Dear Ms. Jones,

RE: Water Right License 96-2305

Thank you very much for your letter of June 26, 1981. As you have stated your property's description is:

$N\frac{1}{2}$ of $NE\frac{1}{4}$, Sec. 17, Twp. 55N, Rge. 5W.

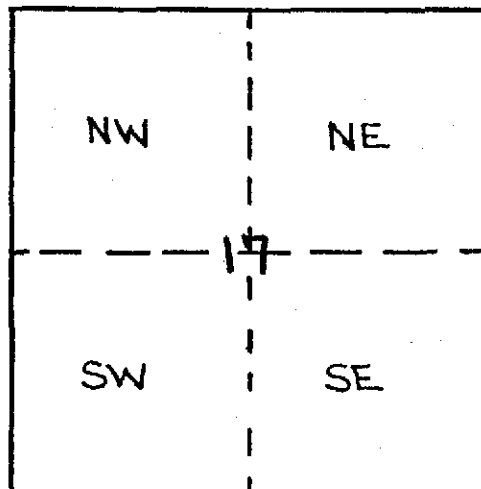

I have reviewed your Water Right License and it states identically the same description except for the fact that the $N\frac{1}{2}$ of the $NE\frac{1}{4}$ is broken down into quarters, the $NE\frac{1}{4}$ and $NW\frac{1}{4}$ of the $NE\frac{1}{4}$ (two quarters makes one half). In September of 1970 our field examiner visited your property and determined that you were only irrigating 1.5 acres and one household was present. At that time we licensed the Water Right for that amount.

.5 acres being in the $NE\frac{1}{4}NE\frac{1}{4}$

1 acre being in the $NW\frac{1}{4}NE\frac{1}{4}$

1 household use

Each Section has 640 acres and is broken down in to quarters of 160 acres:

Each quarter has 160 acres and is broken down in to quarter quarters of 40 acres:

Gentlemen;

I thank you for being so prompt in answering my inquiry about my water right. No. 96-2305

However, there is a mistake on the property description that should be corrected.?

It should read:

N $\frac{1}{2}$ & NE $\frac{1}{4}$ Sec. 17, T55N, R5W

The above is the property description of our farm. Could the water right be the area that the irrigation covers, only? Thus, the difference?

Gentlemen:

My late husband, R.R. Jones, and I, between the years of 1967-1970, applied for, received and paid for a water right to the water for irrigation purposes from the Little creek that runs through our property. It is a spring-fed creek that only flows through our land and ends there also.

Property description:

$N \frac{1}{2}$ of NE $\frac{1}{4}$, Sec. 17, T55N, R5W

When we filed for this water right a young man came out from your Dept. and measured the water flow pressure.

The creek had no name
that we knew of so we
named it "Trickle Creek"
because of its size. However
we have enough water
piped down from $\frac{1}{2}$ mile
up the creek for gravity-
flow pressure to irrigate
a large garden & yard
besides running some in
an irrigation ditch to
the meadow when needed.

Hope you can find
the record of our water
right as I would like
to have another copy.

Thanking you, I am

Yours Truly,

Dear Mr. Jones:

An examiner from our Department has conducted an examination of the land and works covered by your Permit No. 96-2305. The findings of this examination indicate that you are using this water for Domestic and Irrigation purposes. Before we can license this permit, it will be necessary to amend the nature of use to include Domestic and Irrigation purposes. As your permit now stands, the nature of use is listed as Garden and Stockwater. Enclosed is a partially completed amendment form for your use in this matter. Please sign this amendment and return it with a \$5 amendment fee.

We are prepared to license Permit No. 96-2305 for 0.04 cubic feet per second of water from an unnamed stream. The water is diverted from a point within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 17 and used for domestic purposes for 1 house and irrigation of 1.5 acres within the N $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 17, Twp. 55 N., Rge. 5 W., B.M. The maximum quantity diverted shall not exceed 5.07 acre feet per year. The priority date established by this permit is July 11, 1966. If you agree with these findings, please remit licensing fees of \$9 within 30 days of the date of this letter.

As soon as we have received the amendment properly signed and a total of \$14 in fees, we shall proceed to issue the water license for Permit No. 96-2305 as set forth above.

Dear Mr. Jones:

Our examiner has not as yet made the examination of your water system. As we said previously, he will try to contact you. We shall inform him that you are employed by the Department of Highways in this area and perhaps he will be able to contact you there.

If you are in a hurry to have this matter taken care of we should like to inform you that the earliest that our examiner will be in your area is sometime during the 1969 irrigating season. If you have further questions, please feel free to contact the Department.

Permit No. 32986

Dear Sir;

In July of 1967, I submitted proof of completion of works and beneficial use of water under Permit 32986.

You informed me at that time that a field examination would be made, before a certificate and license of water right would be issued.

It is possible that your representative called and was unable to contact me, as I am steadily employed by the State Dept. of Highways.

Could you let me know the current status of the permit? As I am very anxious to receive the certificate and license, I will be glad to cooperate in any way possible.

Sincerely,

R. R. Jones

Dear Mr. Jones:

We acknowledge receipt of the depositions and affidavit of publication in the Priest River Times submitted as proof of completion of works and beneficial use on Permit 32986.

Before a certificate and license of water right can be issued, a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Dear Mr. Jones:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 32986. The proofs are to be made at Stobcock, on the 8th day of July, 19 67, before Claude B. Blanchard Blanchard, Idaho Notary Public.

As of this date, we have mailed the Notice to the Priest River Times, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION

Re: Permit No. 32986

Date:

May 1, 1967

R. R. Jones
Box 142
Spirit Lake, Idaho 83869

Dear Mr. Jones:

Under the terms of your Permit No. 32986 you are required to make proofs of completion of works and application of water to beneficial use on or before **July 15, 1967**

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

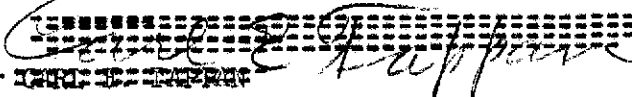

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Very truly yours,

~~State Reclamation Engineer~~

Dear Mr. Jones:

Pursuant to your letter of June 11, 1966, we are forwarding forms for appropriation of the public water. However, please note the forms are for filing on surface water only, as you did not state which type filing you desire, subterranean or surface. Should this be the wrong form, please return them and the other forms will be forwarded.

Very truly yours,
