State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation in the
Southeast Quarter of Section 16 and is used on about
6 acres of land. The land is cultivated and has
increased production by about 3 times.

32026

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Does not apply.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land reclaimed was dry land and 19 cu ft of water is required for profitable cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen it once this year and several times in the past few years

Dear Mr. & Mrs. Cramer:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. 32026. The proofs are to be made at 1:00 o'clock P.M., on the 20th day of August, 1965, before C. W. Speelman, 113 Cedar St., Notary Public.

As of this date, we have mailed the Notice to the Sandpoint News Bulletin Sandpoint, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

Dear Mr. Cramer:

Returned herewith is your notice of proof for the above numbered permit.

In item No. 5 you list the $W\frac{1}{2}$ of the $SE\frac{1}{4}$ and the permit only lists the $SW\frac{1}{4}SE\frac{1}{4}$. If you have added additional ground we require an amendment. The forms are enclosed, and the fee for recording is \$1.00.

Please make the necessary amendment and/or correction and return promptly.

DEPARTMENT OF RECLAMATION

Re: Permit No. 32026

Date: June 1, 1965

E. W. & Nellie E. Cramer
Sandpoint, Idaho

Dear Mr. & Mrs. Cramer:

Under the terms of your Permit No. 32026 you are required to make proofs of completion of works and application of water to beneficial use on or before **Aug. 21, 1965**

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Very truly yours,

Carl E. Tappan
