MEMORANDUM

To: File 96-4415

From: Cynthia Bridge Clark

Date: November 13, 2002

Re: CHANGE OF WATER RIGHT OWNERSHIP

Lynn and Debbie Reed submitted a Request of Change of Water Right Ownership for statutory claim 96-4415 and water right license 96-8192. The latter was updated based on the documentation provided, however the legal descriptions for the point of diversion and place of use on the statutory claim 96-4415 did not correspond with the property described in the Warranty deed provided by the Reeds.

After further review of the both water right files, it was determined that there were errors in the legal descriptions identified on the statutory claim form and on the application for permit for water right 96-8192 as submitted by Clifford and Gratia McAllister. Both rights indicate that the point of diversion is located in government lot 3 (NESW) in section 7, T55N R02W. The field examiner corrected the legal description associated with water right 96-8192 to show the point of diversion in government lot 5 (NESW) of section 7, T55N R02W on the license.

The place of use on the application for permit was shown as government lots 2 and 3 (SESW and NESW respectively) in section 7, T55N R2W. The legal description on the claim has an additional error in the Township and Range, documenting the place of use in government lots 2 and 3 (SESW and NESW respectively) in section 7, T53N R3W. Based on the map provided with the claim and the source of water identified as Cocolalla Lake, the applicant clearly intended to specify Township 55W Range 2W. Additionally, the license examiner corrected the place of use on water right 96-8192 to show government lot 5 (NESW).

It appears the field examiner correctly identified the location errors on the application for permit. However, the department has not yet verified claim 96-4415 so the locations have not been corrected. The maps provided by the McAllisters for both rights not only correspond to each other, but also to the government plat map identifying government lot 5 as the NESW quarter quarter of section 7, T53N R2W.

As per discussions with Mr. Lynn Reed and section manager, Jeff Peppersack, the legal descriptions for both the point of diversion and the place of use on statutory claim 96-4415 have been updated in the database to show government lot 5 (NESW) of section 7, T55N R02W. The department will subsequently modify its records to reflect the change of ownership on statutory claim 96-4415.

RE: Change of Ownership for Water Right Claim 96-04415

Dear Mr. & Mrs. Reed:

Our letter of September 3, 2002 describes the discrepancy in the legal description between the place of use for this claim and the legal description you provided for your requested change of ownership.

We have determined that the best way to correct this discrepancy is for you to file an Application for Transfer of Water Right (enclosed). The applicable fee is \$100.00. We will transfer the \$25.00 you sent for the ownership change of this claim to the transfer fee and you would only need to send an additional \$75.00 to complete this fee requirement.

You may contact our Northern Region office in Coeur D'Alene for assistance in completing the Application for Transfer if necessary. Their telephone number is 769-1450. Please send the completed transfer application to the Northern Region office at the address shown on the back page of the transfer instructions.

The ownership change for this claim will be completed during the processing of the transfer application.

If you have other questions regarding this matter, please call me at 208-327-7941.

RE: Change in Ownership of Water Rights 96-4415 and 96-8192

Dear Mr. & Mrs. Reed:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership. Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

- ✓ **Signature** – Signature(s) required on line 7 of ownership change request (enclosed)
- ✓ **Evidence of Water Right Ownership:** copy of Deed, Title Policy, Contract of Sale, or other legal document indicating your ownership of the property and/or water rights in question

During our review of the documentation you submitted we found some discrepancies between that documentation and the legal description of the place of use for the water right claim indicated in your notice. I have enclosed a copy of the water right(s) claim for your reference. The legal description shown on the warranty deed you provided shows T55N, R02W, S7. The legal description on the Claim to water right 96-4415 shows the place of use in T53N, R3W, S7.

Because the Department cannot process the ownership change without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days we will return your notice and all attachments and your notice will not be processed.

Please note that water right owners are required to report any change in water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage (<http://www.idwr.state.id.us>) on the Internet to obtain the proper forms and instructions.
