Re: Permit # G-23212

Mr. George F. Parkins
Vay, Idaho

Dear Mr. Parkins:

Statutes requires a field inspection in connection with the proofs on Permit # G-23212 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Friday,

May 30th.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Dear Mr. Parkins:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Sandpoint News-Bulletin, all submitted in Proof of Completion of Works and Application of Water to Beneficial Use on Permit No. G-23212.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

RE: Permit No. G-23212

Mr. George F. Parkins
Vay, Idaho

Dear Mr. Parkins:

This acknowledges receipt of the Notice of proofs of completion of works and application of water to beneficial use under Permit No. G-23212, to be made at Sandpoint at 10:00 A.M. on the 5th day of November, 1957, before Phillis Porath, Notary Public.

As of this date, we have mailed the Notice to the Sandpoint News Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and to then mail the affidavit of publication and statement of costs to you.

In completing the enclosed depositions, it is very important that they be executed by you and two disinterested witnesses, who are familiar with the terms and the work done thereunder, at the time, date, place and before the Notary as advertised in the publication Notice, as well as all other necessary information. The signatures and the Notary's seal are essential.

When returning the depositions to this office, please be sure to include the affidavit of publication.

Very truly yours,

RE: Permit No. G-23212

Date September 1, 1957

Mr. George F. Perkins
Vay, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-23212, are due not later than November 6, 1957.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date. This form, filled out in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Also enclosed is Form 11, which is the authorization for us to have the notice of proof published in the designated county newspaper, at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper, we will also send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
