The Department of Water Resources has completed the processing of your claim to a water right, and no further action is authorized under Section 42-225a and 42-225b, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of a claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with our office.

We are enclosing, for your records, a copy of your claim. If you have any questions, or if we may be of any further assistance, please contact us.

Sincerely,

This is to certify that I know of the prior use and the continued use of the water being claimed. The springs run all year and the estimated flow is a fair measure.

The water has been continuously used to irrigate the land described, for stock water and for domestic purposes since the date mentioned on the water claim.

Respectfully Yours

Re: Claim to a Water Right

Dear Mr. Lewis:

Enclosed you will find your check #82-108/1021 and your Claim to a Water Right. The manner in which the Claim form has been prepared has caused some confusion. I have taken the liberty of preparing a new Claim to a Water Right based on that information which is clear. The items listed below must be completed for the Claim to be of any value to you.

Item 2: I have enclosed a schedule for computing the cubic feet per second (cfs) used for Stockwater. For Domestic use, multiply 0.04 cfs times the number of houses served. For Irrigation multiply 0.02 cfs times the number of acres that have been irrigated continually since 1950.

Item 3: Total of amounts in Item 2 or total amounts of water diverted if less than total of Item 2.

Item 5. b.: Describe how the water is conveyed to the pond and a description of the pond. Also how the water is conveyed from the pond to the cattle, irrigated acreage, and house(s).

Item 6. a.: Enclosed you will find a sample sheet which explains how to complete this item. The sample sheet will also aid you in drawing the map. Please use the scale provided or indicate the scale that you are using to avoid confusion.

Item 6. b. List number of head of stock and number of houses furnished with domestic water.

If this office can be of any further assistance, please do not hesitate to contact us.

Sincerely,

TOM KING

Dear Mr & Mrs Bewis,

We are herewith returning your check #82-108 for \$10.00 and your Claim to a Water Right. Before a claim can be accepted by the Department of Water Resources, it must be entirely in ink, the map you have drawn is in pencil. I also question the map in that you have circled the scale equals one mile; however, you appear to have labeled the sections at the scale of 1 inch equals one mile. Please correct either the scale to read one inch equals one mile, or change the map to conform with the scale.

I have enclosed a schedule which is used by the department in computing the cubic feet per second volumes of water necessary for stockwater for licensing purposes. I believe you used such a scale to compute your stock water originally. However, it appears that instead of using the CFS figure you used the acre feet per year schedule. The table calls for 0.03 cfs for 74 head and 1.4 af/AM. Please feel free to use the schedule bearing in mind that it is used for licensing purposes and is not necessarily the amount which you may have used in the past.

Please feel free to contact this Department if you have any further questions regarding this claim.

Sincerely,

TOM KING
Senior Water Resource Agent

Dear Mr. King

Thank you for your very helpful letter of August 16, 1977. I have completed the water claim form as per your direction in your letter. I believe that everything is in order now. I plan to be in residence on the Ranch at Clark Fork in July of 1978 as I have sold my property here in Colorado.

If there are additional items to be answered please let me know as soon as possible. Again, thank you for your assistance in this matter.
