized statement which must be submitted as your proof that the project has been completed within the terms of the permit. Section 42-217 of the Idaho Code provides that proof must be made under a permit before the Department can make a field examination and issue a water right license.

We are enclosing another blank affidavit for your use. This proof must be made on or before June 1, 1974, or the permit will lapse and be held null and void.

Sincerely,

BOBBY D. FLEENOR

This form is foolish, in complete duplication of information previously filed in the application for the permit, and in the subsequent report by the well driller, after the well was drilled. The permit asks for a well to be drilled - it was. The driller filed a report stating that the well would support 4-5 homes, but not requested in that permit. The place, the well driller, and the purpose are exactly as stated in the request for the permit. Just issue the license. It is requested that you either make some sense, make your needs known, other than what has already been filed, or just issue the license, which is what the permit should have been.

Dear Mr. Wilson:

One of the conditions of approval of your water Permit No. 96-7029 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Director

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
