RE: Permit G-24357

L. A. Cook
Route #1, Box 30
Athol, Idaho 83801

Dear Mr. Cook:

We are in receipt of your check for \$9.00 to pay for the license of the above numbered permit. In checking the old file prior to issuance of the license we find that in 1956 we tried to get an amendment signed and returned. This amendment was never received. Enclosed you will find a completed amendment to change the permit to agree with the actual point of diversion. If you will sign and return it at an early date we can proceed with the licensing. Also, the affidavit of publication from the Sandpoint News Bulletin has not been received. If you would take your copy of the advertisement to the paper I'm sure they would give you a copy of the affidavit to bring to us. Upon receipt of the signed amendment and the affidavit we will then issue the license.

*Error
only you
can sign.*

I'm sorry I didn't notice these things when I wrote you on the 21st. I realize this is an inconvenience.

Very truly yours,

M. RUSSELL BOSCH
Office Manager

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10
A. M. on the 9th day of March, 1956,
at Sandpoint, County of Bonner, State
of Idaho, before Raymond T. Greene
Jr., Notary Public, proof will be sub-
mitted of the completion of works for
the diversion of 2.4 cubic feet per sec-
ond of the waters of subterranean (well)
with point of diversion in the SW 1/4
NE 1/4 Section 30, Township 54 North,
Range 2 West, B. M. and of the applica-
tion to beneficial use of said water in
accordance with the terms and condi-
tions of Permit No. G-24357, heretofore
issued by the Department of Reclama-
tion of the State of Idaho.

1. The name and postoffice address
of the person or corporation holding
said permit are Charles L. Taylor, Rt.
1, Box 302, Beaver Creek, Oregon.

2. Said works of diversion will be
fully completed on the date set for
such completion, and the amount of
water which said works are capable
of conveying to the place of use, in
accordance with the plans accompany-
ing the application for such permit, is
2.4 cubic feet per second.

3. The use to which said water has
been applied is irrigation purposes, and
the amount applied to beneficial use
is 2.4 cubic feet per second.

4. The place where said water is
used is W 1/4 NE 1/4 Sec. 30; SW 1/4 SE 1/4
Sec. 18, Township 54 North, Range 2
West, B. M.

5. The date of priority which said
user is prepared to establish is Febru-
ary 5, 1954.

MARK R. KULP,
State Reclamation Engineer

NOTICE OF APPLICATION
FOR TRANSFER OF
WATER RIGHT

On April 8, 1983, David H. Vig filed with the Department of Water Resources Application for Transfer of Water Right No. 96-2228. The original Water Right is for 0.18 cfs of water from a groundwater source used for irrigation and domestic purposes with one point of diversion in the SWNE Sec. 30 T54N R2W, B.M., Bonner County, with a place of use in the NWNE and the SWNE Sec. 30 T54N R2W, B.M., Bonner County for 30 acres. The date of priority is February 7, 1954. The applicant now wishes to add another point of diversion in the SWNE Sec. 30 T54N R2W, B.M., Bonner County.

Protests against the granting of this transfer must be filed with the Director of the Dept. of Water Resources, 4055 Government Way, Coeur d'Alene, ID 83814 on or before May 9, 1983.

APPLICATION FOR AMENDMENT ✓

Comes now L. A. Cook and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-24357, and requests that the permit be changed as follows:

1. Place of use or land to be irrigated: $W\frac{1}{2}$ of $NE\frac{1}{4}$ of Section 30
2. Point of diversion: $SW\frac{1}{4}NE\frac{1}{4}$, Section 30, T 54 N., R 2 W., B.M.
3. Period and nature of use:

For irrigation and domestic purposes from year to year (Both dates incl.)

Signed this 12th day of September, 1967.

/s/ LESTER A. COOK

Date of receipt at office of Department of Reclamation: 9-18-67.

ACTION OF STATE RECLAMATION ENGINEER

I, Jack A. Barnett, Deputy State Reclamation Engineer of the State of Idaho, hereby approve the above application for amendment for Permit G-24357.

Witness my hand this 19th day of October, 1967.

NOTICE OF APPLICATION FOR TRANSFER OF WATER RIGHT

On April 8, 1983, David H. Vig filed with the Department of Water Resources Application for Transfer of Water Right No. 96-2228. The original Water Right is for 0.18 cfs of water from a groundwater source used for irrigation and domestic purposes with one point of diversion in the SWNE Sec. 30 T54N R2W, B.M., Bonner County, with a place of use in the NWNE and the SWNE Sec. 30 T54N R2W, B.M., Bonner County, for 30 acres. The date of priority is February 7, 1954. The applicant now wishes to add another point of diversion in the SWNE Sec. 30 T54N R2W, B.M., Bonner County.

Ptorests against the granting of this transfer must be filed with the Director of the Dept. of Water Resources, 4055 Government Way, Coeur d'Alene, Id. 83814 on or before May 9, 1983.

KEN DUNN, Dir.

Enclosure: Certificate & License

824357

Certificate of Completion of Works

TO ALL WHOM IT MAY CONCERN:

This is to certify that CHARLES L. TAYLOR - Assignees - L. A. & BETTY M. COOK
 of Athol, County of Bonner, and State of
 Idaho, the holder of Permit No. G-24357, issued upon
 Application No. G-32145 bearing date of priority of February 7, 1954, (late proof), authorizing the
 diversion of 2.4 second feet of waters of subterranean source

County of Bonner, State of Idaho, for irrigation and domestic
 purposes, have fully complied with the provisions of the laws of the State of Idaho
 relating to the proof of completion of the works of diversion set out and described in said
 Permit; that said works are adequate for diverting and conveying to the place of intended
 use 0.18 second feet of the waters of subterranean source;

that the point of diversion of said waters is in SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 30, Township 54
 North, Range 2 West, Boise Meridian,

and that the lands proposed to be irrigated by the use or place of use of said water are
 described as follows, to-wit: W $\frac{1}{2}$ NE $\frac{1}{4}$, Section 30, Township 54 North, Range 2 West,
 Boise Meridian.

Proof of Completion of Works made: March 9, 1956.

Re: Permit G-24357

Lester A. Cook
Triangle C. Ranch
Route 1, Box 30
Athol, Idaho 83801

Dear Mr. Cook:

We are in receipt of your letter of October 5, 1967, personal check in the amount of \$5.00 and application for amendment.

Please be advised, the Department of Reclamation will promptly process your application for amendment and advise you as to the action taken by the department. Inasmuch as you are questioning the intent of the department to license 30 acres of ground in the $W\frac{1}{2}NE\frac{1}{4}$, Sec. 30, you are therefore probably not aware that the field examination under this permit was conducted on April 20, 1956. The findings are as follows: 10 acres in the $NW\frac{1}{4}NE\frac{1}{4}$, 20 acres in $SW\frac{1}{4}NE\frac{1}{4}$, Sec. 30; point of diversion be located in the $SW\frac{1}{4}NE\frac{1}{4}$. Quantity of water diverted is 9 miner's inches for 30 acres of ground. The license fee of \$9.00 was derived at the rate of \$5.00 for the completion of works examination and \$2.00 for each 40-acre subdivision involved. Therefore, once the amendment is approved, the department will issue a license for 30 acres of ground and 9 miner's inches of water to be used in the $W\frac{1}{2}NE\frac{1}{4}$, Sec. 30, T. 54 N, R. 2 W, B.M.

Please contact us if you have any further questions.

Very truly yours,

Donald W. McEldowney
Water Rights Clerk

Re: Permit G-24357
Charles L. Taylor

State Reclamation Engineer
Department of Reclamation
State of Idaho
107 State House
Boise, Idaho 83701

Attention: Mr. Donald W. McElDowney
Water Rights Clerk

Dear Sir:

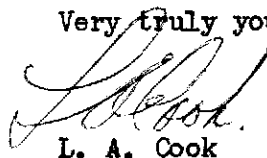

In reference to Mr. McElDowney's letter of October 2, I made a mistake on the Application for Amendment furnished by your office in stating that it was the $W\frac{1}{2}NW\frac{1}{4}$, Section 30. It is the $W\frac{1}{2}$, $NE\frac{1}{4}$, Section 30. I am enclosing a copy of the tax receipt as proof.

I am also enclosing a photostatic copy of the 9-dollar check requested by Mr. M. Russell Bosch, Office Manager, in his letter of August 21 and a check for \$5 as requested in the October 2 letter.

I do not understand the restriction to 30 acres inasmuch as the original document published shows the $W\frac{1}{2}NE\frac{1}{4}$ Section 30 and a portion of Section 19. However, the water will now only be used on the $W\frac{1}{2}NE\frac{1}{4}$, and the existing pump on this well will not pump in excess of the 2.4 c.f.s. as noted in the original document.

Hoping this will clear up the matter, I remain

Very truly yours,

L. A. Cook

L. A. Cook
Route 1, Box 30
Athol, Idaho 83801

Dear Mr. Cook:

We are returning your application for amendment on the above referenced permit.

Your application is not acceptable until submitted with the required \$5.00 application fee. It is also noted that you have proposed a change in the lands irrigated under permit, to the W₂NW₄, Sec. 30 to include 80 acres. At present, the Department of Reclamation is prepared to issue the license for 20 acres in SE₄NE₄ and 10 acres in NW₄NE₄, Sec. 30, T. 54 N, R. 2 W, B.M. If you do require a change in the lands irrigated to the W₂NW₄, we will require not only the amendment but the permit will have to be readvertised and a new field examination made prior to licensing.

Please advise this department by return mail as to your intent in the matter.

Very truly yours,

Donald W. McEldowney
Water Rights Clerk

L. A. Cook
Route #1, Box 30
Athol, Idaho 83801

Dear Mr. Cook:

We are in receipt of your check for \$9.00 to pay for the license of the above numbered permit. In checking the old file prior to issuance of the license we find that in 1956 we tried to get an amendment signed and returned. This amendment was never received. Enclosed you will find a completed amendment to change the permit to agree with the actual point of diversion. If you will sign and return it at an early date we can proceed with the licensing. Also, the affidavit of publication from the Sandpoint News Bulletin has not been received. If you would take your copy of the advertisement to the paper I'm sure they would give you a copy of the affidavit to bring to us. Upon receipt of the signed amendment and the affidavit we will then issue the license.

I'm sorry I didn't notice these things when I wrote you on the 21st. I realize this is an inconvenience.

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10
A. M., on the 9th day of March, 1956,
at Sandpoint, County of Bonner, State
of Idaho, before Raymond T. Greene
Jr., Notary Public, proof will be sub-
mitted of the completion of works for
the diversion of 2.4 cubic feet per sec-
ond of the waters of subterranean water
with point of diversion in the SW
NE Section 36, Township 54 North,
Range 2 West, B. M. and of the applica-
tion to beneficial use of said water in
accordance with the terms and condi-
tions of Permit No. G-24357, heretofore
issued by the Department of Reclama-
tion of the State of Idaho.

1. The name and postoffice address
of the person or corporation holding
said permit are Charles L. Taylor, Rt.
1, Box 302, Beaver Creek, Oregon.

2. Said works of diversion will be
fully completed on the date set for
such completion, and the amount of
water which said works are capable
of conveying to the place of use, in
accordance with the plans accompany-
ing the application for such permit, is
2.4 cubic feet per second.

3. The use to which said water has
been applied is irrigation purposes, and
the amount applied to beneficial use
is 2.4 cubic feet per second.

4. The place where said water is
used is W1/2NE1/4, Sec. 36, SW1/4SE1/4
Sec. 36, Township 54 North, Range 2
West, B. M.

5. The date of priority which said
user is prepared to establish is Febru-
ary 5, 1954.

Subject: Permit No. G-24357

State Reclamation Engineer
Department of Reclamation
State of Idaho
Boise, Idaho

Dear Sir:

I am enclosing a copy of a legal notice which I just recently became aware of which was taken from a Sandpoint, Idaho, newspaper. I am also enclosing a copy of the deed to show legal ownership of the property which is described in the clipping.

This well has been in operation continuously both for irrigation and for domestic use since its installation. I would like to know if it is necessary to renew this permit or have it transferred to my name. If any charges are involved, please notify me.

Since the permit was issued, Mr. and Mrs. Taylor have divorced and Mrs. Taylor is guardian of the estate for the two children, Charles and Florence, which holds the mortgage on the property. I believe that Mr. Taylor still resides in Beaverbrook, Oregon. Mrs. Weatherly sold the property to Mrs. Jewell, and I purchased the property from Mrs. Jewell with a portion of the mortgage still outstanding.

Please let me know what action should be taken.

Very truly yours,

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 9th day of March, 1938, at Sandpoint, County of Bonner, State of Idaho, before Raymond T. Greene Jr., Notary Public, proof will be submitted of the completion of works for the diversion of 2.4 cubic feet per second of the waters of subterranean water, point of diversion in the SW 1/4 Sec. 36, Township 34 North, Range 2 West, B. M. and of the application to beneficial use of said water in accordance with the terms and conditions of Permit No. G-24337 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Charles C. Taylor, Rt. 1, Box 302, Beaver Creek, Oregon.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit is 2.4 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 2.4 cubic feet per second.

4. The place where said water is used is W1/4 Sec. 36, SW 1/4 Sec. 36, Township 34 North, Range 2 West, B. M.

5. The date of priority which said user is prepared to establish is February 5, 1934.

Re: Permit No. G-24357
Charles L. Taylor

Mrs. Esther L. Weatherly
14/18 Best
Trentwood, Washington

Dear Mrs. Weatherly:

This is reply to your June 30, 1958 letter relative to Permit No. G-24357.

To place the permit in your name it is necessary that it be assigned to you by Charles L. Taylor, owner of said permit. However, if in transfer of deeds the water permit was included in said deeds and the land which you now own was purchased from June Schrock, it will be necessary that the permit be assigned to Mrs. June Schrock by Charles L. Taylor and then assigned to you by Mrs. June Schrock.

We enclose forms for assignment. The fee for recording an assignment is 50¢ an assignment.

The water right under this permit is not a confirmed right and will not be until the Certificate of Completion of Works and License and Certificate of Water Right is issued.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-24357

Mr. Charles L. Taylor
Route #1, Box 302
Beavercreek, Oregon

Dear Mr. Taylor:

In regard to Water Permit No. G-24357 we have on file a note from you received October 19, 1955, in which you say: "I have sold the place on contract but it will remain in my name and will for the next 10 years. Would it not be best to the water rights in my name until place is paid for. /s/ Charles L. Taylor"

At later date, Mrs. June Schrock of Route #1, Athol, Idaho, by power of attorney executed the deposition of holder in the matter of proof of completion of works and beneficial use under Permit No. G-24357, together with depositions of two witnesses. Our field engineer's inspection was made on April 20, 1956 and a letter to Mrs. June Schrock dated April 26, 1956, informed her that he found the point of diversion to be in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 30, Township 54 North, Range 2 West, B.M., whereas, it was described on record as being in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 30, and that it was necessary that the permit be amended, also, that upon receipt of the amendment and the statutory fees of \$5.00 for the Certificate of Completion of Works and \$4.00 for the License and Certificate of Water Right, same would be issued.

This letter was never acknowledged and on May 21, 1958, a letter was written to her with which we enclosed copy of the April 26, 1956 letter, and ask that she take immediate steps in this matter.

On July 7, 1958, we received a letter from Esther L. Weatherly of N. 4718 Best, Trentwood, Washington, stating that Mrs. June Schrock had sent her the papers, mentioned above, and that the property was now in her name. She ask if she should sign the required amendment and remit the necessary fees for the Certificate of Completion of Works and the License.

We have answered her letter and herewith enclose copy of letter.

Very truly yours,

EPR:nls

Mrs. June Schrock
Route # 1
Athol, Idaho

Dear Mrs. Schrock:

The attached letter was written to you as of April 26, 1956, in regard to the above captioned permit.

This is a reminder that upon receipt of the statutory fee of \$5.00 for Completion of Works and \$4.00 for license, a Certificate of Completion of Works and license can be issued for .18 cubic foot per second on the above stated permit.

If you are interested in receiving a license for a water right in connection with the above stated permit, we wish that you would take immediate steps to take care of same.

Very truly yours,

Mr. Raymond T. Greene, Jr.
Attorney At Law
Sandpoint, Idaho

Dear Mr. Greene:

We acknowledge receipt of the depositions of Mrs. June Schrock acting in behalf of the holder of the Permit, Mr. Chas. L. Taylor, and also the two witnesses, but to date we have not received the affidavit of publication from The Sandpoint News Bulletin. If you have not already received it will you please get it and forward to us as we need it to complete this file.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Schrock at the time to he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Permit No. 9-24357

Proof of Application of Water to Beneficial Use
_____ and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Mrs. June Schrock; Rt. 1, Athol, Idaho; housewife; Rt. 1, Athol, Idaho.

Appearing for Charles L. Taylor by power of attorney attached hereto.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. -----

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. G24357; dated 15 August 1953. Date of priority ⁷⁻¹³⁻⁵⁴ 5 February 1954.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Drilled well in Northwest Quarter of Northeast Quarter of Section 30,
Township 54 North, Range 2, West B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Drilled well, 6" steel casing, 125 ft. deep, depth to water is 40 feet.

Pump is 5 H. P. Discharge of pump is 3 inches, manufacturer's specifications.

Sprinkler -- 6 nozzles, standard pressure of 40 lbs.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, domestic & stock, for household and for cattle horses and hogs.

West Half of Northeast Quarter of Sec. 30, Twp. 54N, R2, W.B.M., 40 acres, cultivated land, irrigated during past summer. Southwest Quarter of Southeast Quarter of Section 19, Twp. 54N, R2, W.B.M., pasture and timber land, no irrigation as yet as more work is necessary to economically till this subdivision.

Higher and greater yield of crops and pasture.

924357

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. -----

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. -----

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. -----

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. During growing season of 1954 to present for irrigation. For domestic and stock at all times since fall 1953. Through sprinkler system and dwelling pipe system. Amount of full capacity to cover cultivated fields alternately through sprinkler system to 80 gallons per minute.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign) Mrs June Schrock

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Sandpoint, County of Bonner,

State of Idaho, on this 9th day of March, A. D. 1956,

Permit No. G-24357

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. John H. Mortensen; 45; Rt. 1, Sandpoint, Idaho; farmer;
Route 1, Sandpoint, Idaho.

Ques. 2. Are you acquainted with Charles L. Taylor, the holder of Permit No. G24357? How long have you known him and where does he reside?

Ans. Yes. I have known him 12 years. He now resides at Route 1, Box 302,
Beavercreek, Oregon.

Ques. 3. Have you read or heard read said Permit No. G 24357 - Yes, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Drilled well which is located on Northwest Quarter of Northeast Quarter
of Section 30, Township 54 North, Range 2, W.B.M. Works consist of
domestic cistern and pipes and irrigation well, pump and sprinkler
system out to fields.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 80 gallons per minute. Standard irrigation pipes to capacity, with pump.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 80 gallons per minute. Standard irrigation pipes to capacity, with pump.

G 24357

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for irrigation in West Half of Northeast Quarter of Sec. 30,
Township 54 North, Range 2, W.B.M. with approximately 40 acres irrigated.
Land is cultivated. Improvement through greater yield of crops and
pasture for livestock.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. No

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Previous cultivated and pasture land has been made more economically
sound by more and better crops. The present system is sufficient.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been acquainted with the property and Mr. Taylor for 12 years
and interested in the sprinkler system. I have seen the works and water
being used since and during 1954 and 1955 growing seasons, and of course
for domestic purposes during the entire year.

(Signed) John H. Mortensen

Permit No. G-24357

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. C. O. Cato, 62, Route 1, Athol, Idaho, Farmer,
Route 1, Athol, Idaho.

Ques. 2. Are you acquainted with Charles L. Taylor, the holder of Permit No. G24357? How long have you known him and where does he reside?

Ans. 11 years. He has a farm on which the well in question is located but
Mr. Taylor now actually resides and lives at Route 1, Box 302,
Beavercreek, Oregon.

Ques. 3. Have you read or heard read said Permit No. G24357 - Yes, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water supply is drilled well on Northwest Quarter of Northeast
Quarter of Section 30, Twp. 54N, R2, W.B.M. There is domestic and stock cistern and
pipes laid to house and barnyard. There is sprinkler system for irrigation sufficient
to run approximately one-half mile and has presently 6 sprinkler heads in use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Standard irrigation pipe to capacity, with pump. 80 gallons per minute.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 80 gals. per minute. Standard irrigation pipes to capacity, with pump.

J 24357

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for irrigation in West Half of Northeast Quarter of Sec. 30, Twp. 54N, R2, W.B.M. with approximately 40 acres irrigated. Land is cultivated.
~~Improvement through greater yield of crops and pasture for livestock.~~

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. No

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Previous cultivated and pasture land has been made more economically sound by more and better crops. The present system is sufficient.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have been a neighbor and lived there 11 years and have been a frequent visitor to the property and witnessed the sprinklers in operation over these lands since 1953 and during the growing seasons in 1954 and 1955.

RE: Permit No. G-24357

Mr. Raymond T. Greene, Jr.
Attorney At Law
Sandpoint, Idaho

Dear Mr. Greene:

We have received your letter of February 6, 1956, in which you state that you can take depositions for Completion of Works and application of water to Beneficial Use proofs on March 9, 1956.

This is somewhat of an unusual case as Mr. Charles L. Taylor Applicant and owner, of said Permit is in California and under the Doctors care and cannot appear at the taking of these depositions.

It is our understanding that he has given a power of attorney to Mrs. June Schrock the Contract buyer and her husband to act in behalf of Mr. Taylor to execute the deposition as Holder of said Permit.

We will instruct Mrs. June Schrock with two disinterested witnesses to appear before you in order to take their depositions at 10:00 A. M. on March 9, 1956.

We are not sure that the Schrock's have the Permit in their possession from which it will be necessary to get the required information. We are, therefore, enclosing herewith a copy of said Permit that you may have the required information and the blank forms upon which the Holder and witnesses should make their depositions.

Very truly yours,

RE: Permit No. G-24357

Mrs. June Schrock
Route # 1
Athol, Idaho

Dear Mrs. Schrock:

We have received a letter from Mr. James O. Goodwin, who evidently is Attorney for Charles L. Taylor, which states that he has requested you to act in his behalf in the execution of depositions to be taken in proving up on Mr. Taylor's Water Right, Permit No. G-24357.

We are sending to the Sandpoint News Bulletin of Sandpoint, Idaho, Publication Notice stating that proofs will be taken before Mr. Raymond T. Greene, Jr., Notary of Sandpoint on March 9, 1956, at 10:00 A. M. You should appear at Mr. Greene's Office as of the date and hour stated together with two disinterested witnesses who are familiar with the terms of the Permit and the work done thereunder and also have seen the water applied to Beneficial Use for the purpose of executing the enclosed depositions.

In case you haven't the Permit No. G-24357 issued by this Department to Mr. Taylor, in your possession, we have prepared a copy of same and have mailed it to Mr. Raymond Greene that he may have the necessary information in order to help you with the depositions.

To protect your Water Right it will be necessary for you to make these depositions as of the date set or said Permit will go by default.

These proofs are way past due and if these proofs are not made on the date now set said Permit will be cancelled by this Department.

Very truly yours,

MARK R. KULP

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M., on the 9th
day of March, 19 54, at Sandpoint, County of
Bonner State of Idaho, before Raymond T. Greene Jr., Notary
proof will be submitted of the completion of works for the diversion of 2.4
cubic feet per second of the waters of subterranean (well)
with point of diversion in the SW 1/4 Sec. 30, Township 54 North, Range 2 West, B.M.
and of the application to beneficial use of said water, in accordance with the
terms and conditions of Permit No. Op24357 heretofore issued by the Department
of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation
holding said permit are Charles L. Taylor, Rt. 1, Box 308, Beavercreek, Oregon.

2. Said works of diversion will be fully completed on the date set for
such completion, and the amount of water which said works are capable of conveying
to the place of use, in accordance with the plans accompanying the application for
such permit, is 2.4 cubic feet per second.

3. The use to which said water has been applied is irrigation.
purposes, and the amount applied to beneficial use is
2.4 cubic feet per second.

4. The place where said water is used is SW 1/4 Sec. 30; SW 1/4 Sec. 19,
Township 54 North, Range 2 West, B. M.

5. The date of priority which said user is prepared to establish is
February 5, 1954.

Attention: Roy W. Thompson

Dear Mr. Thompson:

Thank you for your letter of February 3, 1956
regarding Charles L. Taylor.

Please be advised that March 9th, 1956, at ten
o'clock a.m. here at my office will be convenient for me to
take this proof. If another day would be better for you or Mr.
Taylor, please advise me.

Very truly yours,

Raymond T. Greene, Jr.

Mr. Raymond T. Greene, Jr.
Attorney At Law
Sandpoint, Idaho

Dear Raymond:

There is a Mr. Charles L. Taylor who owns a farm near Sandpoint and wishes to make proof of Completion of Works and Beneficial Use on a subterranean water right filed with this Department.

We are wondering if you could arrange to take the depositions of the Holder of this Permit and his two witnesses between the dates of March 9 and 17, 1956.

Kindly let us know time of day and day of month that Applicant may appear before you and execute the proofs so that we can use this information for publishing notice in the Sandpoint News Bulletin.

Statutes require publication of a notice once a week for four consecutive weeks in a designated county newspaper.

Providing it will not be possible for you to take these depositions at the time as stated above, perhaps you could arrange with someone who can.

Many thanks for an immediate answer. Kind regards to yourself and family.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. G-24357

Attention: Jeanne L. Anderson, Chief Clerk

Gentlemen:

Again I apologize for our delay in the above matter. Mr. Taylor has asked me to have you set a date for his proofs on or about March 1, 1956, and has requested that the place be at or near his property at Route 1, Athol, Idaho. He has nominated the Schrocks, that is, June Schrock (the contract buyer) and her husband, to give their testimony or depositions.

We do not know the name of any notary public in that area and request that you go ahead and complete the notice with the date of March 1, 1956, or such following date as is convenient to your office, and that if possible, you supply the name of a proper notary public, and that you go ahead with the publication of notice. If you would be kind enough to advise me of the probable expense in the matter, I will get sufficient funds from Mr. Taylor and transmit the same to you.

I notice in the fourth paragraph of your letter of November 21, 1955, that you are correcting the description of the place of use. However, Mr. Taylor insists that the well is located in the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Sec. 30, T.54 N. R. 2 W. B.M.

It will be impossible for Mr. Taylor to appear at the taking of proof and I am advising Mrs. June Schrock and her husband that he has requested them to act as his agents in the matter. If you wish you may correspond directly with them at Route 1, Athol, Idaho.

Very truly yours,

James O. Goodwin

Mr. James O. Goodwin
Suite 200 Butler Building
Oregon City, Oregon

Dear Mr. Goodwin:

We have your letter of November 17 enclosing duplicate notice for proof of completion of works and beneficial use on the above numbered Permit in the name of Charles L. Taylor.

We appreciate the conditions and will be glad to complete this notice if you will advise the date on which proof is to be made, also, the place and the name of the Notary Public.

The proofs may be made at any place convenient for Mr. Taylor and two witnesses, but the date must be set far enough ahead to allow for four weeks publication in a county newspaper.

We also note that the Permit describes the place of use as the NW¹/₄NE¹/₄ and SE¹/₄NE¹/₄ Section 30 and the SW¹/₄SE¹/₄ Section 19, Township 54 North, Range 2 West, B.M., so with your permission, we will show this as the place of use rather than the one 40 on which the well is located.

If Mr. Taylor's condition is such that he will not be able to make the proofs in his own behalf, someone else who is familiar with the conditions could act as his agent in this matter.

Very truly yours,

State Reclamation Engineer

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) Nov 5, 1955

(P. O.) Rt 1 Box 322 Beaver Creek, Oregon

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Sand Point, Bulletin ^{news} of Sand Point, Bonneville County published in
the county in which the works are situated.

Charles L Taylor

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

24357

November 14, 1955

RE: Permit No. G-24357

Mr. James O. Goodwin
200 Butler Building
Oregon City, Oregon

Dear Mr. Goodwin:

Reference is made to your letter of November 9, 1955, in regard to the above numbered Permit in the name of Charles L. Taylor.

If we understand the situation correctly Mr. Taylor is selling this property on contract to Mrs. June Shrock, but does not wish to assign or transfer same until the contract is completed.

For that reason we have advised Mr. Taylor that any steps in connection with this Permit should be made by himself rather than the contract owner.

The Permit states that the well was completed, but the land not entirely cleared and two years was then allowed for making the statutory proofs of Completion of Works and Beneficial Use required to complete the Water Right.

In order to reinstate the Permit and keep it in good standing one of two courses can be followed:

First, if the works have been completed, that is the well drilled, pump installed, and all of the land irrigated, proofs can be made at this time. This well requires publication of a notice once a week for four weeks in a newspaper in Bonner County on forms which we can furnish, following which an inspection is made by an Engineer from this department and thereafter a Certificate of Completion of Works and License issued thus completing the Water Right.

24357

Mr. James O. Goodwin

-2-

November 14, 1955.

Second, or, since the statutes allow a maximum of five years within which to make these proofs and the original Application only asked for two years an extension can be allowed for the additional three years or up to August 15, 1958. This Application should be made on the form enclosed.

We shall await your further advice before taking any further action in regard to this Permit.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Attention: State Reclamation Engineer

Re: Permit No. G-24357
Charles L. Taylor

Gentlemen:

Mr. Taylor recently lost his home here by fire and was lucky to escape with his night clothes and his life. He is in a rather disturbed condition and one of his great worries is the water right on his property in Bonner County. He swears that he had completed this well and irrigation project around June 1, 1953, when the R.E.A. records will show he commenced use of irrigation power. As I understand it he has made a contract with a Mrs. June Shrock for the sale of these premises and wants to perfect his water right in order that he may transfer this to Mrs. Shrock when the property is paid for or have it himself in the event that she does not complete the purchase.

Would you be kind enough to advise me in what respect your department feels the work is to be deficient or incomplete as of August 15, 1955.

I believe under the circumstances it might also be in order to request an extension of time for a hearing to be arranged, if such is necessary, as Mr. Taylor is in no condition at present to travel to Idaho or make the necessary arrangements for any hearing. Any help or advice you could give me would be greatly appreciated.

Very truly yours,

James O. Goodwin

RE: Permit No. G-24357

Mr. Charles L. Taylor
Route 1 - Box 302
Beaver Creek, Oregon

Dear Mr. Taylor:

We note your reply in reference to office letters addressed you in regard to the above numbered Permit which is being held for cancellation for failure to make proof of completion of works when due August 15, 1955.

Since you have sold this permit on contract, we understand that you do not wish to assign it over to Mrs. Schrock until the contract is completed and we could not accept her proof so long as the permit remains in your name.

Since the statutes allow a maximum of five years within which to make the proof and your original application only asked for two years, we think the best solution might be for you to apply for an extension of time for making this proof and we enclose a form of application for extension herewith.

This would allow time for Mrs. Schrock to drill another well and it would also allow time for your contract with her to be completed.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. G-24357

Mr. Charles L. Taylor
Route # 1 - Box 302
Beaver Creek, Oregon

Dear Mr. Taylor.

Reference is made to your notation on our letter addressed you on October 12, 1955, stating that you sold the place on contract but it will remain in your name for the present.

We therefore return your Postal Money Order for the 50¢ enclosed in your letter.

The Permit may be reinstated by submitting depositions of yourself and two witnesses describing the works and stating that they were so completed and the water beneficially used before August 15, 1955, the due date.

Before this is done the statute requires publication of a notice once a week in a county newspaper and this notice should be made in duplicate on the form enclosed setting the time and place and naming the Notary Public before whom the proof is to be made.

The proof may be made at any place convenient for you and your two witnesses but the notice must be published in the county where the land is located and the time must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this Department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

On the other hand if the work is not entirely completed and the water beneficially applied you may apply for an Extension of Time using the Form enclosed.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RECEIVED
OCT 19 1955
Department of Reclamation

Mr. Charles L. Taylor
Route 1, Box 302
Beaver Creek, Oregon

Dear Mr. Taylor:

We have your letter in reply to notice that Permit No. G-24357 is subject to cancellation for failure to make proof of completion of works when due on or before August 15, 1955. We note your statement that you have sold this property but that the water has been used continuously for the past two years.

It is unfortunate that you did not inform this department with an assignment of the permit so that notice could have been sent to the present owner.

However, if we understand your letter correctly and you have completed the well in the NW¹/₄ NE¹/₄ Section 30, Township 50 North, Range 2 West, B.M. and have applied the water for the irrigation of land in the NW¹/₄ NE¹/₄ and SW¹/₄ NE¹/₄ of said Section, proof of such completion and use may still be made by yourself or the present owner and the permit may be reinstated and Certificate of Completion of Works issued.

Otherwise, final order of cancellation will have to issue for Permit No. G-24357 and the new owner may then refile for a new Permit in his own name. This new Permit will, however, take the current priority rather than the original priority of August 15, 1953.

Very truly yours,

RECEIVED
OCT 12 1955

Gentlemen Department of Reclamation

In regards to no 9-24357.

This water was used continuously for the past 2 years, as R. E. A. irrigations rates will show, plus any number of people will swear to the use of this water for irrigation.

I have since sold the place and had started to drill another well which may not have been finished, the intention of this unfinished well was to water S.E. $\frac{1}{4}$ of section 19. and had nothing what ever to do with Section 30.

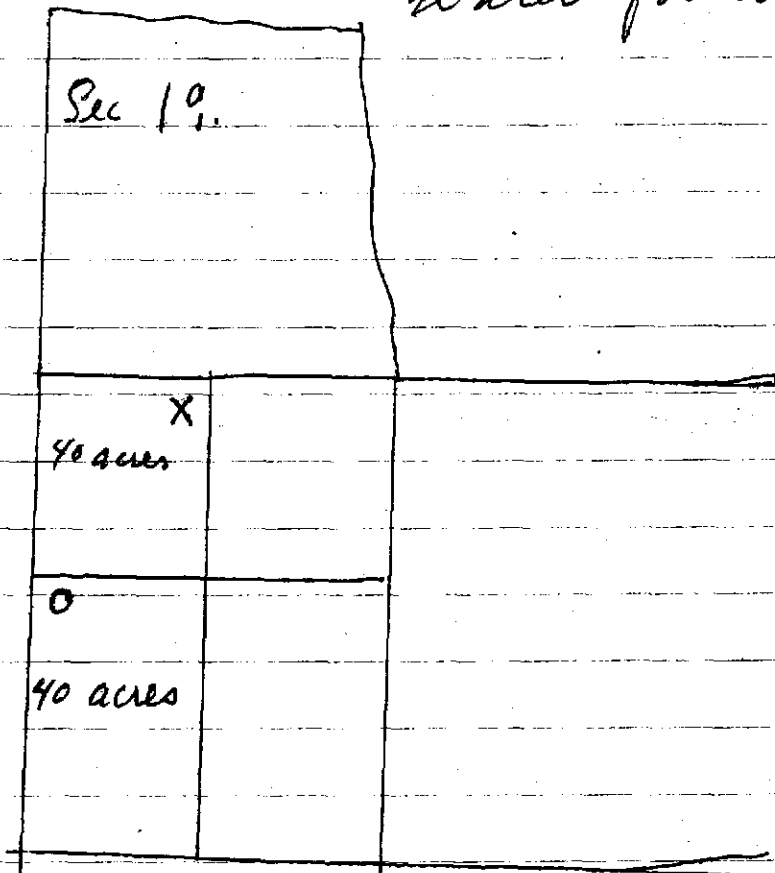

Excuse me please I find the mistake it was the S.W. $\frac{1}{4}$ and the N.W. quarter of Section 30. the point of location being on the S.W. $\frac{1}{4}$ (40 acres) and this well waters the N.W. 40 acres and it is on the N.W. 40 that another well was being drilled, to water land on Sec 19. Map inclosed on back.

I hope this explains every thing, I wish I could blame the mistake on my wife or the government, but the fact is I made it myself.

Charles L Taylor

J 24357

- x marks spot of new well for watering Sec 19.
- o marks spot where well is located that supplies water for both 40 acres

Will you please let me know if this is satisfactory

If Sec 19 is mentioned I would like more time, as I might have to finish this well my self if the buyer fails on his contract

If Sec 19 is not ~~not~~ mentioned, ignore this

Re: Permit No. G-24357

To Mr. Charles L. Taylor
Box 15
Careywood, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. G-24357
to appropriate the Public Waters of the State of Idaho, have not been complied with as to
Completion of works August 15, 1955

you are hereby notified in compliance with Sec. 42-311, Idaho code that said Permit No. G-24357
is hereby held for cancellation.

You are hereby required to show cause before the State Reclamation Engineer on or before forty days from
date of this notice why said Permit should not be cancelled.

Said Permit No. G-24357 claims the use of 2.4 cubic feet per second of the
waters of a well with point of diversion located
in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 30, Township 54 North, Range 2 West, E. M., and
was approved August 15, 1953

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the
4th day of October, 1955

Careywood, Idaho

Dear Mr. Taylor:

We have your application for permit to appropriate subterranean waters accompanied by a postal money order for \$5.00 and note Mrs. Taylor's inquiry as to what way you would be protected by filing for a water right.

If an application is filed in this department and a permit issued it becomes a matter of record with date of priority the same as the date the application is filed. Thereafter, when the statutory proofs of Completion of Works and Beneficial Use are made, a license will be issued which gives you a permanent water right so long as the water is beneficially used.

On the other hand, one may obtain use right by proving in the district court, continuous use of the water over a period of years, the date of priority being the earliest proof date of use.

The application indicated that the water is to be used on 120 acres described as the SW SE Section 19, W¹/₂ NW Section 30, Township 54 North, Range 2 West, S. M. and that you wish to apply for an inch to the acre of 120 inches.

The filing fee on this amount is \$5.50 being at the rate of \$5.00 for the first 50 inches (one cubic foot per second) and an additional 25 cents for each additional 50 inches or fraction thereof. There is, therefore, a balance of 50 cents necessary to complete the filing fee.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mrs. Charles L. Taylor
Box 15
Careywood, Idaho

Dear Mrs. Taylor:

This morning's mail brings us the enclosed notation on the bottom of our letter of July 13, 1953, but as you can see the envelope was broken open at the end and there was no money enclosed.

It really is not safe to send a coin by mail unless it is in a coin holder or sufficiently wrapped so that it cannot slip through and we suggest you replace this with a check or money order.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

He were informed we didn't have to
have a water right but it was best
to have it. In what way does it
protect

Resp.
Mrs Charles Taylor.

**NOTICE OF PROOF OF COMPLETION
OF WORKS AND APPLICATION
OF WATER TO BENEFICIAL
USE**

Notice is hereby given that at 10 A. M., on the 9th day of March, 1956, at Sandpoint, County of Bonner, State of Idaho, before Raymond T. Greene Jr., Notary Public, proof will be submitted of the completion of works for the diversion of 2.4 cubic feet per second of the waters of subterranean (well) with point of diversion in the SW $\frac{1}{4}$ -NE $\frac{1}{4}$ Section 30, Township 54 North, Range 2 West, B. M. and of the application to beneficial use of said water in accordance with the terms and conditions of Permit No. G-24357, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Charles L. Taylor, Rt. 1, Box 302, Beavercreek, Oregon.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 2.4 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 2.4 cubic feet per second.

4. The place where said water is used is W $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 30; SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 19, Township 54 North, Range 2 West, B. M.

5. The date of priority which said user is prepared to establish is February 5, 1954.

MARK R. KULP,

State Reclamation Engineer
