AMENDMENT TO POINT OF DIVERSION ✓

Permit No. 25969

Comes now J. R. McFarland and represents to the State Reclamation Engineer of the State of Idaho, That he is the owner and holder of permit to appropriate the Public Waters of the State of Idaho, No. 25969. That the point of diversion is described in said Permit as being located: NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 28, T 57 N., R 2 W., B.M. That he now requests that the point of diversion be changed to points located: NE $\frac{1}{4}$ SW $\frac{1}{4}$, and NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 28, T 57 N., R 2 W., B.M. That the reason for desiring to make such change is as follows: The original location of diversion was moved eastward to facilitate pumping and a road and railroad through the property necessitated a second location of diversion. That no one will be injured by such change and such change will be made at permit holders own risk. Signed at Sandpoint, Idaho this ____ day of _____, 1965.

/s/ J. R. McFARLAND

Date of Receipt at Department of Reclamation: August 1, 1966.

APPROVAL OF STATE RECLAMATION ENGINEER

I, R. Keith Higginson, Deputy State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. 25969. This approval constitutes a new permit and is issued as an amendment to the original permit to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

In regard to your letter of February 20, 1970, please find enclosed a copy of the Guide for Idaho Well Drillers. This is the only pamphlet that our Department publishes concerning water measurement. You will find the information concerning definitions and comparisons of unites of water measurement on pages 24 and 25.

The licensing fee for irrigation from groundwater sources is \$5.00 plus \$2.00 for each forty-acre subdivision. Since your land consists of 21 acres which is only one-half of a forty-acre subdivision, the licensing fee was \$6.00.

If you should have any further questions, please feel free to call on me.

Dear Mr. McFarland:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 25969. The proofs are to be made ~~at~~ ~~XXXXXX~~, on the 10th day of January, 19 67, before Maxine Reeves Sandpoint, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Sandpoint News-Bulletin, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION

Dear Sir:

I am enclosing Notice of Publication of Proof of Application of Water to Beneficial Use. I have set a hearing on the matter before Maxine Reeves, a Notary Public, at Sandpoint, for January 10, 1967.

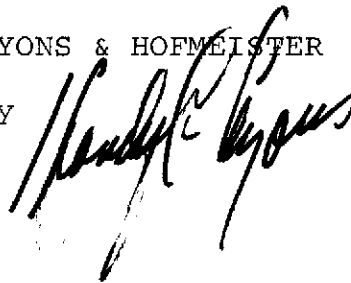

Please notice that I have left blank the date of priority. I believe that the date of priority will be advanced to January 10, 1956. That is to say the proof will be 106 days late. I would appreciate you filling in the correct date.

If in looking over the enclosed forms you find errors or omissions I would appreciate you returning the same to me.

Re: Permit No. 25969

Gentlemen:

We would prefer reducing the water rights to irrigable acres to 21 as originally requested rather than update the priority to present time. The total of the areas being irrigated is as shown on the permit so it is quite likely that in the various exchanges of correspondence we have inadvertently taken the wrong figure.

Can this correction on our application for amendment be handled by your office?

It is noted your land list amendment requests an

It is the policy of our department to reduce the
priority of any permit which, when amended, is expanded.
The priority which you are trying to establish is September 22, 1955, therefore, your priority, if reduced, would be the date of amendment.

Please advise us as to your intent.

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. 25969.

That the point of diversion is described in said Permit as being located:

NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 28, T-57 North, R-2 West, B.M.

That he now requests that the point of diversion be changed to point_s
located: NE $\frac{1}{4}$ SW $\frac{1}{4}$ and NE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 28, Township 57 North, Range 2 West, B.M.

That the reason for desiring to make such change is as follows:

The original location of diversion was moved eastward to facilitate pumping

and a road and railroad through the property necessitated a second location of diversion.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Re: Permit No. **25969**

Date:

July 1, 1966

J. R. McFarland
Box 591
Sandpoint, Idaho

Dear **Mr. McFarland:**

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. **25969** is due not later than **Sept. 26, 1966**. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

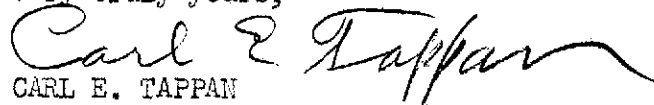

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated -- by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Very truly yours,

CARL E. TAPPAN

Dear Sir:

Under the terms of your permit No. 25959 you are required to complete your diversion works on or before Sept. 26, 1960. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

GEO. N. CARTER

Permit No. 25969

August 17, 1955

Mr. J. R. McFarland
Dover Road
Sandpoint, Idaho

Dear Mr. McFarland:

In reply to your letter of August 15, we enclose a form of application for permit to appropriate the public waters of the State of Idaho, together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 in the application.

Very truly yours,

MARK R. KULP

Dear Mr. McFarland:

Your letter of August 4, 1955, does not indicate whether you wish the form for filing on a surface stream or subterranean water and a different form is required for each.

Upon receipt of your advice as to the source of water in which you are interested we shall be glad to send you the proper form and instructions.

Very truly yours,

MARK R. KULP
