Dear Mr. Privette:

We have typed your Claim to a Water Right for your convenience, and we are returning it for your review and signature. Also enclosed is your Check No. 92-197 in the amount of \$10.

Under Item #2 and 3, you have indicated the amount of water diverted as 0.20 cubic feet per second. This is equivalent to approximately 90 gallons per minute. If this amount of water has been used for domestic purposes since 1920, it might be better to indicate in the Remarks section of the claim, how many households are being served by this system.

After clarifying the above, please have your signature notarized once again and return the form to our office, along with the required \$10 filing fee. Your assistance in this matter is appreciated, and if there are any questions, feel free to contact us.
