AFFIDAVIT OF

OBJECTION TO CLAIM OF WATER RIGHT

No. 96-4071

STATE OF IDAHO,)
 : ss.
County of Bonner,)

RAY RAINERI and GLOREEN RAINERI, being first duly sworn,
on their oath depose and say:

That they are residents of Bonner County, Idaho and make
this affidavit for the purpose of setting forth their objection to the
claim of DELBERT DON LEAVERTON, also of Bonner County, Idaho,
for a water right as published in the Sandpoint News Bulletin at
Sandpoint, Idaho, on August 2, 1973.

That Mr. Leaverton claims water right for three houses but
in reality only owns one. The other two homes are presently owned
by Bill Willard and Fred Dark.

That affiants believe the claim for 0.20 cubic feet per second
is far in excess of the needs of one home. This amounts to over
120,000 gallons per day which at the present time in dry periods
there is only available 600 to 900 gallons per day at the proposed
point of diversion.

That the unnamed stream in the Northeast quarter of the
Southeast quarter in Section 21, Township 57 North, Range 1 East,
Boise Meridian, Bonner County, Idaho, has been mentioned as a
partial source of water for a 40-family subdivision on permit

#96-7090, dated July 27, 1972, for property belonging to affiants.

During the month of May, 1972, your affiant, Ray Raineri, approached Mr. Leaverton with the idea of developing the stream on this property and to date has never received an answer to his inquiries.

That affiants object to the granting of 0.20 cubic feet per second to the claimant, Leaverton, and request a specific showing that as to any permit granted to claimant that the same is junior in right and time to that of Objector.

Further affiants sayeth not.

Dear Sirs;

In reading the legal notices in the newspapers, my attention was directed to a water right claim # 96-4071 filed by Delbert Don Leaverton. This unnamed stream's headwaters is located on my property, and note of intended use of part of this water was made on my application for water right # 96-7090.

The 0.20 C.F.S. that is being asked for is far in excess of their needs. It is doubtful that there is more than 200 to 300 gallons per day per house in the fall of any year. In 1972 I approached Mr. Leaverton to jointly develop the source of the stream, as his point of usage is almost a quarter of a mile from the source, and there is a great loss in percolation.

Dear Mr. Leaverton:

We are returning your Claim to a Water Right and also your Check No. 92-58 in the amount of \$10.

We have typed another claim form, changing several items. Under Item 2, we have listed "Jan. 1 to Dec. 31" and have listed a priority of 1946 in Item 4. We have also added the place of use in Item 6 as the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 21.

It would be better to list the number of houses that have been supplied with domestic water prior to May 20, 1971.

Please review the claim, have your signature notarized once again, and return the claim to our office along with the \$10 filing fee. If you should have any questions, feel free to contact us.

Very truly yours,
