FOLD ↑

Dear Sir: Thank you for your recent communication relative to subject water use permit, as noted above. The property upon which the permit was to be utilized has been under litigation for over a year, to clear title, and was only settled as of recent date. As a consequence the proof of application of water use could not be made until the matter was completely settled thru my attorney. In view of this, I respectfully request a time extension. However, some changes have been made in the land areas covered under the permit which will no longer be applicable to the original permit. Please forward necessary forms to make the area ~~revisions~~ revisions necessary under this permit.

Sincerely,

Dear Mr. Schuyler:

One of the conditions of approval of your water Permit No. 33440/96-2312 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before JULY 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 33440/96-2312

Dear Mr. Higginson:

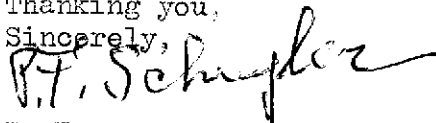

Thank you for your letter of July 3rd in regard to the lapse of subject permit.

Unfortunately, one cannot out-guess the whims of "Mother Nature." Since the early spring run-off and subsequent flooding that has occurred, my pump site on Hoodoo creek has been under water and still is as the inclosed photo will attest. This photo was taken last week at the site. It has been impossible for me to get to the pump site as the area that I have to irrigate, is separated from the creek by an 80 acre natural meadow which is still completely inundated. I have to cross this meadow for a distance of about 300 yards, thence up a 30 foot rise to the bench land to be irrigated. I normally cut about 3000 bales on the natural meadow, which is lost to me this season, as well as the alfalfa land on the bench which I could not irrigate, cut my hay production by half.

The photo was taken from up on the bench land that I irrigate, looking out across the meadow to the creek, which can be seen in the distance.

Frankly, there was nothing I could do about fulfilling the obligations of the permit this season, and will not be able to do anything until such time as the water recedes. I would appreciate your departments consideration in this matter relative to reinstatement. In the event you cannot due so, I shall have to reapply at a later date.

Thanking you,
Sincerely,

P. F. Schuyler

The property upon which the permit was to be utilized has been under litigation for over a year, to clear title, and was only settled as of recent date. As a consequence the proof of application of water use could not be made until the matter was completely settled thru my attorney. In view of this, I respectfully request a time extension. However, some changes have been made in the land areas covered under the permit which will no longer be applicable to the original permit. Re: Permit No. 33440 (New No. 96-2312)

Paul F. Schuyler
Chatteroy, Washington

Dear Mr. Schuyler:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit ~~_____~~. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
