Re: Permit No. 23729

Delbert L. Haynes
Box 53
Sandpoint, Idaho

Dear Mr. Haynes:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. 23729 shows the river is capable of conveying 6 miner's inches, or .12 c.f.s. of water for the irrigation of 6.35 acres.

Upon receipt of the statutory fee of \$ 6.00 -based at the rate of \$2.00 for each 40-acre subdivision - we will issue the License and Certificate of Water Right, confirming the right with priority of February 12, 1953 to the use of .12 second feet of surface water with the point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 32 for irrigation of 6.35 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 29; NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 32, Township 57 North, Range 2 West, B.M.

Since your permit does not include the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 29 it will be necessary to amend the land list on the permit, if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the License and Certificate of Water Right will be issued as shown above. If you do not want the extra land included, the statutory fees will total \$4.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

RE: Permit No. 23729
Delbert L. Haynes

Dale R. Sanner, County Supervisor
Farmer's Home Administration
Sandpoint, Idaho

Dear Mr. Sanner:

Mr. Haynes made the proof of beneficial use of the water last fall. The field engineer will make inspection of the works in due course. He has a heavy load of inspections this summer, very few of which are in North Idaho. He will notify Mr. Haynes prior to the time of his visit.

Very truly yours,

Dear Sir:

We are trying to determine those borrowers of the Farmers Home Administration who have met the necessary requirements to appropriate waters of the State of Idaho.

According to our record, Mr. Delbert L. Haynes of Sandpoint, Idaho was issued permit No. 23729 but we have no record that a license was issued.

We would appreciate knowing if your record discloses Mr. Haynes as having met all the requirements to secure the license.

Sincerely yours,

Dale R. Sanner

Dear Mr. Haynes:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Sandpoint News-Bulletin, all submitted in proof of beneficial use on Permit No. 23729.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Water Use Permit #23729 - *Frank Leslie River*
Application #31504

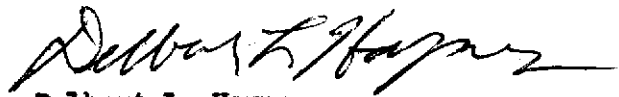

Gentlemen:

On approximately February 12, 1953, application for a water permit was submitted and permit #23729 was received. The approval of the State Reclamation Engineer, as recorded in book 84, page 23729, was dated February 20, 1953. In this application, the whole of said work was to be completed before February 20, 1958.

This is to inform you that this work has been completed and the water system is used every summer during the dry season.

It is requested that necessary action be completed so that I may receive water rights in accordance with the above reference application and permit.

Yours very truly,

Delbert L. Haynes
