Dear Mr. Bailey:

You recently submitted an exception to a claim to a water right no. 96-4158 filed by Mr. Richard Pedersen that was not notarized.

The purpose of having your exception notarized is so that it will be admissible as evidence in court at a future date. It is certainly not, as you intimated in your letter of March 6, 1976, to discourage the filing of exceptions.

Every requirement of the Idaho Code regarding exceptions cannot be included in a legal notice of the newspaper and since there is no deadline on the filing of an exception, we felt it was not important to include in the legal notice the statement that exceptions must be notarized.

It is interesting to note that the use claimed by Mr. Pedersen does not appear to be substantially different than the use that you describe he has in your exception. This claim filed by Mr. Pedersen is not for an additional use or new use of water, but is simply to provide information on his use of water for a future adjudication of water rights. Mr. Pedersen in his claim describes his means of diversion as "a pipeline (which is also used by the City of Hope) with sprinkler system and stock tanks."

Any further information you can send use concerning the validity of this right is certainly appreciated, but for that information to be admissible to the court at a later date, it must be notarized. If you have any further questions concerning the filing of a claim or an exception, please do not hesitate to contact us.

Dear Sir:

If the mailing of Challenge is contingent on filing, an affadavit form + notarized, why the hell is it not so stated, in the so-called legal publication?

I assume this fraken is to turn a concerned citizen off - so that I will say "Oh-what's the use?"

In the interim, the originals of these enclosures will serve as an intent to contest.

Right now - our city has an application under consideration, over at Boise - W.R.D. office - and after 10 years - we need all the help we can get. What we don't need is some one nabbing our Water Source.
