ANTHON H. EDWARDS, Assigner
George W. Langford, Assignee

THIS IS TO CERTIFY that ANTHON H. & LEROY EDWARDS -
of Route #1, Samuels, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated October 2, 1952; that Permit No. 23108
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
1.6 second feet, was issued thereunder on November 5, 1954, showing that said works
were completed on the 3rd day of November, 1954; and that on the 27th
day of March, 1957, ANTHON H. EDWARDS

of Samuels, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of Grouse Creek
Pond Oreille, a tributary of Pack River thence Lake for the purpose of Irrigation and domestic
use, under Use Permit No. 23108 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
10 of Licenses at page 6381, on the 24th day of July, 1958;
The right hereby confirmed dates from March 8, 1953;

The Point of Diversion is located
in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 35, Tp. 59 N., R. 1 W., B. M. County Bonner

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed .24 cubic feet per second.

Description and location of use:

APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 30867
PERMIT No. 23108
DISTRICT No.

1. Name of Applicant: ANTHON H. & LEROY EDWARDS

Postoffice address: Rt. 1, Samuels

County: Bonner

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of capital stock:

(c) Amount paid in:

(d) Names and addresses of directors:

II. The financial resources of the applicant are:

(b) Treasury stock:

(d) Other resources:

(a) Cash on hand:

(c) Bonds to be issued:

2. Quantity of water claimed: 1.6

cubic feet per second.

3. Source of water supply: Grouse Creek

which is a tributary of Pack River, thence Lake Pend Oreille

4. Location of point of diversion: 350 feet Southeasterly ~~feet~~ distant from the N. E.
of SE $\frac{1}{4}$ SW $\frac{1}{4}$
corner of Section 35, T. 59 N., R. 1 W., B.M., and is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$
of Section 35, T. 59 N., R. 1 W., B.M., County of Bonner

5. Water is to be used for Irrigation and domestic use

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 150.00

8. Kind of works: Enlargement of 1/4 mile of ditch now in use, construction of 1/4 mile new ditch

9. Height of dam 2 feet; length of dam at top 40 feet; length of dam at bottom 35
feet; material used in dam: Loose boulder rock- straw-brush, etc.

10. Size of headgate: Width 6 feet; height 3 $\frac{1}{2}$ feet.

11. Ditch: Width at bottom 5 feet; width at water line 5 $\frac{1}{2}$ feet; depth of water 1 $\frac{1}{4}$ feet;
dimensions of flume:

Diameter of pipe inches; length of conduit 1/2 miles.

Average grade per mile 6.5 feet.

12. The time required for the completion of such work is Two (2) years.

13. The time required for the complete application of the water to the proposed use is Two (2) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

16. (a) Is reservoir to be used? If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

Re: License No. 23108
Anthon H. Edwards

Ralph Lund
Samuels, Idaho

Dear Mr. Lund:

Water License No. 23108 has been issued to Anthon H. Edwards for 0.24 cubic feet per second of water from Grouse Creek in the SW SE $\frac{1}{4}$, Sec. 35, to irrigate 12 acres of land in SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 34, T. 59 N., R. 1 W.

The water right is appurtenant to the land described and passes with the ownership of the land. Water can be transferred from one place to another upon application through this office, however we have no record of this water right having been transferred to other property.

This office cannot keep records of new owners of the land involving water rights.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Dear Mr. Edwards:

This will acknowledge receipt of an assignment assigning Permit No. 23108 by yourself to George W. Langford, of Route # 1, Samuels, Idaho.

There is a statutory fee of fifty cents for recording which we will have to have before recording said assignment. Kindly furnish this department with the fifty cents and the assignment will be recorded and returned to you.

You state that you wish to transfer license and certificate of water right, water license No. 22050 also to George W. Langford, in connection with the $S\frac{1}{2}SW\frac{1}{4}$ of Section 35, Township 55 North, Range 1 West.

We wish to state that the license which you now have in your possession is final as far as this department is concerned. The license and the water right stated therein is appurtenant to the land to which the license refers. Therefore all you have to do is to turn the license over to Mr. Langford.

Very truly yours,

January 7, 1958

Re: Permit No. 23108

Mr. Anthon H. Edwards
Rt. # 2,
Sandpoint, Idaho

Dear Mr. Edwards:

In reference to Permit No. 23108 and to your letter of December 11, 1957, since you did not request an extension of time on Beneficial Use Proof in connection with your Permit No. 23108 until this late date, we are now unable to grant you an extension of time for making Beneficial Use Proof.

In talking over the advisability of with-drawing your Beneficial Use Proof made on March 27, 1957, we have talked the matter over in this office and we suggest that you let your Beneficial Proofs remain as they are at the present time and that you do not with-draw them.

When Mr. Humphrey returns to your section of the State, which will be sometime next spring or early summer, he will make another inspection of the lands irrigated, after which a license can be issued to you at the rate of one inch per acre for the land you have under irrigation.

At some future time, when you have the remaining acreage as shown in the permit under irrigation, you can make supplemental Proof of Beneficial Use and receive a second license of water right on the balance of your acreage. Your priority date, however, will be advanced the same length of time as your proof is late, for example, your Beneficial Use Proof, if it had been made on time, would give a priority date of October 2, 1952, the date your filing was received in this office. Therefore, if you do not make the supplemental Beneficial Use Proof until October 21, 1960, your priority date will be advanced a full four years, giving you a priority date of October 2, 1956.

23108

Mr. Anthon H. Edwards

-2-

January 7, 1958

You state in your letter that you are selling your half of the property which is the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 34. You should, in this case, assign your half interest in the the water permit over to the person you are selling to. A form for this purpose, partially filled out, is enclosed. Fill in the person's name to whom you are selling and you and your wife sign, if you are a bachelor, so state, before a Notary and return to this department together with a fee of fifty cents for recording same.

It is impossible to divide the water right at this time as you have no water right to divide. When license for water right is issued, same will be made appurtenant to the lands under irrigation at the rate of one inch per acre irrigated.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RECEIVED
JAN 6 1958

Department of Reclamation

Route # 2
Sandpoint, Idaho.
December 31, 1957

Department of Reclamation
Boise Idaho.

Dear Sir;

Last July when Mr
Humphry was up to Sandpoint
inspecting water applications
for final proof of water,
on property described as
E $\frac{1}{2}$ of S.E. $\frac{1}{4}$ of Sec. 34 in
Township 59 N. R. one W of
B. M. On Permit No. 23108
To Anthon H. and Le Roy
Edwards. He advised us
to withdraw our application
of final proof, and to get

23108

an extension of time
untill July of 1960.

At which time we should
be able to put the water to
use better.

Since Mr. Humphry was
hear. By Doctor's orders I
have to sell my portion
of that property. The person
I am selling to wants to divide
the Permit no. 23108. the
portion he will have is
the north 40 acres or the
N.E. $\frac{1}{4}$ of the S.E. $\frac{1}{4}$ of Sec.
34 T. 1. R. 1. W. B. M.

Can this division be
made before final Proof is
made?

23108

Respectfully
Edw. H. Edwards

July 22, 1957

Re: Permit # 23108

Anthony H. & LeRoy Edwards
Route # 1,
Samuels, Idaho

Dear Mr. Gentlemen:

Statutes requires a field inspection in connection with the proofs on Permit # 23108 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Wednesday,

July 31st.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

MARK R. KULP

Anton H. and Leroy Edwards

Greene & Hunt
Attorneys at Law
323 North Second Avenue
Sandpoint, Idaho

ATT: Mr. Raymond T. Greene, Jr

Dear Mr. Greene:

We acknowledge receipt of the depositions of Anton H. and Leroy Edwards and their two witnesses, also affidavit of publication in the Sandpoint News-Bulletin, all submitted in proof of Application of Water to Beneficial Use on Permit No. 23108.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this Department.

We cannot tell just when this examination will be made, but our field engineer will try and contact either Anton H. or Leroy Edwards at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK H. KULP

Permit No. 23108

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Anthon H. Edwards; Route 1, Samuels, Idaho; farmer; Rt. 1, Samuels, Idaho, also appearing upon behalf of Leroy Edwards of Route 1, Samuels, Idaho, joint holder.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. - - - - -

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 23108; October 21, 1952; October 21, 1952

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Grouse Creek in Bonner County, Idaho. 350 ft. Southeasterly from the NE corner of SE 1/4 SW 1/4 of Sec. 35, T59N, R1, W.B.M. and is in the SW 1/4 SE 1/4 of Sec. 35, T59N, R1, W.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Boulder, straw, brush and gravel dam in Grouse Creek, water carried by a private ditch which is capable of conveying to place of use 1.6 cubic feet per second of water to place of use.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic for livestock and for irrigation of crop lands. NE 1/4 of SE 1/4 and SE 1/4 of SE 1/4 of Sec. 34, T 59 N, R 1, W.B.M. 80 acres actually irrigated. Both cultivated and pasture land. More and better crops and longer pasture of livestock.

23108

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Stock water through ditches

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1.6 cubic feet per second

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. -----

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Been used for 2 years running, has been used on cultivated land and also on pasture by irrigation ditches to full capacity of ditches during irrigation seasons.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign) Arthur H. Edwards

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

PERMIT NO. 23108

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Albert Decker; age 25; laborer; 405 S. Lavina, Sandpoint, Idaho.

405 S. Lavina, Sandpoint, Idaho.

Ques. 2. Are you acquainted with Anthon H. and Leroy Edwards, the holder of Permit No. 23108? How long have you known him and where does he reside?

Ans. Yes; 9 years; Route 1, Samuels, Idaho

Ques. 3. Have you read or heard read said Permit No. 23108, and are you familiar with its provisions and conditions?

Ans. yes; yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Grouse Creek in Bonner County, Idaho; place of diversion being 350 ft. SEly from NE corner of SE 1/4 SW 1/4 of Sec. 35, T59N, R1, W.B.M. and in the SW 1/4 SE 1/4 of Sec. 35, T59N, R1, W.B.M.; boulder, straw, brush and gravel dam in Grouse Creek with water carried by private ditch.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1.6 cubic feet per second at least; 1.6 cubic feet per second.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic for livestock and for irrigation of crop lands. NE 1/4 of SE 1/4 and SE 1/4 of SE 1/4 of Sec. 34, T59N, R1, W.B.M. ; 80 acres actually irrigated.

Both cultivated and pasture land. Has been able to raise bigger and better crops and pasture animals longer during the year.

23108

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For watering stock

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Soil generally gravel base and prior use was limited pasture. Will take all of 1.6 cubic feet per second requested.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Close neighbors, visit frequently and discuss various farm and personal problems. On numerous occasions during the growing seasons for the past two years have been on the property and observed the same.

(Signed) Albert Decker

Notice For Publication
NOTICE OF PROOF APPLICATION OF
WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A.
M. on the 27th day of March, 1957,
at 323 N. 2nd, Sandpoint, County of
Bonner, State of Idaho, before Raymond
T. Greene, Jr., Notary Public, proof
will be submitted of the application
to beneficial use of 1.6 cubic feet per
second of the waters of Grouse Creek
in accordance with the terms and con-
ditions of Permit No. 23108 heretofore
issued by the Department of Reclama-
tion of the State of Idaho.

The name and postoffice address of
the person or corporation holding said
permit are Anthon H. and Leroy Ed-
wards, Route 1, Samuels, Idaho.

The use to which said water has been
applied is irrigation and domestic.

The amount applied to beneficial use
is 1.6 cubic feet per second.

The place where said water is used
(if for irrigation, give full and accu-
rate description of the lands irrigated)
NE 1/4, SE 1/4, Sec. 34, Township 59 North,
Range 1, West B. M.

The name of the canal or ditch or
other works by which said water is
conducted to such place of use is Pri-
vate ditch, no name.

The right to take water from such
works is based upon Permit No. 23108.

The source of supply from which such
water is diverted is Grouse Creek.

The date of priority which said user
is prepared to establish is October 8,
1953.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Anton H. & Leroy Edwards
Route 1
Samuels, Idaho

Boise, Idaho **August 3, 1954**

Dear Sirs:

Under the terms of your permit No. 23108 you are required to complete your diversion works on or before October 21, 1954. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. EULP

Dear Mr. Edwards:

In reply to your letter of August 18, 1952, we enclose a form of application for permit to appropriate the public waters of the State of Idaho together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.

Very truly yours,

Department of Reclamation

Samuels Idaho

Aug. 18, 1952

Department of Reclamation
State House
Boise Idaho

Dear Sirs:

We are hereby asking for blanks
to make application for water filling for the
following described 80 acres.

East Half of the Southeast Quarter
of Section Thirtyfour in Township
Fifty-nine, Range One, West of Boise
meridian.

This filling is to be for Le Roy Edward
and Arthur H. Edwards.

Yours Resp.
Arthur H. Edwards
Samuels Idaho.

Notice For Publication
**NOTICE OF PROOF APPLICATION OF
WATER TO BENEFICIAL USE**

Notice is hereby given that at 10 A. M. on the 27th day of March, 1957, at 323 N. 2nd, Sandpoint, County of Bonner, State of Idaho, before Raymond T. Greene, Jr., Notary Public, proof will be submitted of the application to beneficial use of 1.6 cubic feet per second of the waters of Grouse Creek in accordance with the terms and conditions of Permit No. 23108 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Anthon H. and Leroy Edwards, Route 1, Samuels, Idaho.

The use to which said water has been applied is irrigation and domestic.

The amount applied to beneficial use is 1.6 cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 34, Township 50 North, Range 1, West B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Private ditch, no name.

The right to take water from such works is based upon Permit No. 23108.

The source of supply from which such water is diverted is Grouse Creek.

The date of priority which said user is prepared to establish is October 8, 1953.

MARK R. KULP,
State Reclamation Engineer
