Remarks: Talked with Phil Kyle Bates, Ranch Manager

Mr. Bates stated he has not irrigated past year and very little the year before. He also stated Mr. Brown wants him to irrigate more but he only has single phase power with a phase converter and the stationary gas engine is very expensive to operate - is the reason he has been negligent in irrigating more. They have had plenty of rain the past year.

Dear Mr. Brown:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Priest River Times, all submitted in proof of ~~compliance with~~ and beneficial use on Permit No. 25850.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

## Proof of Application of Water to Beneficial Use

### Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Larry V. and Sheila M. Brown, P. O. Box 630, Coeur d'Alene,  
Idaho. Lumber executive

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Not applicable.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 25850 dated July 25, 1955. Date of ~~priority~~ <sup>permit</sup> is 8-1-55  
November 10, 1956.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Beaver Lake and its tributaries. Points of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$ , NE $\frac{1}{4}$ , SW $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$ , and SE $\frac{1}{4}$ NW $\frac{1}{4}$  of Sec. 16 and SE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , Section 16, T 54N, Range 3, W. B. M., Bonner County, Idaho

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Diversion is by means of pumps and sprinkler systems. The pumps heretofore used were capable of around 500 gallons per minute according to pump rating. We used approximately 70 nozzles at a pressure of 30 to 35 pounds pressure.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for irrigation of 188 acres both cultivated and natural meadow land in the following subdivision, by means of pumps, pipes & sprinkler heads: 188 acres in SW $\frac{1}{4}$ SW $\frac{1}{4}$  Sec. 16; SE $\frac{1}{4}$ NW $\frac{1}{4}$ , SE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , SE $\frac{1}{4}$ SW $\frac{1}{4}$ , SE $\frac{1}{4}$ SW $\frac{1}{4}$ , Sec. 8; NE $\frac{1}{4}$ NE $\frac{1}{4}$  Sec. 17; NE $\frac{1}{4}$ SE $\frac{1}{4}$  Sec. 17; SW $\frac{1}{4}$ NE $\frac{1}{4}$ , NE $\frac{1}{4}$ NW $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$ , NE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SE $\frac{1}{4}$  Section 16, Township 54 North, Range 3 W. B. M., in Bonners County, Idaho

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. \_\_\_\_\_

25850

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not applicable

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. The .666 cubic feet per second allowed.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Not applicable

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. We drew off the maximum amount allowed under the permit in the years 1956 to date by means of pumps and irrigation pipes.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. We have increased the amount of water applied to the lands herein described in 1961 and 1962 using temporarily up to four pumps of about 500 gallons per minute capacity to the lands described and to adjacent lands.

### Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Carroll Comfort - age, legal - residence Rte #1, Athol, Idaho, occupation  
ranch employee.

Ques. 2. Are you acquainted with Larry V. Brown, the holder of Permit No. 25850? How long have you known him and where does he reside?

Ans. I have known him 3 years. He resides at S. 2107 Perry,  
Spokane, Washington

Ques. 3. Have you read or heard read said Permit No. 25850, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water supply is Beaver Lake & tributaries and springs  
in Sections 8 and 17 in Township 54 N., R 54, 3W.B.B. in Bonner County, Idaho.  
Points of diversion accomplished through irrigation pipe & pumps are: in the  
NW $\frac{1}{4}$ SE $\frac{1}{4}$ , NE $\frac{1}{4}$ SW $\frac{1}{4}$ , SW $\frac{1}{4}$ NW $\frac{1}{4}$  and SE $\frac{1}{4}$ NW $\frac{1}{4}$ , Sec 16 & SE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , SE $\frac{1}{4}$ SW $\frac{1}{4}$ , Sec 8,  
Towship 54 North, Range 3 W., R.M. in Bonner County, Idaho.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Works will safely convey .666 second feet of water and I have  
seen that much conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for irrigation of 188 acres both cultivated and natural  
meadow land in the following subdivision, by means of pumps, pipes &  
sprinkler heads: 188 acres in SW $\frac{1}{4}$ SW $\frac{1}{4}$  Sec 9; SW $\frac{1}{4}$ NW $\frac{1}{4}$ , NE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , SW $\frac{1}{4}$ SW $\frac{1}{4}$   
SE $\frac{1}{4}$ NW $\frac{1}{4}$ , SE $\frac{1}{4}$ SE $\frac{1}{4}$ , Sec 8; NE $\frac{1}{4}$ NE $\frac{1}{4}$  Sec 17; NE $\frac{1}{4}$ SE $\frac{1}{4}$  Sec 7; SW $\frac{1}{4}$ NE $\frac{1}{4}$ , NE $\frac{1}{4}$ NW $\frac{1}{4}$ , SW $\frac{1}{4}$ NW $\frac{1}{4}$ ,  
SE $\frac{1}{4}$ NW $\frac{1}{4}$ , NE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SE $\frac{1}{4}$  Section 16, Township 54 N., R. 3 W., B.M.  
in Bonner County, Idaho.

25850

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Dry meadow land for most part has been brought under profitable cultivation.

In my estimation, over a year's time this land will require a total of one acre foot per acre per year.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No interest owned by me

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. The maximum amount allowed under the permit was drawn off by the use of pumps and a conventional sprinkling system and applied to the land at intervals during the past three years.

## NOTICE OF PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 9:00 a.m. on the 16th day of November, 1962, at Sandpoint, Idaho, County of Bonner, State of Idaho, before Leonette C. Pedersen, Notary Public at Sandpoint, Idaho, proof will be submitted of the application to beneficial use of .666 cubic feet per second of the waters of Beaver Lake and tributaries to Beaver Lake, all tributaries to Kelso Lake, also springs, in Sections 17 and 8 in Township 54, North Range 3 W. B. M. in Bonner County, Idaho in accordance with the terms and conditions of Permit No. 25850 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and post office address of the person or corporation holding said permit are: L. V. and Sheila M. Brown, P. O. Box 630, Coeur d'Alene, Idaho.

The use to which said water has been applied is irrigation purposes.

The amount applied to beneficial use is .666 cubic feet per second of water.

The place where said water is used: 188 acres in SW $\frac{1}{4}$ SW $\frac{1}{4}$  Section 9; SW $\frac{1}{4}$ NW $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$ , NE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , SW $\frac{1}{4}$ SW $\frac{1}{4}$ , SE $\frac{1}{4}$ SE $\frac{1}{4}$ , Section 8; NE $\frac{1}{4}$ NE $\frac{1}{4}$  Section 17; NE $\frac{1}{4}$ SE $\frac{1}{4}$  Section 7; SW $\frac{1}{4}$ NE $\frac{1}{4}$ , NE $\frac{1}{4}$ NW $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$ , NE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SE $\frac{1}{4}$  Section 16, Township 54 North, Range 3 W. B. M. in Bonner County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is irrigation pipe.

The right to take water from such works is based upon Permit No. 25850.

The source of supply from which such water is diverted is Beaver Lake and tributaries to Beaver Lake, all tributaries to Kelso Lake, also springs and Sec. 17 and 18 in Township 54 North Range 3 W. B. M. in Bonner County, Idaho.

Points of diversion are in the following described areas all in Bonner County, Idaho: NW $\frac{1}{4}$ SE $\frac{1}{4}$ , NE $\frac{1}{4}$ SW $\frac{1}{4}$ , SW $\frac{1}{4}$ NW $\frac{1}{4}$  and SE $\frac{1}{4}$ NW $\frac{1}{4}$ , Section 16 and SE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , Section 8, Township 54 North, Range 3 W. Attention: Chester Chastek:

Gentlemen:

This acknowledges the Notice of Proof of ~~Completion of Work~~ and Application of Water to Beneficial Use under Permit No. 25850, in the name of Leonette C. L. V. & Sheila M. Brown. Final Proof is to be made before you ~~Mr. Pederson~~ as Notary on the 16th day of November, 19 62, at 9:00 o'clock A.M., at Sandpoint, Idaho.

As of this date we have mailed the Notice to the Priest River Times, Priest River, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Larry V. and Sheila M. Brown

Davis, Trezona, Chastek & Lorenz

Suite 302 Fidelity Building  
Spokane 1, Washington

Attention: Mr. Chester Chastek

Gentlemen:

Received your letter of the 17th regarding subject permit. The Certificate of Completion of Works states that ".....the holders of Permit No. 25850, (which was) issued upon Application No. 33717 bearing date of priority...., (and) authorizing the diversion of 3.76 second feet of waters of ... have fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion.....; that the said works are adequate for diverting and conveying to the place of intended use (300 gpm) .666 second feet of the waters of ....."

The first part explains the historical aspect of the application of an amount of water (3.76 c.f.s.) for the irrigation of 138 acres of land at the statutory rate of one Idaho miner's inch per irrigated acre. Since, in Idaho, 50 miner's inches represents one cubic foot per second (c.f.s.) the maximum amount of water which could be filed on would be 3.76 c.f.s., as indicated above.

However, it appears that the Completion of Works states that the works were only adequate of conveying (300 gpm) .666 c.f.s. to the described land which, therefore, is the amount of water which must be dealt with when submitting proofs for beneficial use, no matter what the original amount applied for was.

25850

5

Chester Chastek - continued - page 2

The item of Form No. 10, on the eleventh line, is the holder's statement of amount of water applied to beneficial use, be it the same as, or over, or under 0.666 c.f.s.

We trust that this rather lengthy explanation suffices.

Re: Permit No. 25850

Gentlemen:

We have been handed the papers which the above-named applicant has from time to time received from you regarding the above permit. We were not involved in the initial application forms and therefore are at somewhat of a disadvantage in the matter. We are advised by our clients that they have now completed all of the necessary works and have in addition thereto, put the water to beneficial use.

In filling out the forms which you forwarded; namely, forms 10 and 11, we are at a loss to determine whether the Notice For Publication should include the figure of 3.76 second feet of water or should include the (300 gpm) or .666 second feet of water. Both of these figures are mentioned in the Certificate of Completion of Works you have heretofore forwarded our clients and we did want to make the proper kind of proof.

We are advised by our clients that they have put to beneficial use all of the water which they were granted permission to withdraw.

Before we forward the papers to you will you please advise us in this regard.

Sincerely yours,

DAVIS, TREZONA, CHASTEK & LORENZ

RE: Permit No. 25850

Date June 1, 1961

Larry V. & Sheila M. Brown  
P. O. Box 630  
Coeur d'Alene, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 25850 is due not later than August 1, 1961. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Very truly yours,

RE: Permit No. 25850

Boise, Idaho June 1, 1958

Larry V & Sheila M. Brown

Coeur d'Alene, Idaho

Dear Sir:-

Under the terms of your permit No. 25850 you are required to complete your diversion works on or before August 1, 1958. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Dear Mr. Kulp:

I am enclosing herewith the application for extension of time in connection with Permit No. 25850 signed by L. V. Brown. This is with reference to our previous correspondence in connection with this matter.

If you find that this application is in proper order, will you please grant the requested two-year extension.

This applicant has expended over \$4500.00 to date in connection with this and his principal delay on spending further sums is getting further power lines into the area. Until such time as those lines are obtained, there is really no need for the purchase of the other materials requisite to operate the system. He is working in this connection with the Washington Water Power Company which is the distributing agency in this area.

Thanks for your attention and cooperation.

completed by August 1, 1956

That he has heretofore performed the following work described under said permit:

Two collecting ponds in Section 8, Twp. 54 North, Range 3

W.B.M. together with pumps and pipes

costing \$4558.20

That he is unable to complete the remainder of the work within the required time, for the following reasons, to-wit:

Need more power lines to pumping locations and upon acquiring the  
necessary power -- more pumps, motors and pipe.

WHEREFORE, He asks that the ~~Commissioner of Reclamation~~ State Reclamation Engineer extend the time for the completion of works under said permit to August 1, 1958

ATTENTION: Mr. Wm. S. Hawkins

Dear Mr. Hawkins:

In reply to your letter of August 1, 1956, relative to proofs in connection with Permit No. 25850 in the name of Larry V. Brown and Shelia M. Brown.

We note what you have to say in regard to the work accomplished by the Brown's as set out under the terms of the Permit.

We would suggest that you fill out the application for Extension of Time for Completion of Works on the form enclosed herewith. We would gladly extend the time up to two years upon receipt of said application properly filled out and signed by the Brown's which should give them ample time to complete their works according to the terms of the Permit.

Very truly yours,

Dear Mr. Kulp:

There has just been brought to my office on your "Form No. 5" your instructions sent under date of June 1, 1956, to Mr. and Mrs. Larry V. Brown, Box 630, Coeur d'Alene, Idaho.

I have gone over this matter briefly with the man personally in charge of the premises and who has done the work and I find from him that they have done over \$4,000.00 worth of improvements on the proposed water system out of the estimated cost of \$5,731.00. This is for the improvement of the springs for the installation of a sprinkler system out of the waters of Beaver Lake, tributaries to Beaver Lake and tributaries to Kelso Lake situate in Sections 16 and 8, Township 54 North, Range 3, W.B.M., Bonner County, Idaho.

The fact is that the work has not been entirely completed because of an extremely dry summer that impaired some of the development work, however most of the work has been completed in Section 8 and the work is under way in Section 16.

According to your notice, they have ten days in which to show substantial compliance. I am wondering if the proof of completion of works by the affidavit of Mr. Brown would be satisfactory if it would show the extent to which the work has gone although it has not been entirely completed.

No one else has evidenced any interest in the matter. It is only that Mr. Brown wants to perfect his water right for himself and his successors in interest.

Mr. Mark R. Kulp  
August 1, 1956  
Page 2

These locations are well within the boundaries of the land that Mr. Brown either owns or is purchasing under contract to purchase.

These improvements constitute the digging of reservoirs at the spring sites so as to make available an area from which water may be pumped. Sprinkler systems have been installed in certain sections of it but matters pretty much beyond the control of the holder of the permit have deferred some of the improvement work.

It was an oversight on their part that the notice was not brought to my attention until today, therefore, our time is a little bit limited but the purpose of this letter is to advise you and your office that we are doing, and have been doing, everything we can to try to preserve and perfect this water permit.

We will be glad to show by the affidavit a substantial compliance and forward the fee of \$5.00 but we are likewise being just as honest in our statement that the full \$5,700.00 worth of work will not have been completed by August 10th. The water is all being used for the beneficial purposes intended, to-wit: Irrigation.

Please give me your suggestions.

Respectfully,

WSH:mm

Dear Sir:-

Under the terms of your permit No. 25850 you are required to complete your diversion works on or before August 1, 1956. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK E. KULP

Dear Mr. Hawkins:

We return Permit No. 25850 enclosed in your letter of December 20 and have corrected the affidavit to describe the SE<sup>1</sup><sub>4</sub> of Section 7 instead of the S<sup>1</sup><sub>4</sub> of Section 7.

This is clearly a typographical error in the original permit as it is recorded correctly in our copy.

Re: Water Permit No. 25850

Dear Mr. Kulp:

I acknowledge the return of the original water permit above numbered to which you have affixed by incorporation the affidavit of L. V. Brown. However, in the description set forth in the affidavit which you have typed onto the water permit you have set forth the SW $\frac{1}{4}$  of Section 7. This should be the SE $\frac{1}{4}$  of Section 7.

The carbon copy of the original affidavit that I have is correct. It would appear that there had been an error made in the transcription. Would you please check your records in that connection, make the necessary correction and return the enclosed water permit to me.

If there are any questions in connection with it, please advise.

With kind regards and best wishes for the season.

Re: Water permit No. 25850 - L. V. Brown

Pursuant to our conversation when I was in Boise about three weeks ago, I have obtained the information and prepared the enclosed affidavit.

Will this meet the requirements of your office in connection with that permit? If so, I will, upon advice from you, have the original executed and mail it to you promptly. If it does not suffice, please give me your suggestions so that I can incorporate them in the affidavit to be filed with you.

With kind personal regards.

**NOTICE OF PROOF OF  
APPLICATION WATER  
TO BENEFICIAL USE**

Notice is hereby given that at 9:00 a.m. on the 16th day of November, 1962, at Sandpoint, Idaho, County of Bonner, State of Idaho, before Leonette C. Pedersen, Notary Public at Sandpoint, Idaho, proof will be submitted of the application to beneficial use of .666 cubic feet per second of the waters of Beaver Lake and tributaries to Beaver Lake, all tributaries to Kelso Lake, also springs, in Sections 17 and 8 in Township 54, North Range 3 W. B. M. in Bonner County, Idaho in accordance with the terms and conditions of Permit No. 25850 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and post office address of the person or corporation holding said permit are: L. V. and Sheila M. Brown, P. O. Box 630, Coeur d'Alene, Idaho.

The use to which said water has been applied is irrigation purposes.

The amount applied to beneficial use is .666 cubic feet per second of water.

The place where said water is used: 188 acres in SW $\frac{1}{4}$ SW $\frac{1}{4}$  Section 9; SW $\frac{1}{4}$ NW $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$ , NE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , SW $\frac{1}{4}$ SW $\frac{1}{4}$ , SE $\frac{1}{4}$ SE $\frac{1}{4}$ , Section 8; NE $\frac{1}{4}$ NE $\frac{1}{4}$  Section 17; NE $\frac{1}{4}$ SE $\frac{1}{4}$  Section 7; SW $\frac{1}{4}$ NE $\frac{1}{4}$ , NE $\frac{1}{4}$ NW $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ , SE $\frac{1}{4}$ NW $\frac{1}{4}$ , NE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SE $\frac{1}{4}$  Section 16, Township 54 North, Range 3 W. B. M. in Bonner County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is irrigation pipe.

The right to take water from such works is based upon Permit No. 25850.

The source of supply from which such water is diverted is Beaver Lake and tributaries to Beaver Lake, all tributaries to Kelso Lake, also springs and Sec. 17 and 18 in Township 54 North Range 3 W. B. M. in Bonner County, Idaho.

Points of diversion are in the following described areas all in Bonner County, Idaho: NW $\frac{1}{4}$ SE $\frac{1}{4}$ , NE $\frac{1}{4}$ SW $\frac{1}{4}$ , SW $\frac{1}{4}$ NW $\frac{1}{4}$  and SE $\frac{1}{4}$ NW $\frac{1}{4}$ , Section 16 and SE $\frac{1}{4}$ SW $\frac{1}{4}$ , NW $\frac{1}{4}$ SW $\frac{1}{4}$ , Section 8, Township 54 North, Range 3 W.
