My grandfather, L. D. Farmin, acquired this Railroad Section in
January 1907 and it has been in my family to date. A series of
pumping systems was used through the years, utilizing the springs
along the beach as source. In 1950 the Albeni Falls dam submerged
the springs from May until October--so the present pumping from
the well was added. The well penetrates glacial till, then enters
pre-glacial gravel and a lignite bed.
