Dear Mr. Geaudreau:

In response to your letter of February 9, 1970, please be advised that we are unable to accept and process the Notice of Existing Water Permit submitted on September 15, 1969, inasmuch as you propose an amendment to Permit No. 32335, that would change the point of diversion and the place of use.

It will be necessary for you to file an Application for Amendment. We are enclosing an amendment prepared in reference to the Notice of Existing Water Permit you submitted. If the permit on McDonald Creek was filed in error and now needs to be amended, please complete the amendment and submit it with a \$5.00 fee. We will, upon approval of the amendment, process the advertising.

We are also enclosing a beneficial use affidavit and instructions inasmuch as you are required to submit proof of beneficial use of Permit No. G-33269, your ground-water permit, on or before January 21, 1971. If you are not prepared to submit proof at this time under this permit, please, at least, return the authorization for advertising mailed to you on May 5, 1969.

Very truly yours,

Dear Sirs:

The correct spelling is G. Wain Geaudreau.

The diversion point has been changed to the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ Sec. 19 as we could not store enough water at the original diversion point to obtain the needed results. Therefore we have drilled a well at the original point of diversion in the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of sec 19. The subterranean diversion being covered by permit #32699.

We are now in the process of building a storage pond in the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ Sec. 19 to facilitate the use of 1.0 cubic feet per second of water to be used for recreational facilities and to sprinkle irrigate the remaining land not taken care of by the well.

I would like to know if the new laws also apply to the subterranean permit #32699 and if so, please send me the necessary forms to comply with this change. Thank you.

Sincerely yours,

Re: Permit No. G-32699

G. Wain Geaudreau
Blanchard,
Idaho

Dear Mr. Geaudreau:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
