Being duly sworn, deposes and says:

I Eldon Keller, owned the NE1/4 NE1/4 of Section 5, Township 55N., Range 2W., in Bonner County at the time that the Westmond Cemetery filed for Water Right Number 96-07014.

I acknowledge that a mistake was made on the legal description of where the water was used when the Water Right License was issued. I affirm that water from the well on the Westmond Cemetery has historically been used to water the Westmond Cemetery located within the SW1/4 NE1/4, Township 55N., Range 2W. Section 5, and not lands located in the NE1/4 NE1/4, within the same Township and Range.

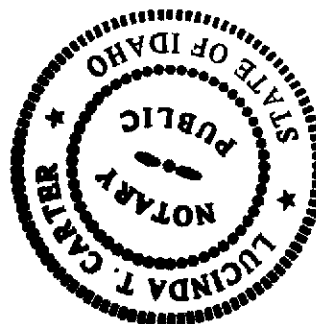

I am not apposed to the Transfer being filed to correct the legal description of the Place of Use for Water Right Number 96-07014 filed by the Westmond Cemetery.

License of Water Right No. 96-7014 Priority August 8, 1968 Amount 0.04 cfs

THIS IS TO CERTIFY, that Westmond Cemetery Association
of Sagle, Idaho, has complied with the terms and conditions of Permit
No. 96-7014 issued pursuant to Application for Permit dated August 7, 1968,
and has submitted proof to the Department of Water Administration on October 2, 1973 (late proof),
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.04 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use &
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

			<u>3.0 af per acre</u>
_____ from _____ to _____ at _____ cfs and			
_____ from _____ to _____ at _____ cfs and			

(both dates inclusive)

Subject, however, to the condition that no more than 0.04 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
6.0 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 5,

IN THE MATTER OF PERMIT NO. 96-7014)

ORDER OF REINSTATEMENT

IN THE NAME OF WESTMOND CEMETERY ASSOCIATION)
_____)

WHEREAS, on August 7, 1968, Westmond Cemetery Association filed with the Department of Water Administration (formerly the Department of Reclamation) an application for permit to appropriate 0.04 cubic feet per second of water from a ground water source within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 5, Twp. 55N, Rge. 2W, B.M., Bonner County, to be used for irrigation purposes; and,

WHEREAS, on October 23, 1968, the Department approved said application and issued Permit No. 96-7014 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before October 1, 1973; and,

WHEREAS, on August 1, 1973, the Department notified the permit holders by certified mail that proof of beneficial use was due and instructed the permit holders as to the steps to be taken to make said proof; and,

WHEREAS, on October 1, 1973, Permit No. 96-7014 lapsed for failure of the permit holders to submit proof of beneficial use of the water; and,

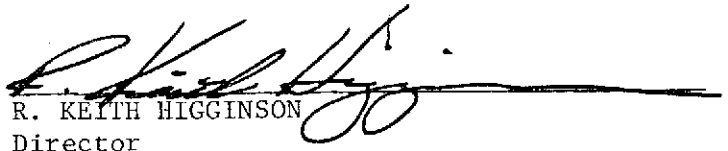

WHEREAS, on October 2, 1973, the Department received the required proof of beneficial use of water; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of lapsing; and,

WHEREAS, the permit holders have provided a reasonable showing as to why said permit should be reinstated;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 96-7014 be REINSTATED and the priority advanced to August 8, 1968.

Remarks
Dial cemetery is a small one (303' measured - 305 feet recorded by 262' measured - 264' recorded) at Westford on Highway 95 some 10 miles south of Sandpoint, Idaho. It is a non-Protestant community affair kept up by lot sales, and donations of work and money.
Plans ask to purchase the cemetery with water from the well which is near 83 feet down with an 8 in. tube. Drilling has stopped but it is hoped to resume such drilling as soon as more funds become available. Plans for raising money are being carried out and we trust a successful completion of the drilling can be accomplished. Respectfully

TO: FILE NO. 96-07014

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4939

DATE: January 3, 1997

=====

Transfer No. 4939 was filed to change the place of use under Right No. 96-07014. The change is a correction to identify the historical place of use; no physical change occurs.

The original application map diagram appears to have located the cemetery correctly, but the legal description was incorrect. The point of diversion was identified correctly and described as located in the SE corner of the cemetery on the licensing field report, but still licensed in separate QQ descriptions.

The transfer application identifies the place of use in the SWNE, Section 5, T55N, R02W. This legal description was confirmed as the historical place of use by review of the 1968 USGS map (D-6, Sagle) clearly identifying the cemetery. An affidavit was also provided with the transfer application from Eldon Keller stating that he was the owner of the incorrectly identified NENE, Section 5 when the water right application was filed in 1968. He agrees that an error was made and relinquishes any interest in the right.

Season of use was adjusted to current standards. Recommended conditions include irrigation overlap and standard transfer conditions.

Gentlemen:

One of the conditions of approval of your water Permit No. 96-7014 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

It has been brought to our attention that on or about
August 26, 1967, you had a well drilled. The
well is reported to be located at a point in the SW $\frac{1}{4}$
NE $\frac{1}{4}$ sec. 5, T. 2 W, R. 55 N, B.M. for
irrigation use.

A search of our records has failed to find your application or approved permit. Under existing Idaho Statutes, Sections 42-226, 42-229, and 42-230 of the Idaho Code, you are required to file and obtain an approved permit before you divert waters from a subterranean source, with the exception of domestic wells which are defined under Section 42-111 of the Idaho Code.

If we have overlooked your permit, please advise the department as to your permit number. However, if you have not yet filled out an application for permit, please use the instructions and the blank application form which we have enclosed.

We will be very happy to assist you with any questions you might have.

Very truly yours,

Re: Application for Permit

Westmond Cemetery Association
Route 1
Sagle, Idaho 83860

Gentlemen:

We are returning your personal check in the amount of \$10.00 and your application for permit to appropriate the public waters of the State of Idaho. In order for your application to be acceptable we must have clarification of the following issues:

We must have a source of water supply listed under Item 2 of the application. Item 4 requires a specific quantity of water to be requested thereby assisting in determining the amount of filing fees required for the application. The quantity entered should either be in cubic feet per second or acre feet per annum. We also require under Item 6a of the application description of the proposed diverting works and method of irrigation.

Inasmuch as the application is for irrigation we must have section 8b of the application completed. Show the township and range, section, and the forty-acre subdivision wherein your irrigation will be conducted. The map required under Item 11 of the application must also be completed by Public Land Survey subdivision, section, township, and range. A scale of two inches to the mile indicated at the bottom of the map would allow each of the small squares on the map to cover a 40-acre tract of ground. We do not require identification more detailed than the particular point of diversion and place of use by 40-acre tracts.

If we can assist you in any manner, please contact us.

Very truly yours,
