REMARKS: THE APPLICANT purchased the land in 1955 on which the water is to be used. There is a residence on the property and some work already done towards putting water in the house. The house and land to be irrigated lays on the south side of the creek and the location of the fish pond is to be on the north side. The applicant plans to establish residence on the property in the spring of 1956. The fish pond is to have a stream of water running in and out all the time and the outflow will return to the creek. Size of the pond is estimated to be roughly 50 feet wide and 100 feet long. Capacity estimated to be about 15,000 cubic feet. Mr. Sinnott will furnish more detailed plans later if required. Dear Sir:

We received your letter of April 8th in regard to transfer of water right appurtenant to west portion of NW 1/4, Sec. 35, T. 58 N., R. 2 W.

You purchased the property with all water rights and the water right is now yours. The water right allows the use of about 13,000 gallons of water per day for domestic use which includes stock water and irrigation of a small garden or lawn.

This office does not maintain a record of change in ownership of water rights after they are licensed or decreed by the District Court.

Dear Mr. Prah:

We have your letter of May 9, 1960 in regard to Permit No. 26202 in the name of Edgar J. Iverson and Olga Iverson.

Upon checking the records in this department we find that the Certificate of Completion of Works and the License and Certificate of Water Right have been issued. After a permit has gone to license it is transferred the same as real estate. You should obtain the Permit, Certificate of Completion of Works and License and Certificate of Water Right from the previous owners.

Dear Mr. ~~& Mrs. Iverson:~~

Statutes requires a field inspection in connection with the proofs on Permit # 26202 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Wednesday, in the afternoon

July 29, 1959.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

RE: Edgar J. Iverson
Water Permit 26202
Sandpoint, Idaho

RECEIVED
MAR 26 1959
Department of Reclamation

Dear Mr. Carter:

With reference to your letter to the above named Edgar J. Iverson, and the change of date for depositions from the 16th of March to the 13 of March, 1959, I wish to state that it was more convenient for the witnesses to appear on the 13th than the 16th, which came on Monday and at a time when they were working. Also, I wish to state, my office was open all day of March 16, 1959 and I did not receive any protests.

Sincerely yours,

Ralph M. Smith.

Subscribed and sworn to before me, the undersigned a Notary Public in and for the State of Idaho. Residing at Sandpoint, therein.

My commission expires January 15, 1962

Notary Public for Idaho.

Re: Permit No. 26202

Mr. Edgar J. Iverson
Sandpoint, Idaho

Dear Mr. Iverson:

Your Proof of Application of Water to Beneficial Use deposition of holder and two depositions of witnesses received.

The advertisement gave the date March 16, 1959 as the day the depositions would be made before Ralph M. Smith, Notary Public. The depositions show the date March 13, 1959.

We must have a notarized affidavit from Mr. Ralph M. Smith showing reason why the depositions were made on a date differing from the notice and that his office was open all day March 16 and that no protests or that protests were received in regard to permit no. 26202.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

GNC:RT:ew

P. S. We also enclose statement from the Sandpoint News Bulletin in the amount of \$18.90 for publication, which must be paid by you.

Dear Mr. Iverson:

This acknowledged the Notice of Proof of Application of Water to Beneficial Use under Permit No. 26202. Final proof is to be made at 10:00 A. M. on the 16th day of March, 1959, before Ralph W. Smith, Notary Public, at Sandpoint, Idaho.

You will note we have changed the date for final proofs from January 31, 1959, as appeared on the Notice which was received in this department on February 6, 1959, to March 16, 1959 in order to comply with the statutes which require that the notice be published for four consecutive weeks prior to the date set for final proof. If this new date does not meet with your approval, please advise us at once.

As of this date we have mailed the notice to the Sandpoint News Bulletin, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the work done thereunder, at the place, on the date, at the time, and before the Notary, as advertised. It is very important that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that the Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

STATE OF IDAHO
DEPARTMENT OF RECLAMATIONRE: Permit No. 26202Date January 1, 1959**Edgar J. Iverson & Olga Iverson
Sandpoint, Idaho**

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 26202 is due not later than March 1, 1959. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Dear Mr. Iverson:

We are returning herewith your Deposition of Proof of Completion of Works in connection with the above stated permit for additional information.

The application for permit in the name of M. C. Sinnott and later assigned to you states that the place of use is the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 35, Township 58 North, Range 2 West. We observe on the Deposition of Completion of Works enclosed herewith, that you state that the place of use is the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 5, Township 58 North, Range 2 West. We believe this is a typographical error on your part and we are returning the same for correction.

Providing that said place of use is in Section 5 instead of Section 35, an amendment will be necessary and upon return of said affidavit of Completion of Works, requesting an amendment, the same will be sent to you.

There is a filing fee for recording and issuing a Certificate of Completion of Works to the amount of five dollars, which you failed to send in with the affidavit.

We observe on the Deposition of Completion of Works enclosed herewith, that you state that the place of use is the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 5, Township 58 North, Range 2 West. We believe this is a typographical error on your part and we are returning the same for correction.

Providing that said place of use is in Section 5 instead of Section 35, an amendment will be necessary and upon return of said affidavit of Completion of Works, requesting an amendment, the same will be sent to you.

There is a filing fee for recording and issuing a Certificate of Completion of Works to the amount of five dollars, which you failed to send in with the affidavit.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho

Edgar J and Olga Iverson
Sandpoint, Idaho

Dear Sir:-

Under the terms of your permit No. 26202 you are required to complete your diversion works on or before March 1, 1958. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

DAVID H. KIRKP
