Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Jay Mount, age 46, farmer, Kootenai, Idaho

Ques. 2. Are you acquainted with H. Dockins, the holder of Permit No. 22953? How long have you known him and where does he reside?

Ans. Yes, and have known about 6 years. He resides West of Great Northern depot on Baldy Road just out of Sandpoint, Idaho

Ques. 3. Have you read or heard read said Permit No. 22953, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Unnamed creek which is a tributary of Pend Oreille River in Bonner County. One diversion point is in SW $\frac{1}{4}$ NE $\frac{1}{4}$ and one in SE $\frac{1}{4}$ NE $\frac{1}{4}$ 17-57-2WBM. Works consist of sprinkler system of usual pipe, pump and sprinklers for irrigation by that method.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 0.4 second feet

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation purposes. 10 acres in SE $\frac{1}{4}$ SW $\frac{1}{4}$ NE $\frac{1}{4}$ and 40 acres in SE $\frac{1}{4}$ NE $\frac{1}{4}$ situated in section 17, twp 57, NR 2 WBM. Prior cultivated lands and the improvements the direct result of this irrigation consist of approximately double yield crop from prior yield before system installed.

22953

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. none

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is previously cultivated land and system here makes full use of its possibilities. Believe present 0.4 second feet now required for profitable cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. none

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Am constant visitor of Mr. Dockins and have been interested in his system during years 1952 and 1953. Noted frequent occasions fall of 1952 and summer and early fall of 1953 full use and application of sprinkler system of Mr. Dockins to lands above described.

RE: Permit No. 22953

Mr. H. Dockins
Route # 1
Sandpoint, Idaho

Dear Mr. Dockins:

Reference is made to your letter of August 27, 1953, stating that you have completed your sprinkler system under Permit No. 22953 and are prepared to make the necessary proofs.

Proof of Completion of Works can be made by executing Form 6 enclosed before a Notary Public and returning to this Department with the statutory fee of \$5.00.

Before making proof of Beneficial Use, the law requires that a notice be published once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proof is to be made.

The proof may be made at any place convenient for you and your two witnesses and the date should be set sufficiently far ahead to allow for publication.

Both copies of Form 10 to be returned to this Department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

Very truly yours,

Dear Sir:-

In regard to my application
for a water right; I received a
letter from you some time ago
saying it was OK, but you had
to know how much water I
intended to use out of either Creek

I answered in the next mail, that
after studying the water flow in
both the unnamed creek, and Syringa
creek, I thought best to appropriate
all of the one second foot from the
unnamed creek. As I have never

heard from you, I'm writing again, as
I was afraid the first letter was lost.

I hope to hear from you soon,
as you know the season is short
up here, and I would like to get to
work soon as possible

Dear Mr. Dockins:

We acknowledge receipt of your application for permit to appropriate one second foot of water from an un-named creek and Syringa Creek, accompanied by your check for the \$5.00 filing fee.

However, you do not state how much water is to be taken from each stream-

Please advise as to this.

Dear Mr. Dockins:

In reply to your letter of July 26, 1952, we enclose a form of application for permit to appropriate the public waters of the State of Idaho together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.
