Mr. Chester Chastek
TREZONA, CHASTEK AND LORENZ
Suite 302 Fidelity Building
Spokane, Washington 99201

Dear Mr. Chastek:

Yesterday we attempted to telephone you, however, we were unsuccessful in our attempts; therefore, we wish to respond to your June 16, 1969 correspondence with this letter.

The above referenced permit has lapsed as proof of beneficial use was not received on or before June 3, 1969, as required under the terms and conditions of this permit. Idaho Statutes will not allow the approval of an extension of time that is received after the date proof of beneficial use is required. These Statutes, however, do provide a grace period within which a permit can be reinstated. This period is a 60 day unit starting from the date entered on the NOTICE OF LAPSE. We have not, as of this date, issued the notice of lapsing.

In order for the permit to be reinstated adequate cause must be shown to the satisfaction of the State Engineer as to why the permit should be reinstated. This adequate cause could be the receipt of the required proof of beneficial use and the authorization to publish the intent notice for this permit.

Therefore, we would recommend that: (1) Mr. Brown submit to the Department of Reclamation an assignment executed by Mr. Adolph Jurgens assigning the permit to Mr. Brown. (2) Completion of the affidavit of proof of beneficial use under the signature of L. B. Brown. (3) Completion of the authorization to publish to notice of intent.

Each of these documents must be received by the Department within the 60 day grace period above mentioned. If Mr. Brown cannot obtain the assignment, then Mr. Jurgens would be required to follow the same steps.

33496

Page 2
Mr. Chester Chastek
June 18, 1969

If Mr. Brown cannot obtain the assignment, then Mr. Jurgens would be required to follow the same steps.

We are enclosing forms for you use in this matter. If you are successful in submitting the required documents, the only portion of this permit that will suffer will be the priority date which will be reduced the exact number of days proof of beneficial use is late.

In the event, you are not successful in perfecting the permit within the grace period, the Mr. Brown should consider filing a new application for permit.

If we may be of assistance to you in any way, please contact us.

Dear Sir:

Your letter of April 3, 1969, together with the enclosures, addressed to Adolph C. Jurgens of Athol, Idaho, finally came across my desk. As you may know from our previous correspondence we are counsel for L. V. Brown, who purchased the Jurgens property. I am not sure of the status of Permit No. G-33496 and am looking into it as rapidly as I can get the information. In the meantime we would greatly appreciate your giving us a 30-day extension on that June 3rd deadline so that we can find out what really has happened.

As you may have gathered, Mr. Jurgens left the country and only recently apparently received your letters somewhere down in Missouri and then forwarded them on to us.

Your patience and consideration in this matter will be greatly appreciated.

Cordially yours,

Dear Mr. Jurgens:

One of the conditions of the approval of your permit

Enclosed is an affidavit form which must be used to submit

Either the proof or a request for extension must be received

Re: Permit No. G-33496

Adolph C. Jurgens
Athol, Idaho

Dear Mr. Jurgens:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Gentlemen:

DUE - 3-2-69 FOR USE IN

We have a client who is interested in purchasing property in Section 13 & 24
Kootenai County, Section 24, Township 53 North, Range 4 WBM,
State of Idaho.

Please advise us whether or not a right to draw water from a well on any part of Section 24, Township 53 North, Range 4 WBM has ever been granted by the State of Idaho to Adolph C. Jurgens or his predecessor.

If a water right has been granted we would like to know what volume of water he is permitted to withdraw from this well.

We would appreciate your advising us, in the event no water right exists insofar as your records are concerned, what period of time he would have had to draw water from the well in order to have some kind of right to do so from here on out.

Your prompt attention to this matter will be greatly appreciated.

Cordially yours,

DAVIS, TREZONA, CHASTEK & LORENZ
