Re: Permit No. 29643

Ray Mason, Jr.
Blanchard, Idaho

Dear Mr. Mason:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. 29643 shows the dam and pipe line are ~~25~~ capable of conveying 18 miner's inches, or 0.36 c.f.s. of water for livestock, domestic use and irrigation of 17 acres.

Upon receipt of the statutory fees of \$ 2.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the License and Certificate of Water Right, confirming the right with priority of April 10, 1961 to the use of 0.36 second feet of surface water with the point of diversion in the NE¹/₄ NW¹/₄, Sec. 6, T. 54 N., R. 5 W., B.M. from spring fed unnamed creek for livestock, domestic use and irrigation of 17 acres in the NW¹/₄ NW¹/₄, Sec. 6, T. 54 N., R. 5 W., B.M.

Our record of the permit shows that the land to be irrigated is in the NE¹/₄ NE¹/₄, Sec. 6 instead of the NW¹/₄ NW¹/₄, Sec. 6 you are irrigating. Kindly sign the enclosed amendment to the Land list and return it with your permit, and the fees shown above. Your permit will be returned with the License and Certificate of Water Right.

Mr. Ray Mason, Jr.,
Blanchard, Idaho.

Dear Mr. Mason:

This acknowledges the Notice of Proof of ~~Publication of Work~~ and Application of Water to Beneficial Use under Permit No. 29643. The proofs are to be made at 11:00 o'clock A.M., on the 15th day of April, 1963, before Claude Blanchard, Blanchard, Idaho, Notary Public.

As of this date we have mailed the Notice to the Sandpoint News Bulletin ~~Sandpoint, Idaho~~ with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

Re: Permit No. 29643

Date:

Feb. 1, 1963

Ray Mason, Jr.
Blanchard, Idaho

Dear Mr. Mason:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 29643 is due not later than April 28, 1963. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Very truly yours,

GEO. N. CARTER

Re: Application No. 37629

Ray Mason, Jr.

Dear Mr. Mason:

Returned herewith is your application for permit with attached receipt No. 30521 for the \$5.00 filing fee.

Under 3 you show source of water supply as "Unnamed Creek", spring fed", however under 4, location of point of diversion you show the location of the spring, according to the map. From the map, it appears that the point of diversion is from the unnamed stream in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 6, T. 5 $\frac{1}{2}$ N., R. 5 West, B. M. as we show in pencil.

Under 14, you show 20 acres. The amount of water claimed under 2 must be reduced to 0.4 cubic feet per second unless you show under "Remarks" that the soil is gravelly and more than one miner's inch per acre is necessary.

Both maps have been marked with red pencil to show the land to be irrigated. If that is in error, kindly correct to show the correct land.

Kindly correct as necessary and return the application within sixty (60) days.

Dear Sir,

Department of Reclamation

Inclosed is my application for a permit for water rights on a Creek on my property

This Creek I'm filing on has a varying water flow, this time of the year (Spring) it spills quite a large amount of water & flows to a sump on U. S. property, where it sinks into the ground, but later on from about June 20th on it's spill is less & it sinks into the ground long before it reaches the sump.

This Creek starts from a spring area on my property & as I said flows on down into a sump where it sinks on U. S. property, so I am the only one who makes use of it

Thank you

Sincerely

Raymond Macon Jr.
